BUCKS SECURE SPOKANE MEN

Reports from Pendleton, the home of the Blue Mountain league Buckaroos are that the baseball club is to be bolstered to a great extent Sunday when they meet the Grizzlies here in the final game of the regular league season.

Pendleton has hired four new outside players for Sunday and will have the strongest team in the field that they have presented to any club this year. A new pitcher, third baseman, shortstop and outfielder have been secured and the old diamond should hum.

The men will join Pendleton as follows: Two from Portland, one from Yakima and one from Spokane.

Pendleton plans on defeating La Grande Sunday and then meeting Dayton, Wash., in a play-off for third money.

La Grande Theatres

Sherrys Showing "The Devil's Ghost" Last Time Tonight.

Those who like laughter mixed with the thrill will take delight in "The Devil's Ghost," starring Lester Cuneo, which opened a two-day engagement at the Sherry theatre yesterday.

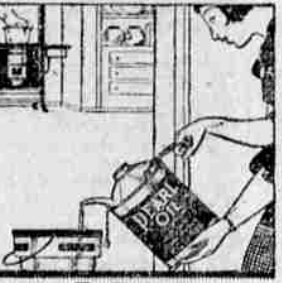

This stirring drama is a roller from the initial Western. The locale is the new southwest of today, with its Mexican and oriental settings. The thrills and amusement are furnished by a courageous New York sportsman, played by Mr. Cuneo, who dons and clothes and poses as a bandit whom he resembles and whom Mexicans have killed. The superstitious Mexicans believe they see the Devil's ghost, and Cuneo has some fun, until he runs up against a buccaner who isn't superstitious and proceeds to puncture the "ghost" with bullets. Mr. Cuneo makes two startling escapes—one through during and another through clever, with that would do justice to Sherlock Holmes. Mr. Cuneo has surrounded himself by a very capable cast and the story, written and directed by Henry McGhee, is refreshing in its originality and swiftness of action.

Race Track Habitué Captured by Camera In "Riders Up."

Universal's latest all star picture, "Riders Up," to be shown at the start of the racing season today, was adapted from the Red Book Magazine story, "When Johnny Comes Marching Home," by Gerald Beaumont. It is a story of race track life, and the hero is a tout.

Persons familiar with the manner of men who make a living by disposing of information concerning race horses have said that the magazine story is one of the most natural human interest stories ever told of race track activities.

Not so many steps

—no coal or wood to lug
—one filling lasts for days

—Steps! how many of them Pearl Oil and a good oil cook-stove save you! Those needless steps for heavy coal, for wood and the ashes.

One gallon of economical Pearl Oil often lasts for days, and it is so much handier and quicker.

Pearl Oil's intense flame is concentrated heat—and it is odorless and clean-burning too! The Standard Oil Company refines and re-refines it for best results. Avoid disappointment—ask for Pearl Oil by name.

Halt, George Cooper, Robert Brover, Kate Price and Edith York are in the cast which Irvin Cummings, who has directed some of Universal's biggest successes, made. The story is that of a youth who drifted onto the race track after saying goodbye to his widowed mother and his sister in a little New England village. They believed him engaged in a big business venture and are waiting anxiously for him to keep his oft-made promise to come home.

"Common Law" Begins at the Arcade Today.

"The Common Law," the famous Robert W. Chambers novel, has been done into pictures by the Schenck Company and will be shown at the Arcade theater for two days commencing today. Next to the story value perhaps the most outstanding feature of this production is its cast which includes Corinne Griffith, Conway Tearle and Elliott Dexter, and carries in their support such celebrated players as Doris May, Robert Beaverly, Miss du Pont, Bryant Washburn, Phyllis Haver, Harry Myers and Wally Van.

The story of "The Common Law" is so well known that it is hardly necessary to more than briefly sketch it. It has to do with the

life of an innocent young girl thrown quite by chance into the society of artists, sculptors, and the Bohemian atmosphere which surround this class of people. She achieves a great success as a model. Great love comes to her and is returned by the artist who first saw her possibilities, but any union between them is bitterly opposed by the artist's family. She finally offers to live with her lover as his common law wife and such a union is almost effected. A dramatic conclusion is grippingly and realistically handled.
