

NEWS of SOCIETY

Social news must be in the hands of the society editor by 5:30 o'clock. Due to the fact that the social page is made up before noon, it is practically impossible to insert stories after that hour. Hereafter, items, no matter how important they are, that are delayed beyond that hour, will not be printed until the following day—News Editor's Note.

An unusually interesting afternoon was spent yesterday when the Mission Band of the Presbyterian church met at the home of Mrs. A. S. Anderson. Fifteen girls were in attendance and after the regular devotional and business session a story relative to missionary work in China was read. Later

in the afternoon a pleasant social time was spent and delicious refreshments served.

The Mission Band will hold its next meeting at the home of Miss Valera Harper on September 4.

Members of the American Legion Auxiliary spent an interesting time last evening when they met for their regular business meeting at the home of Mrs. Harley Richardson. The next meeting will be held Wednesday, September 11, at the K. of T. hall. In the meantime the members of the Auxiliary will have a vacation from work and at the next meeting a new year of work will start with new vigor. Every year that the Auxiliary has been organized they have been very successful and the

coming year is expected to be even more so.

A large number of ladies were in attendance yesterday afternoon when Mrs. Minnie Lupton, assisted by Mrs. Pearl Davis, was hostess to the Parkdale club. The afternoon was spent in social entertainment, after which a delicious luncheon was served. The club will hold its next meeting at the city park Sunday, August 17.

The Missionary Society of the Christian church will meet Friday afternoon at 2:30 o'clock with Mrs. L. M. Parker, 1106 N. Avenue, as hostess.

Tolsonet. (Special)—A surprise party was given recently honoring the 74th birthday anniversary of M. C. Church. About thirty-five people were in attendance and an enjoyable time spent, after which refreshments were served.

Mandy, August 4, the marriage of Miss Italy Garrido to Paul Stiles, Jr., took place at the city hall.

The young couple eloped from their homes here Saturday and their marriage was unknown for several days. After a short absence from La Grande they will return and make their home here.

Fashion Notes

Paris.—Incongruous enough the heart is worn even with the buttoning suit today. It matches the suit and is knitted loosely about the neck.

Paris.—Sleeves in various of the new mid-summer top coats are narrower than formerly. Some of them are extreme enough to cling to the arms.

London.—Distinctive braiding today trims some of the long over blouses. It is placed at neck, sleeve ends and waist, so that the

lines at these points are the first things to strike the eye.

New York.—Plain and demure in line are the new frock fashions for young girls. They are exactly suited to the needs of early autumn class rooms, or indeed to late summer street wear.

New York.—Velvet slippers are appearing in some of the shops. Often they are in beautifully rich shades of dark green, blue and crimson.

New York.—The latest wrist bags often have a decidedly Chinese air. The long mandarin tassel, the bits of carved crystal or jade and the embroidered dragons emphasize the present mode for Oriental things.

New York.—Silk muslin lingerie today has all the luscious charm of an age when silk muslin was for "heat." The sky blue or rose material spangled with silk dots is especially cool and summery.

STYLE and VALUE

You'll be immensely pleased with any garment you select from this store because of its genuine beauty of style and quality of material.

Here you have an opportunity of choosing your rug from our enormous stock. All grades and sizes at CARR'S LOWER PRICES.

Hints for the Housewife

A SCIENTIFIC CUP OF COFFEE

If we told the truth we could not give you a recipe for the most palatable coffee that we have had in our own homes or at the home of friends where we know that the best of coffee is used. There are two kinds that are particularly distasteful—the bitter kind and the too finely ground—almost pulverized—which leaves a sediment on one's tongue and a choking feeling in one's throat.

But at last the scientists have found the secret of making good coffee. In a report entitled "Scientific Coffee Research," recently issued by Samuel C. Prescott, professor in the department of biology and public health in the Massachusetts Institute of Technology, many facts of interest are revealed.

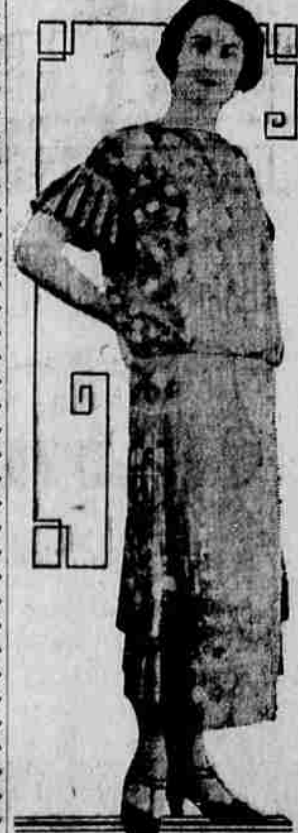

Professor Prescott maintains that the blend of coffee has very little bearing on the flavor produced—that coffee of low commercial grade, if freshly roasted and ground and properly prepared is better than high-grade coffee when it is stale and badly prepared. He also points out that the utensils employed are of the utmost importance. Metal containers should never be used, says the report, because the action of coffee infusion on metals is pronounced, and bitter, astringent or metallic tastes may be produced. Enameled ware, with its vitreous, porcelain surface, has no influence on the taste of coffee.

For the best results the coffee should be freshly ground. Surprising as it will be to most, Professor Prescott says that the coffee should not be more than two minutes in water of from 185 to 205 degrees Fahrenheit. At these temperatures most of the caffeine will be dissolved, says Professor Prescott, the flavor-giving oils will not be boiled away, and the bitter and woody taste will not be developed as much as by boiling. Professor Prescott finds also that coffee boiled for one minute is markedly more bitter than that which has been infused at a little below the boiling point.

Berlin Hotel Trade Declines.

BERLIN. (AP)—The steady decrease in hotel guests during May, June and July this year has alarmed the hotel keepers, who say that the situation is due to the 15 per cent special tax on hotel rooms. Berlin is the only large German city that still exacts this tax. In previous years there was a steady increase of hotel guests during May, June and July.

Exceptional Frock

This is exceptional. Six handkerchiefs have been used by a clever young Paris dressmaker to make this smart afternoon frock. It is a Paul Caret model.

Young Donoghue Rides First Race in England Against Dad

SALISBURY, Eng. (AP)—Instead of the familiar slogan of "Come on Steve" being heard on the racecourse here recently, a new cry of "Come on Pat" was heard in its place. The spectators were calling for Patrick Donoghue, son of Steve Donoghue, one of England's foremost jockeys, who was making his first appearance in public as a jockey.

Young Donoghue is only 13 years old and weighs seventy pounds and it is the intention of his father that Pat shall follow in his footsteps if he takes well to racing. In his first race the youngster rode against his father and finished fifth, Steve being beaten by a short head for the first place.
