

# Local News In Brief

### COMING EVENTS

June 4, 5, 6 — Union Live Stock Show at Union.  
June 29-July 2 — La Grande Chautauqua.

**C. D. Putman Improved**—C. D. Putman, who has been seriously ill for the past week is reported improved today.

**Take Matrimonial Bonds**—Frank Torres and Anna Cole of La Grande were married by Justice of Peace Hugh Brady in his office this morning.

**To Build Home**—W. A. Elam took out a permit at the city offices today to build a dwelling on Birch street between Y and Z avenues. The structure is to cost \$1500.

**To Leave Wednesday**—Lester MacTavish, coach of the La Grande high school, is expected to leave for California Wednesday morning. He will probably return to La Grande about the first of September.

**Visiting in La Grande**—Mrs. R. B. Richards and son of Athena, and Mrs. W. C. Rider and son of Yakima, Wash., were in La Grande Sunday and spent a very enjoyable day visiting the Houghton family.

**Daughter Ill**—Alice, the daughter of Mr. and Mrs. B. F. Underwood of this city, is quite ill. Her grandmother, Mrs. O. J. Skiff, of Union, was at her bedside yesterday.

**Attending State Grange**—Mr. and Mrs. W. D. Sherwood left yesterday by automobile for The Dalles where they will attend the Oregon State grange to begin a four-day session this morning.

**Bound Over to Grand Jury**—Robert Hand and Martin Stoop were arraigned before the justice of peace this morning on charges of larceny and bound over to the grand jury on \$1,000 bonds. They have \$25, so far, raised their bonds and are still imprisoned in the county jail.

**Police Officers in Portland**—Clint Holmes, chief of police, and Officer Altona Dunn are in Portland.

**Everybody Is Going to Dress Up for the Union Stock Show and Nearly Everybody Is Coming to Clint's!**

We'll miss some men, because some men will miss us—that's only natural.

But, if you have been keeping your style ear to the ground lately, if you have been noticing our clothes on your friends and heeding the prices in our windows—we think you will agree that with all things equal—and with no one in your family in the clothing business—we stand at the top of the list of your Union Stock Show clothing team.

Michaels-Stern Suits—\$25.00 to \$52.50  
Allen A Union Suits—95c to \$4.85  
Arrow Shirts—\$1.95 to \$8.85  
Men's McKibben Cowboy Hats—\$3.85 to \$9.45  
Boys' McKibben Cowboy Hats—\$5.00  
Large Silk Mufflers—\$3.45 to \$7.45

**LET'S GO TO UNION STOCK SHOW**  
June 5 - 6 - 7

**Clint's Clothery**  
The Store With a Consistency

land as star witnesses on the Mickey Madden case. Madden was arrested in La Grande several months ago charged with selling narcotics to high school students.

**Mrs. Charney Visiting Here**—Mrs. Mitchell Charney, formerly Mrs. Margery Lindsay, of Detroit, Michigan, is visiting with her grandmother, Mrs. Alice R. Lindsay, and her aunt, Mrs. E. B. Steincamp, of Island City. Mrs. Charney is en route to Spokane and Tacoma, Wash., to spend the summer with her parents, Mr. and Mrs. Guy L. Lindsay.

**To Take Long Trip**—J. C. MacPherson is in La Grande again after a trip up the coast to Seattle, Vancouver, Victoria, B. C., and other cities. He intends to leave tomorrow on a tour to New York and return by the way of Canada. He intends to take the southern route on his way east and will go through Salt Lake, the Grand Canyon of the Colorado and will visit other points of interest.

### Personal Mention

H. H. Swartz of Lewiston, Montana, was registered at the Foley today.

R. F. Cookingham of Pendleton was in La Grande today. He was stopping at the Sommer hotel.

Mrs. M. I. Peterson returned to her home in Boise, Ida., this morning after a visit with Mr. and Mrs. E. A. Prosser of La Grande.

S. H. Coleman left this morning for Pleasant Valley, where he is now employed.

Mr. and Mrs. H. M. Maloney of La Grande are home again after several days visiting in Portland.

A building permit has been issued to D. W. Beck to build a garage at 2109 Second street. The estimated cost is \$150.

Mrs. W. M. Carkhuff left for Portland this morning, where she will make her home in the future.

Mrs. B. E. Hill of Tolocast was in La Grande this morning on a marketing trip.

Mr. and Mrs. W. C. Summers and daughter left for Portland this morning to visit with relatives.

Miss Vera Svengard, who has been visiting here over the weekend, returned to her home in Maxville this morning.

Mrs. J. H. Welch and daughter Norma, of Twin Falls, Idaho, went through La Grande this morning on their way to Enterprise, where they will visit relatives.

