Social news must be in the hands of the society editor by 9:30 o'clock. Due to the fact that the social page is made up before noon, it is practically impossible to insert stories after that hour. Hereafter, items, no matter how important they are, that are delayed beyond that hour, will not be printed until the following day—News Editor's Note.

Scarf Sleeve

The scarf sleeve is the interesting feature of this frock and is one that could easily be copied. It consists merely of a length of crepe applied to the under portion of a very short sleeve. The collar on this imported frock fastens in the back and a double giraffe keeps the lines very trim about the hips.

PROBE INTO EXPLOSION UNDERWAY

(Continued from page 1)

All through the night the menace of another coup de death hung over the Mississippi. Friday her crew was able to pull the last gun charge from the big 14-inch rifle that can blow an ordinary vessel out of the water at 10 miles.

Fashion Notes

Imitate Jockey Caps.
Paris.—Snappy little hats, imitating a jockey cap but with a higher crown, have made their appearance here. There is a deep visor, and above it there invariably waves a half wreath of flowers made from ostrich fronds.

Lots of Spanish Fringe.
Paris.—The present vogue for Spanish fringe makes it difficult to determine whether a frock is imitating a shawl or a shawl imitating a frock. In either case, three rows of long fringe are hung on the ends of the "angel" sleeves and three more near the hem.

Fashion Changes Colors.
London.—Fashions in colors change rapidly this season. At present the leading colors for afternoon are tan, cocoa, green, black and white.

Bride's Stockings Sparkle.
New York.—The June bride's stockings are permitted to sparkle as she walks up the aisle. Of fine white silk, they have clocks in flower pattern, each flower bright with crystal dew drops.

Scarf Beings Garter.
New York.—The scarf has been transformed into a flapper garter. Tiny scarfs in black lines and patterns are tied below the knee and allowed to peep out here and there under the rolled stocking.

Adam's life wasn't flawless, but he didn't hear any talk about spring fabrics.

Doubtless they will be happy if the things they have in common include the chewing-gum habit.

LA FOLLETTE RAPS LEADERS

MADISON, Wis. (AP)—The present national administration has "literally turned its back upon the farmer," Senator Robert M. La Follette of Wisconsin declared in a statement made public Friday. He further declared that the responsibility "for the failure of the 68th congress to meet a righteous demand from the farmers for necessary and effective legislation will rest upon President Coolidge."

hands of the veterans and dependent without delay.
"To Distribute Applications."
Arrangements have previously been made for the printing of these forms and they are now ready for distribution. It is equally as essential that when the completed applications are received from the beneficiaries of the law they may be given the administrative action which the law prescribes. Otherwise your department will become the storehouse of millions of applications which can receive little or no attention until congress convenes next December and makes appropriation of the funds to give them administrative action. The same situation, though to a modified degree, will obtain in the navy department.

"Action has already been taken to give you additional personnel with which to distribute the applications and to meet the administrative action which will be required on the completed application which may be received from the beneficiaries of the law during the remainder of this fiscal year."
"This leaves for consideration the matter of meeting the administrative requirement of the law for the next six months of the next fiscal year which involves not only your department, but the navy department and the United States veterans' bureau. To meet this requirement I am instructing the director of the veterans' bureau to apporportion his appreciation for salaries and expenses and his appropriation for printing and binding, fiscal year 1925, so as to make available for the six months commencing July 1, 1924, the following amounts for the administration of the World War adjusted compensation act, namely: war department, salaries and expenses, \$1,800,000 and printing and binding, \$14,000; navy department, salaries and expenses, \$250,000; printing and binding, \$150,000.
"This requisition for personnel and supplies and printing and binding will be forwarded to the director of the United States veterans' bureau, who will honor them to the extent of the amount herein made. It is my desire that your requisition be kept to a minimum consistent with efficient and proper administration and that so far as possible your requirements for supplies and equipment be obtained from the surplus stocks of the general supplies commission and any available war department stocks. I am advising the secretary of the navy of the arrangements set forth in this letter."

OREGON LIFTS EPIZOOTIC BAN

SALEM, Ore. (By the Associated Press)—Following a conference last night with Dr. Lytle, state veterinarian, Governor Pierce announced he approved the recommendations of the live stock sanitary board for modification of Oregon's embargo against California products, to extend to the admitting of fruits, vegetables, nursery and apary products.

PORTLAND (AP)—By order of the Oregon State Livestock Sanitary board, made public Friday by W. H. Lytle, state veterinarian, the Oregon embargo against California products growing out of the foot and mouth epizootic in portions of that state has been modified to permit the bringing in of all kinds of fruits, berries, vegetables, trees and nursery and apary products. Dr. Lytle said that the order was based upon recent reports from California indicating that the foot and mouth disease had in large degree abated.

MAXVILLE (Special)—A meeting of everyone in Maxville at the hotel recently resulted in the appointment of committees for the Fourth of July celebration. A big time is anticipated and the committees are already active in making all necessary plans. There is to be a parade with floats, a Goddess of Liberty is to be chosen by vote in the next few weeks and everything is shaping for a good time.
