

# NEWS of SOCIETY

The Junior members of the Country Club were entertained last evening at the club with a dancing party. One hundred and twenty-five young people were in attendance and everyone had a good time dancing with excellent music furnished by Lindquist's orchestra.

The club was beautifully decorated with a very effective lighting system and during the evening duty refreshments were served to the young people.

An attractive affair of yesterday took place at the home of Mrs. Andrew Loney, Jr., when Mrs. Frank Robinson and Mrs. Loney were business at the Friday Bridge Club. Bridge was the feature of the afternoon with high scores going to Mrs. Hill Tompkins and Mrs. Raymond Ringer signing the consolation prize.

The home was artistically decorated with exquisite spring flowers and during the afternoon a dainty luncheon was served by the charming hostess.

The club will meet next at the home of Mrs. Dick Lindsay.

The annual breakfast of the Neighborhood Club will be held May 23, at 11:30 o'clock, at the Presbyterian church. All members desiring to attend must buy a ticket on or before May 27. Tickets may be obtained from Mrs. Fowler at the water office or at the next meeting of the Neighborhood Club, May 27.

The Junior Church Women's Service League met at the home of Miss Catherine Buckley Friday evening. Plans were discussed and committees appointed for the benefit picture show to be held by them at the Star Theatre Monday, May 26th.

The next meeting will be held at the home of Miss Margaret Crossley.

The Westminster Guild of the Presbyterian Church will have their annual picnic Monday evening, May 19, at 5:30 o'clock, at the city park. Everyone is requested to bring a server and dishes.

Mrs. Fred J. Holmes will be hostess to the Monday Bridge Club on Thursday afternoon at her home on Fourth street.

Medical Springs, Ore. (Special)—Miss Mildred Walker, whose marriage will take place next month to Orville Lay, was the inspiration for a delightful miscellaneous shower recently. The home was beautifully decorated with apple blossoms and during the afternoon dainty refreshments were served. The bride-to-be received many beautiful gifts.

## Fashion Notes

**Flower Baskets for Frocks.**  
Paris—Baskets of flowers, so beautifully embroidered as almost to seem real, are a new form of decoration. Gift such basket, very large and filled with splashy orange and blue blossoms, is considered on the tip of a fashionable track show here today.

**Platinum Rims for Glasses.**  
London—Many women who hunch at the heavy hide discarded of tortoise shell rimmed eye glasses for those of the new sort. The latter have platinum rims, and are hung in a narrow black ribbon.

**Appropriate but Impetuous.**  
New York—Among the gorgeous building suits shown here today is one with an appropriate decoration of light seaweed and sea shells. Unfortunately, these decorations are painted on the pale green silk garment so that a trip into the water would be disastrous.

**Fun, No Matter How Warm.**  
New York—No matter how warm the summer may be, fun frocks for evening wear are to be in fashion. Even though carried over the arm, these frocks of summer evening are altogether of fun, say the designers what they will.

**Ornate Pins for Hats.**  
New York—Tea carnation hat pins, or rather one hat pin with two carnation ends, was the only decoration on a pale gray picture hat of georgette recently worn here. The crown, rather high and draped, had these pins thrust through it a trifle to one side of the front. The pins were ornately carved and very big.

## Soviet Telescope To Produce Photos

LONDON, (INS)—The observatory at Simsk, Soviet Russia, will shortly possess one of the world's wonder telescopes.

It is now being finished and assembled at the works of Sir Harold Goussard, famous English telescope maker, and has taken several years to make.

Contrary to most telescopes, this

## Best Seller

The black satin suit is one of the "best sellers" this season, but few are so ornate as this black model. It makes use of the flirty stretch fringe that is being used on every type of frock. Bits of the material, arranged in petals would make sufficient trimming if one grew tired of the outfit.

one has been catalogued for taking photographs as well as for vision, so that the photographer may see what he is photographing.

The telescope, which is estimated to be worth \$75,000, contains a mirror four inches wide, eight and a half inches thick and weighs nearly 1,000 pounds, which took more than a year of continual grinding and polishing to make. The mirror alone cost \$5,000.

The principal eyepiece is not at the lower end of the barrel near the ground, but just out at the mouth of the telescope. This eyepiece is hinged up from the room some thirty feet below in a most chair to the eyepiece.

A clock controls the movement of the instrument, and it is so set that the star under observation can be kept in sight as it moves across the heavens. The telescope thus moves in an arc, inside the dome of the observatory. The arc also moves around on the telescope is operated.