Mrs. G. P. Ballard, who has been here with her small daughter, Betty-Jane and her sister, Marian, returned to their home in Twin Falls, Idaho, this morning. Miss Betty-Jane has been recently operated on for mastoid but is now much improved and was able to make the trip home with her mother today.

### NEW TODAY

**NOTICE**  
Due to difficulty experienced in collecting charges for advertising that is listed under classified advertising and under the "new today" heading, the Evening Observer will hereafter take no classified advertising or advertising to be run as "new today" unless the advertising is accompanied by cash.

**FOR RENT**—2-room furnished house with garage. Call 1529-Y Ave. 6-3-11

**LOST**—Bunch of keys, May 27th, on Joseph-La Grande train, or between depot and Silver Grill, or La Grande and Pendleton train 22. Reward for return to office of La Grande Observer. 6-3-71

**FOR SALE**—Aster plants, 15c doz. Lettuce, fresh from garden. Mrs. D. C. French. Phone 302-J. 6-2-11p

**FOR SALE**—Choice residence, lot, corner First and Spring streets. For information call 229-J. Leo P. Miller. 6-2-11

**WANTED**—Sewing. Neatly done. Reasonable prices. Mrs. Nora Webb. Phone 424-W. 6-2-81p

# STORM CAUSES PLOWING END MUCH DAMAGE LOOMS NEAR

**Valuable Silver Fox Is Killed by Lightning at North Powder.**

**NORTH POWDER (Special)**—This section was visited by a electrical storm recently, which did some damage. The Eastern Oregon Light and Power company sub-station was set on fire. A silver fox, valued at \$1000 was killed by the lightning. The animal belonged to Frank Bidwell. Mrs. Emma Clarke, who was at the Bidwell home was numbed by the shock and Rev. Lindley was knocked down. Tom Sencerbox also felt the shock.

Dr. Pby delivered an interesting talk to an interested audience Monday evening at the high school auditorium, his topic being the Union Live Stock show. He also spoke about the cooperation of the farmers and it is hoped that the meeting will bring about a closer cooperation between the town people and the country people.

Late Saturday night or early Sunday morning a noise was heard at the back entrance of the Willis pool hall, by persons living near, as if someone was trying to gain entrance into the building. Those hearing the noise turned on the lights and the would be thieves left. No damage was done to the building and nothing was taken.

Alex Shaw is having his car fixed up and put into condition for the summer's use. Charles Lay is doing the work for him.

Word has been received here, by relatives, of the death of Robert M. Wilson, of Medford, Oregon, at San Francisco, California, due to heart failure. He leaves several brothers and sisters here to mourn his demise.

### LIME-SULPHUR SPRAY IS NOT HARMFUL SORT

A lime-sulfur spray solution that will not injure the foliage and that can be readily prepared at moderate cost with a sprayer material easy to get has been perfected. The spray was developed primarily for stone fruits and tender-skinned apples and pears, explains H. D. Baras, plant pathologist of the Oregon experiment station.

The spray is made by mixing 8 pounds of sulfur, four pounds of hydrated lime and a half pound of calcium caseinate mixed into a paste and diluted up to 50 gallons with water. The caseinate may be replaced with two quarts of skimmed milk to make the dry lime wettable, as discovered by R. H. Robinson, associate chemist of the station.

Control of brown rot on stone fruits, such as apples and pears, mildew and leaf spot on cherries and prunes, is sought by summer sprays in Oregon. This new solution will not burn the leaves and will be used by many Oregon growers this year, Professor Baras believes.

### FEDERATION IS BEST WHEAT IN MALHEUR CO.

Federation wheat under irrigation in twelve plantings by Malheur farmers co-operating with E. R. Brethaupt, county agent, averaged 54 bushels an acre as against a 41 bushel average of other varieties including Jenkins club, Dicklow and early Baart.

The plantings covered the entire wheat area of the county, and the high yield led to use of Federation for more than half the county acreage this year. It was introduced by Mr. Brethaupt on recommendation of the state experiment station in 1922, when 800 pounds was distributed to seven farmers.

"The differences in yield in 1923 in favor of Federation are not entirely due to the real yielding ability of the varieties reported, because there is a tendency for growers to give a new variety somewhat better treatment than is given to commonly grown," says Mr. Brethaupt. "Federation has several characteristics, however, that make it peculiarly suited to Malheur county irrigated lands."

**CARVER CANNERY OPENS**  
OREGON CITY, Ore.—The cannery at Carver, owned by the Clackamas County Canning company, opened Friday on the 1924 crop of berries, with a crew of 30 workers. From Friday morning to Saturday afternoon six tons of strawberries and gooseberries were canned. The plant will continue operations during the summer, finishing with apples and pears in the fall.

