Hoover to Mediate in Rio Grande River Row

DENVER, Colo. (By the Associated Press)—In an effort to permit relaxation of a reclamation service decree virtually tying up all irrigation development on the upper reaches of the Rio Grande, the Rio Grande commission will begin a series of hearings early in September at points between Alamosa, Colo., and El Paso, Tex.

Secretary of Commerce Herbert Hoover will represent the United States government as mediator. The party will include representatives of the federal government and the state governments of Colorado and New Mexico. The trip will be made by motor and hearings will be held at probably 20 points along the river. They will be attended by river commissioners and engineering experts.

Development of the upper portions of the Rio Grande above the Elephant Butte dam project dates from 1912, when the Mexican government protested to the United States that development in southern Colorado and northern New Mexico was robbing the Juarez district of its water supply. This difficulty was ironed out three years later when, by an international treaty, the United States agreed to deliver 60,000 acre feet of water annually to the Juarez section. The Mexican government renounced all further rights to the waters of the Rio Grande.

However, to provide for the stipulated amount of water, it was necessary for the federal government to institute the Elephant Butte project, which had as its other development above that point. Since that time, with the exception of small reservoirs and work

an old grant lands no development has been permitted, the reclamation service holding that waters of all western streams were the property of the government to use as it saw fit.

This decree brought strong protests, especially from the San Luis valley water users in Colorado, who will be represented in the hearings by engineers and attorneys. The government remained firm in its stand to prevent additional development.

The hearings will be held, according to Ralph E. Carpenter, Colorado river commissioner, to prevent the recurrence of the series of incidents that made necessary the drafting of the "Colorado River pact," which is yet unratified by the state of Arizona.

Reports compiled by engineers working under the direction of the river commissioners of Colorado and New Mexico indicate that there is sufficient flow normally to permit further development. Charts purport to show that for

PILES
A SOURCE OF MANY ILLS
A great proportion of stomach trouble aside from cancer or ulcers, is due to reflex irritation from the rectum or colon. Unaware to you, Piles or other rectal disorders may be the cause of your ill health.

The success of my non-surgical treatment over many years enables me to GUARANTEE to cure any case of Piles or other rectal trouble. Write today for my FREE illustrated book.

the last 75 years there has been, except at one period, more than enough water to take care of the Elephant Butte dam. The hearings are designed to determine to a large extent the amount of development that can be allowed in the restricted regions.

These additional treaties are being considered by Colorado authorities, one to settle a controversy of long standing between Kansas and Colorado regarding the use of the Arkansas river, the other a tri-state pact among Nebraska, Wyoming and Colorado with the government as a fourth party, to define the uses of the North Platte river.

Island in Finance Firm To Defeat Food Profiteers

DUBLIN (AP)—The cost of living in the Free State continues to be higher than in Great Britain or in Ulster. This affects the wage question, and workers resist reductions in wages till the prices of food have been lowered.

The government has been for months pressed in the Dail to deal drastically with profiteers. The farmers complain that they are getting low prices for their food-stuffs sold at high prices in the cities and towns. Food control and fiscal prices were advocated.

The government plan for reducing prices has just been announced, and will be embodied in a bill to be submitted to the Dail. It provides for competition with the profiteers by lending money to organizations willing to go into business against them. The banks are to advance the necessary capital and the state guarantees the principal and interest. The loans will be given only on condition that the recipients undertake to sell at prices below the average retail prices.

Years of Travel in Wagon Planned by Western Artist

SEATTLE, Wash. (AP)—Sight-seeing in a covered wagon, with "Chicago in two years" as the first goal, is the plan of Louis Dana Johnson, a local artist, who has left here with his family on a journey of five or six years.

In a trim gray prairie schooner, Betty Lou, aged 2, plays under the shelter of the canvas. Mr. and Mrs. Johnson and Barbara, aged 11, hike along the highways. Mr. Johnson expects to "knock off a year" in Chicago to study art. He then will continue to "hit the trail" until he and his family tire of the novelty. The schooner, which he constructed, is fitted with everything necessary for a home and a school.

Wherever the recipe calls for milk

When the recipe says "milk" it puts up to you the responsibility of using the right milk. It can make or spoil the dish. When you put all the other ingredients and so much work into your cooking or baking, you can't afford to take a chance on the milk.

Borden's Evaporated Milk assures you sweet milk, pure milk, creamy milk—at any hour or season. And everybody likes the taste of Borden's. Try it—but insist on Borden's!