**NEIGHBORS IN SESSION.**  
WOODSTOCK, Ore. (Special)—The seventh annual general convention of the Woodstock Chamber of Commerce was held at the Woodstock armory yesterday afternoon. About 200 were in attendance, representing Albany, Dallas, Salem, Seattle, Mills, Silverton, Oregon City and Woodburn counties. The morning was devoted to welcoming the visitors by Mrs. August Husted of Woodburn, with responses by Mrs. Frances Gault of Silverton, roll call of officers, reports of all in general work and a reading of articles of interest.

After noon luncheon for members, ship, reception of candidates, election of officers for next convention, officers' retiring speech and the closing ceremonies.

**100 AT ANNUAL BANQUET.**  
MAIDENHEAD, Ore. (Special)—The Marchfield chapter of commercial bankers was attended by 100 guests representing 1000 in and the coast section. The event is an annual affair and is always made more interesting by special speakers. The speakers included R. E. Levine of Portland, Jack Allen of San Francisco, L. J. Thomas, president of the chapter, and J. D. Mickle of Salem.

The menu, as usual, was furnished by the women of the American Legion auxiliary. In the armory building, reports of general interest, including the hiring and handling of interests of Cook county and government work on the harbors were discussed.

**Big Speculation in Pearls.**  
CAUSED BY ARGENTINE DEMAND  
PAPERITE, (AP)—There has been much speculation in pearls here since the close of the diving season in Hilbert, where an extraordinary number of pearls were taken. Besides the unusually high prices for pearls of quality, there has been a quick market for best pearls at figures unheard of in past years. The heavy increase in the demand comes, it is said, from Argentina.

**The Young Intellectuals who say Americans are afraid of ideas haven't yet offered enough to attract us.**

## JAPS ANXIOUS OVER FLIGHT

### Nipponese Taking a Keen Interest in Air Girdlers; Japan Behind in Aerial Field.

TOKYO, (AP)—Mingled admiration and envy, tinged with a vague fear that Japan be left far behind in the development of military aviation, characterized the comments of Japanese on the round-the-world flight by American and British aviators already under way.

Intelligent Japanese are aware of their country's backwardness in aviation. Therefore their admiration for the exploits of the Argonauts, although genuine, is accompanied by regret that they can not enter the competition for globe-girdling honors. The possibility that both the British and American aviators will be crossing Japan at the same time of opposite directions, and possibly will be flying at Kawanagata near Tokyo, simultaneously, has intensified Japan's interest in aviation.

This Osaka Asahi, after describing the American and British flight plans and expressing admiration for the daring of the flyers, says: "Although we would like for our own aviators to participate in the competition, we must realize that they are in no position to do so. It is highly regrettable that we must be content with watching and studying the progress of aviation shown." The Asahi, then, remarks that no aviators have ever crossed the Pacific Ocean, and that the Japanese, because of their position, will study the success of the American attempt.

"Whoever may win the laurels," continues the paper, "the achievement will be an important point in the history of aerial navigation, perhaps a turning point in the record of civilization. From this standpoint we hope for their success. However, we must not forget the fierce competition in aerial expansion now in progress between America, Great Britain and France."

The Asahi expresses hope in the possibility that the Pacific British Labor movement may do something to lessen the dangers of the competition, and then continues: "The competition to grade the globe by air may have no connection with the aviation expansion plans of the powers, but it is certain that the United States was influenced by the British and French competition to plan this round-the-world flight."

The American plan brought on similar projects in Britain and France. This being the case it is natural that discussion is going on of a new disarmament conference. "If these flights are planned to further powerful communication throughout the world they should receive every support. If, however, they are intended to assist in the expansion of military air forces they must be actively opposed."

**PHILIPPINES TO MAKE SURVEY OF EDUCATION.**  
MANILA, (INS)—A complete educational survey of the Philippines is about to be undertaken by the Philippine government under the direction of Vice Governor and Secretary of Public Instruction Eugene A. Gilmore, who has just visited the United States to engage the foremost American educators for the task. The government has appropriated \$200,000 for the work. The idea back of the survey is that the Philippine public school system needs alteration so as to make it more in line with the actual practical needs of the country. There are at present more lawyers than the islands need and hundreds of young men and women with degrees who cannot find useful employment. On the other hand, there is a lack of physicians, engineers and scientific agriculturists.

