WET CONGRESS AFTER 'DRYS'

American "Prohi" Law is to Be Target of International Confab at London.

(By LUTHER A. HUSTON)
LONDON (INS)—America's prohibition laws will be the target of a flood of hostile criticism at the International Anti-Prohibition congress which will be held in London June 24 and 25 next.

"Wets" from all parts of the world will go forth to tell their opinion of prohibition. From the congress, it is expected, an army of "anti-Pussyfoots" will go forth to fight prohibition wherever it attempts to gain a foothold in any part of the world.

Plans for the convention, according to information given out at the headquarters of the Anti-Prohibition league which is sponsoring and organizing it, are not yet sufficiently complete to enable an accurate resume of the program to be made public. The general plan, however, is to devote the two days to a sort of round-table discussion in which the various delegates will be able to express their views on all phases of the prohibition question.

It is expected that a representative delegation of American opponents of prohibition will attend, although the committee in charge has not yet been advised of the personnel of the delegation. Because of the world-wide interest in America's prohibition legislation it is expected that the American delegates will be the center of attraction throughout the session.

Representation on the program will be international and cosmopolitan. Noted doctors and scientists from England and other countries will attend and speak of the advantages of the moderate use of alcohol to the human race. Several noted literary men are on the program and a number of eminent clergymen who are opposed to prohibitory legislation will participate.

Among the speakers already arranged for are several members of the British parliament. Sir Thomas Harder, noted English physician; H. A. Vachell, the well known author, and several women writers and publicists, including Miss Muriel Hine, Miss Cecily Hamilton and Miss Vera Beringer, are on the program.

The purpose of the convention, according to announcement by the Anti-Prohibition league, is to enable opponents of prohibition in every part of the world to get together for an interchange of views and a discussion of the best methods of combating the spread of prohibition sentiment. It is possible that an international anti-prohibition organization may result.

SAYS AUTHORS SHOULD BE READ BUT NOT SEEN

LONDON (INS)—Modern authors are too keen for publicity, howells Stacy Aumonier, well-known English novelist and short story writer.

The author should be read but not seen, Aumonier contends.

Band of Wandering Russians Seeks Haven in United States

MANILA, (AP)—The 250 Russian refugees who came to the Philippines from Vladivostok a year ago, looking toward America and hoping they may be able this summer to join their 600 countrymen who were sent to the states by the American government last June.

This group is a remnant of the exodus under Admiral Stark. Being adherents of the old Russian monarchical government, they were compelled to leave Siberia by the new regime. Since their arrival here these wanderers in search of homes have led a precarious existence. The Red Cross has contributed toward their maintenance, and they have raised some money by selling four of the vessels in which they came to the islands.

Body Found in Rogue River.

GRANTS PASS, Ore.—An unidentified body was found in Rogue river, lodged in the willows at the M. E. Branscombe place, a few miles below Grants Pass. There were no identification marks of any kind, the body having evidently been in the river about two weeks. The body appeared to be that of a man about 25 years of age. No indications of foul play were found by the sheriff and the coroner upon examination. The body was clad in an army jacket, a pair of corduroy riding trousers and one sock. The only other article on the body was a handkerchief.

The reason the pioneers were hardy was because they didn't sit down to a dish of cereals and a vase of flowers and call it breakfast.