The cannery at Canby, owned by the same company, also began its operations Monday. This has a crew of about 20.  
John Ehl, prominent hardware man of Canby, is president of the Clackamas County Canning company.

the lumber production of the United States; altogether they contribute about 65 per cent of the total lumber production, and about 70 per cent of the total softwood output.

Lumber consumption in the United States, which was over 500 feet per capita in 1907, is now but slightly more than 300 feet. The consumption of lumber per capita in Germany is about 150 feet, in England and France, 120 to 140 feet.

Farmers of the United States consume about 15,000,000,000 board feet per year, or from one-third to one-half of the total production. Boxes and crates consume from 11 to 14 per cent of the lumber cut. Massachusetts is the leading state in box manufacture, based on the value of products.

The railways use about 6,000,000,000 feet yearly of forest products, but only a part of this is lumber. For instance, the hewn ties used annually by the railways number 87,500,000, and are the equivalent of 2,825,000 board feet. About 1,070,000,000 board feet of lumber are annually used in railway car construction. Yellow pine is the principal species of lumber used in this construction with oak, pine, and Douglas fir third.

The automobile industry in 1923 used about 1,000,000,000 feet of lumber for body construction and bracing. Of the lumber used in the average automobile body, 29 per cent is maple, 27 elm, 15.5 ash, 10 oak, 8 gum, 6.5 birch, 1.4 softwoods, and 2.4 other species.

Among the other interesting data in the booklet are particulars of rail and water shipments of lumber, transportation costs, lumber exports and imports, the various uses of lumber, comparative tonnage of lumber and other commodities, figures on the total timber stand and growth, timber ownership, reforestation, areas of national forests, woodland areas, forest fires, forest legislation, growth period of the different species of trees, and organization and activities of the lumber industry.

The nine states mentioned in comparison of the value of lumber products produce about one-half of the lumber products of the country, and the wage earners' list represents about half of all the wage earners in the lumber industry proper. The lumber industry is assumed to include lumber and timber, planing mills, and the manufacture of structural packing boxes. All manufacturing use of lumber, except as included in the work of planing mills and wooden box factories, is placed in other industrial groups. The total value of products of the lumber industry proper in 1919 was \$2,065,728,000, including remanufactures. This value was about \$2,300,000,000 in 1921.

Practically every salient fact in regard to the lumber industry is recorded in the booklet. Among other things, it gives the lumber production in the United States for certain years since 1850 down to 1923. In 1850, the total production is estimated to have been 5,000,000,000 feet. The climax was reached in 1907 with about 46,000,000,000 feet. In recent years the cut has averaged around 20,000,000,000 feet, although it went as high, probably, as 40,000,000,000 feet in 1923. The first three lumber states in 1850 were New York, Pennsylvania, and Maine; in 1840, Pennsylvania, New York, and Michigan; in 1870, Michigan, Pennsylvania, and New York; in 1880, Michigan, Wisconsin, and Pennsylvania; in 1890, Wisconsin, Michigan, and Minnesota; in 1905, Washington, Wisconsin and Louisiana; in 1910, Washington, Louisiana and Mississippi; in 1920, Washington, Oregon and Louisiana. Washington has been first in volume of lumber production since 1905, except in 1914 when Louisiana led. Oregon has been third or fourth in this respect since 1915, and second in 1920. North Carolina was fourth in 1912 and in 1915. The Pacific northwest, as a whole (including California) affixed the first "C" in lumber production in 1922. From 1900 to 1922, the southern states held the van. Up to 1870, the premier position belonged to the northeastern states, but from that year until 1900 the lake states of Wisconsin, Michigan, and Minnesota were in the lead.

There are approximately 20,000 sawmills in the United States, large and small. The lumber industry is organized into a number of regional associations which are federated in the National Lumber Manufacturers association which thereby represents about 2500 of the larger sawmill enterprises of the United States. Of these mills, those now making regular statistics report to the National Lumber Manufacturers association represent about 40 per cent of the entire production.

### PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache, no yawning, sniffling, mucous discharges or dryness; no struggling for breath at night. Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membrane, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.

GEO. C. HOPKINS, J. W. BUSH. 6-4-51p

### OREGON IS RANKED HIGH IN LUMBER PRODUCTION

(Continued from Page One)  
Alabama, California, Arkansas and North Carolina. After them, came Florida, Wisconsin, Georgia, South Carolina, Virginia, Michigan and Idaho. None of the remaining states produced more than 500,000,000 board feet in 1921.
