

# SOVIETS BACK BALKAN DRIVE

BELGRADE (AP).—Whatever may be the policy of Soviet Russia in her contacts with western Europe, an aggressive Bolshevik policy is plainly perceptible in southeastern Europe, including conspicuously the kingdom of the Serbs, Croats and Slovenes, Bulgaria and Rumania.

Recent arrests made by Bulgarian and Serbian authorities have revealed the workings of the Moscow "Komintern" in this part of the world. In many instances both here and abroad the Bolsheviks have and are conducting a systematic campaign, which has been reported, and Russian money has been found in Belgrade, Bucharest and Sofia.

Documents bearing the seal of the Moscow organization instructing or advising local organizations how to direct and intensify their communistic efforts in a Russian Bolshevik direction are among the evidence seized.

In Southern Serbia Bolshevik agents, the local authorities report, are augmenting the discontent of the population by assuring them that only by the help of Soviet Russia will the rights of which they consider themselves deprived be restored.

Discussing this phase of the situation, the newspaper "Vreme sobor" (Time) also the government obtained information that the Communists have undertaken a new campaign in the whole country. The sources ordered have disclosed menacing conditions. It is evident that, after their activities had been forbidden by special legislation, the Communists are continuing their plotlines against the state under various names.

There are many evidences of preparation for terrorist action, and the pamphlet "Macedonia, the Macedonians," by Novakovich, is a revelation of this revolutionary movement.

"Communist action in the Balkans is carried out under precise instructions from a Communist organization in Moscow, whose orders all the Communist

organizations in the Balkans obey.

"The government has decided to dissolve all labor organizations that lend themselves to Bolshevik propaganda."

In Rumania Bolshevik action is aimed at hampering the government and supporting any opposition to the maintenance of order as at present constituted. In Rumania the Bolshevik agents and their local instruments are directly at gaining an advantage for Soviet Russia in the event of a campaign to reconquer Rumania for Russia.

In Bulgaria recent arrests have shown a marked renewal of Bolshevik propaganda. In addition to the Bulgarian Communists, whose organization has been prohibited by the law for the defense of the state, the Bolshevik agents in Bulgaria, it has been shown, are cooperating both with the Agrarians, the party of the late Alexander Stamboulsky, and with the "Narrow Socialists."

## Georgetown Has Latest Thing in Seismographs

WASHINGTON (AP).—The Georgetown university seismological observatory, which in the last 13 years has given to the world first news of many earthquakes, now assures the public that its reports in the future will be even more dependable.

The university today has among its instruments a new seismograph, known as the Galitzin vertical seismograph, the only one of its kind on this side of the Atlantic. The special features of this delicate piece of apparatus are magnetic registration and photographic recording, whereby the element of friction in the other types of machines is entirely eliminated. Accordingly, the machine will permit of the recording of many more of the world's quakes than any other more accurate instrument of the writings of a shaking earth.

Dr. Sieberg, of the Jena seismological station, places the number of quakes felt sensibly or instrumentally the world over from 1900 to 19000 yearly. Of these in the past only from 50 to 110 have been annually recorded at Georgetown. Father Francis A. Tondert, director of the observatory, hopes that this number may now reach from three to four hundred.

When it first was founded in 1911, the Georgetown observatory had only one seismograph of the Wiechert type. It carried a stationary mass of 50 kilos. The rocking during windstorms of the south tower of the Healy building, in which have the instruments were at first placed, necessitated their removal to a cave beneath the quadrangle.

Father Tondert inaugurated the work at Georgetown, when in 1919, the International Seismological society requested the Jesuit order, with many colleges in the United States, to establish a chain of stations.

## Yes, Davis Is a Churchgoer

John W. Davis, Democratic nominee for the presidency, is a regular church attendant. Here he is seen leaving the church at Clarkburg, W. Va., with his two sisters. Their father was one of the founders of the church. The ever-curious small boy was also on hand.

## THE DALLIES, Ore.

George and Jimmy Meeker, aged 7 and 2, respectively, are in The Dadies hospital with fractured skulls and possibly fatally injured. Jennie Meeker, 9, is seriously injured and the parents, Mr. and Mrs. Flopp Meeker of The City, Okla., are slightly hurt, as a result of an automobile accident on the Columbia highway west of The Dadies.

The Meeker car glared off an automobile driven by L. B. Young of Oklahoma, struck another car driven by Bernard Geiner of Portland and then skidded on the wet pavement over a 20-foot embankment.

A number of minor accidents due to the slippery condition of the highway were reported to the police.

## ASTORIA HAS NEW CHIEF

ASTORIA, Ore.—City Manager Kratz has appointed C. A. Murphy, member of the Astoria Evening Budget staff, an American expeditionary force veteran and now a lieutenant-colonel in the reserves, as chief of police. Vice Harry Butler, who resigned, was Captain of Police Colby after making sensational charges against the manager.

Mr. Murphy will receive \$500 instead of the \$175 a month paid to Chief Butler. Manager Kratz refused to comment on the charges made against him by the two officers who quit the department, beyond declaring that some of the charges were ridiculous and others untrue.

## Bells Made of Aluminum

COLOGNE (AP).—The village of Altrahl near here boasts of the first shroudbells made of an alloy of aluminum and copper. Their weight being only one-third of the traditional bronze bells, the superstructures of the steeples may be built more lightly and inexpensively. Furthermore, there is no danger of the bursting or rusting of bells made of aluminum.

## Simple Home Treatment For Swollen Veins

If you or any relative or friend is worried because of varicose veins, or hunches, the best advice that anyone in this world can give is to get a prescription that many physicians are now prescribing.

Ask your druggist for an original two-ounce bottle of Emswold (full strength) and apply night and morning to the swollen, enlarged veins. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emswold Oil is a powerful, yet harmless germicide and results are guaranteed.

Red Cross Drug Co. will supply you. (Mail orders accepted).

## Science Plus Money and Facilities Makes Good Gasoline

**A GASOLINE** that burns completely in your motor, not only delivers full power to the pistons, but leaves no raw residue to leak into the crank case, disintegrate the oil and thus endanger proper lubrication.

Such is *Scientific* gasoline—Union—it burns completely.

Money, modern facilities and scientific experience—all three are necessary to its production.

Union Gasoline has the quality of non-detonation which means the elimination of "knocking" on hills, and in slow, heavy pulls, quicker acceleration, and a smoother, more vibrationless speed.

Union Gasoline is assurance of all these qualities, so it is worth while to say "Union" when you buy.
