OFFICERS GET CONFESSION

Wounded Suspect Held Involved in Registered Mail Train Haul Made Thursday.

CHICAGO (By the Associated Press)—An alleged confession of a suspect found in letters taken from them guided city, state and federal authorities in their investigation Sunday of the \$1,000,000 registered mail robbery Thursday night when four auto loads of banknotes held up a Chicago, Milwaukee & St. Paul mail train a 14 miles from here.

Twenty \$100 bills, some of which, according to federal officials, were identified as coming from the registered pouches, were found in possession of James H. T. B. RATE LOW NOW IN STATE

Oregon is one of twenty-four states whose white city dwelling wage-earners showed a lower tuberculosis death rate than the general urban industrial population of the United States, according to death claim figures just compiled by the Metropolitan Life Insurance company based on the 1923 mortality experience of its 15,000,000 industrial policyholders.

The tuberculosis death rate for the United States was 96.5 per 100,000 white industrial policyholders, while that for Oregon was 42.2.

The regional distribution of tuberculosis presents an interesting picture," the latest statistical bulletin issued by the insurance company states. "The industrial populations of the cities show higher tuberculosis rates, for the most part, below the Mason Dixon Line. In the South Atlantic group Delaware is the only one of eight states whose industrial population death rate is below that for the whole country. The rate for each of the East South Central states, particularly Kentucky and Tennessee, is far in excess of the average. Among the Northern states, on the other hand, every New England state, except Rhode Island, exhibits a below average rate; no does every East North Central state except Indiana, every Mountain state except Colorado, every Pacific Coast state except California, and every West North Central state, without exception. The most fertile field for the anti-tuberculosis movement in this country now lies among the urban wage-workers of the South Atlantic and East South Central states, and of Louisiana.

ANCHORAGE, Alaska (AP)—The Indians of Khat, an old settlement at the head of Cook Inlet, are in dire distress because of the ancient custom of remaining where their fathers and grandfathers died. Municipality of Tsingtao In Bad Way Financially

TSINGTAO, China. (AP)—This city, pride of the former German leasehold, which was freed from Japanese control after the Washington conference, is now a sorry object lesson as to what a bankrupt administration can do for a municipality.

The new administration under Director-General Kao, Ku-Huang has a mighty task to face in the rehabilitation of the territory's finances. It is unable to pay its bills and has suffered a sudden termination of services of companies which furnished materials, fuel and light. To recoup its losses, due to the failure of the city to pay for streets and building lighting, the electric light company has increased its rates to private consumers to excessive figures. The telephone and other companies are threatened.

HERE IS WHAT STANWOOD PEOPLE SAY ABOUT 'MOORITE'

Mr. Judson Lowe, East Stanwood, states, after using two boxes of Moorite, which he took for a blood remedy:

"I will truthfully say that I never found no other medicine that did such wonders as it has for me. I have been for the last sixteen months with a sore breaking out on my body and have tried many other so-called 'blood medicines', but none seemed to have any effect. Finally Moorite was recommended to me by a friend. I decided to give it a trial, and will say that I never will regret the decision, for within two weeks I began to take it the sores were completely healed up and I feel almost a new man, and I am giving Moorite full credit for the health I now have."

"I advise one and all who need a blood purifier to give this wonderful medicine a fair trial."

MOORITE is sold at the Prescott Drug Co. under a positive money-back guarantee. You are to be the judge. It has worked wonders for scores of Stanwood people as a blood purifier and in stomach trouble.—Adv.