**SAVANT ACCEPTS JAPS' GOOD-WILL TOUR OFFER.**  
HONOLULU, (INS)—Dr. K. C. Leitch, head of the department of history and political science at the University of California and former professor of history at the University of California, has been invited by the American-Japanese relations committee of Japan to tour the Orient this summer, with the special object of discussing with leaders plans for increasing friendly relations between America and the Far East. This visit is the outcome of communications between residents of Honolulu and men prominent in American-Japanese affairs in Tokyo, Yokohama and elsewhere.

**Cheese Output Contracted For.**  
TILLAMOOK, Ore.—The prospects for Tillamook cheese, according to Carl Habeler, secretary of the Tillamook Creamery manufacturers, are fair prices this summer. All cheese made to May 1 has been shipped or contracted for the state, tripled on the basis of 24 cents and last 25 cents, at Tillamook. Only a small amount of cheese has been placed in storage by dealers.

**Japan Provides Divers' Suits.**  
TOKYO, (AP)—The Japanese navy, seeking to minimize the dangers of its submarine service, recently demonstrated with terrific vividness by the loss of two submarines with their crews, plans to purchase safety suits, resembling divers' suits, for its submarine crews.

**It is believed these suits will enable some of the men to save themselves by opening the submarine and fighting their way to the surface. The American navy, according to word here, has been successful in the manufacture of such safety uniforms.**

**And yet it seems funny to punish one man for contempt of court and let thousands get away with contempt of law.**

**Usually, a tip is just a little expenditure you make to preserve your self-respect.**

**If a man doesn't read the papers and hasn't sense enough to form an opinion, he can't fit anything except a juryman.**

# CHURCH NEWS

**PRESBYTERIAN CHURCH**—The Presbyterian General Assembly, which corresponds to Congress in our national government, will convene May 23, at Grand Rapids, Michigan, and will be at work for a week or longer. The La Grande church, as well as the other 2,700 of our denomination, is represented there. Watch the papers for news of this most important gathering. The four boards of our church will have wonderful reports to present this year which has been one of the greatest in the history of the church. Here at home we will continue to carry on the program of education and worship, with the Sunday School at 9:45, with classes for all and with new scholars added each week. The morning worship hour at 11 at which time the Presbyterian quarterly assembly of Mrs. A. L. Richard, secretary, and Mrs. W. H. Johnson, Jr., G. L. Burton and E. D. Foster, will sing and the minister will bring the message. The C. E. at 6:15 for the young folks, prior to the annual baccalaureate service which will be held in the Methodist Episcopal church Sunday evening at 8. As we enter the commencement week, we join with others in extending our heartfelt congratulations to the members of the graduating class as they prepare to leave home for their university and college life.

**W.M. CROSSBY ROSS, Minister.**

**FIRST METHODIST EPISCOPAL CHURCH**—The session of the church school being fifteen minutes earlier than heretofore. The minutes that it is 9:45 a. m. and not 10:00 as formerly. Superintendent Mrs. H. W. Lightfoot will be glad to see all in their places promptly. The Men's Forum have a treat in store for them. All the classes are well cared for. Children's day will be celebrated on the evening of May 25, with a very fine program by the young folks and children. The pastor will take for his subject tomorrow morning, "World Citizenship." It is especially desirous that the entire church constituency be off to this service. The church building and services will be under the auspices of the high school for the boys' entertainment service.

**METHODIST EPISCOPAL CHURCH, SOUTH-COAST, First Street and D Avenue, Services Sunday, May 18, Sunday School 9:45, Preaching 11 a. m. by the pastor, "The Mission of the Church." There will be an evening service of song and prayer at 8 o'clock at the First M. E. Church, Mid-week prayer service, Wednesday evening, 8 o'clock. We extend a cordial invitation to all who will come.**

**REV. FLOYD W. DICK, Pastor.**

**FIRST BAPTIST CHURCH**—Sunday School at 10 a. m. by Mrs. C. E. Happerell, First Session 11 a. m. by Pastor, congregation 11 a. m. by Pastor, Mrs. E. J. Jordan, Director. We will have all other churches at M. E. Church at 8 p. m. We expect a full attendance at the morning service.—Albert Ross, Pastor.

**ZION ENGLISH LUTHERAN CHURCH**—M. Avenue, opposite high school, Sunday School 9:15 a. m. Services 11 a. m. Sermon, "The Home Sweet Home Song of Christ," "Amen to Zion" by H. W. Fairbank.

**REV. WM. F. BOLL, 663 M Avenue.**

**EPISCOPAL CHURCH**—Holy Communion at 8:00; Sunday School at 9:45; Morning Service at 11:00; Class in Personal Religion at 5:00.—Rev. W. Crossley, Rector.

**FIRST CHURCH OF CHRIST SCIENTISTS**—Corner of First and

Washington, Sunday morning service at 11 o'clock. Subject "Mortal and Immortal." Sunday school at 9:45 a. m. Wednesday evening meeting at 8:00 o'clock. Reading room open to the public every Monday, Wednesday and Saturday from two to four. All are invited.

**Tennis Stars Add to Fund To Promote Sport in Japan**

TOKYO (AP)—A gift of 4555 yen from William T. Tilden, 23, Manuel Alonzo, K. Shimizu and S. Fukuda, tennis stars, has been received by the Japan Lawn Tennis association and will be used to purchase tennis equipment for 40 schools in Kagawa prefecture, in which Yokohama is located, which suffered in the great earthquake and fire of September 1. The gift represents the proceeds of exhibition matches played in the United States shortly after the earthquake. A letter of thanks written in classical Japanese style is to be sent to Tilden and those who cooperated with him.

## Why a Princess Wrote A Song for Springtime

HONOLULU, (AP)—The recent sale of a tract of beach land at Manawale, on the windward side of the island of Oahu, has recalled the origin of a song that made known the haunting music of these islands to the rest of the world.

It was at this wonderful beach that the late Queen Liliuokalani received the inspiration for Hawaii's best known song, "Aloha Oe," or "Farewell to Thee." She was then a princess, and visited Manawale beach with a party from the Hawaiian court, on the day of leaving all the visitors were asked with garlands of flowers. One of the men lingered behind to say good-bye to a girl who lived at the ranch. They walked apart down the beach; there was a kiss, and the princess witnessed the scene.

On the way back to Honolulu Liliuokalani persistently hummed a tune over and over again. She said a melody was going through her head, and she was seeking some words for it. She was thinking of that love-making on the white sands of Manawale. Near Honolulu the party rested, and the princess sang bits of the melody. The phrases in the chorus of "Aloha Oe," "one fond embrace," and "until we meet again," had their basis in the scene on the beach.

At the palace the princess wrote down the notes and the words, and the melody was later arranged by Henri Berger, master of the royal Hawaiian band.

The purchases of the ranch property will set it off in real-estate lots.

## Yanks Best Customer Of Japan's Exporters

TOKYO (AP)—The United States was by far Japan's best customer during 1923, and also sold Japan more goods than any other country, according to an official summary of last year's foreign trade published by the department of finance.

Nearly one-third, or 32.5 per cent of all Japan's foreign trade for 1923 was with the United States. More than two-fifths, or 41.9 per cent of all Japanese goods sold abroad went to America. More than a fourth of Japan's imports came from the United States, which sold Japan 25.7 per cent of all its bought.

The total foreign trade for 1923 was 7,420,000,000 yen. Exports totaled 1,835,000,000 yen, divided as follows: United States, 596,000,000 yen; China, 272,000,000; India, 160,000,000; Great Britain, 48,000,000; Straits Settlements, 21,000,000; Philippine Islands, 18,000,000; Germany, 3,000,000; other countries not listed.

Japan's imports exceeded exports.

# NEW SCARFS

## Just Arrived

SCARFS—BOTH LARGE AND SMALL, RULE THE FASHION WORLD.

They've wound themselves about the throats and won the hearts of women everywhere.

Fancy Striped Silk Scarfs in all colors.

Long ones, short ones, both narrow and wide are worn not half so much for warmth as for the note of gayety they give to costumes.

See them in our windows.

## Chiropractic and Naturopathy Get Best Results

The success of any health system rests in the results that system accomplishes. The science of chiropractic and naturopathy, applied systems, has only its results in restoring the sick to health to account for its phenomenal growth. Today it is a tried and proven science established with more than 20,000 practitioners, and secure in its future with millions of followers—patients suffering with every conceivable kind of disease. Results count. Results represent the very best of material evidence of the worth of anything. Chiropractic is founded upon the idea that health is a matter of the proper adjustment of the human spine; that disease is the result of nerve impingement cutting off functional energy supplied by the brain to the organs involved; proper food combinations and the regard for the laws of Nature. Chiropractic is known by its results. If you are not well consult at once
