Rene and Lambert, the renowned novelty whirlwind dancers with special settings, drapes, costumes and effects, add to the brightness of this offering which will head the list of attractions at the Arcade Theatre Sunday.

The Demos in presenting their accurate novelty portray the same with which their feats of strength, balancing, contortion, etc. can be accomplished, all which are done in a manner that will entertain both young and old.

Kenton Uses Many Novelties In New Comedy.

Theatres, torture chambers, lions, and Buster Kenton in his soup and

fish are but a few of the novelties that the frozen-faced comedian has contrived for his latest Metro comedy, "Sherlock Jr.," which is coming to the Sherry Theatre on Sunday and Monday. The story deals with the adventures of a small-town movie operator who, by a slip of fate, becomes a movie star overnight.

He engaged the famous Iron Maiden of Nuremberg to appear in the cast. Her affection was killing. Although the iron statue is hollow, when once its doors are closed, the occupant becomes conscious of long spikes which penetrate every part of his body. Boss for Edward Ward traces the villain, into making love to the terribly affectionate maiden, but after Ward had been in her embraces a moment he said she was anything but a kid. Hunter eyed him seriously and murmured that someone had to be the goat.

Also showing a two-reel Western drama.

Director Explains Title of Picture Now at Star Theater.

When the mind is seized by "The Breaking Point," one of two things must happen, according to Herbert Brenson who produced Mary Pickford's Paramount picture of that name as his latest production for Paramount.

"Suicide is no way," and the other is nature's own way of taking care of the mind. It is a brain revolution that drives all memory or what caused the trouble back into the sub-conscious mind and keeps it there.

In "The Breaking Point," Matt Moore plays the role of a man whose mind gives way when he thinks he has become a murderer. When he recovers his poise,

MAKES GOOD

Frank Brasill, "duty manager" of the Pacific Coast League, has changed a losing team into one with a winning streak. Brasill, just 24 years old, recently was appointed to fill temporarily a vacancy in the managerial position of the Portland team. The inauguration was celebrated by 13 wins out of 15 games compared with the immediately preceding record of 15 out of 22.

The memory of the matter is lost in the depths of his subconscious mind where it remains for ten years. Only the sight of his former associate, who had him step by step through the events which led up to the murder, is sufficient to shock him into complete consciousness of the things which caused his mental collapse.

Mrs. A. G. Smith's condition does not seem to be improved although her friends are anxious to look for a favorable change in her condition.

Willys-Knight Announces

A New Invention!

that Eliminates Vibration

Another triumph for Willys-Knight is listed in the announcement of the Lanchester Balancer, a new British invention, as standard equipment. It removes the annoyance of engine vibration.

This adds an ultimate perfection to the recognized excellencies of Willys-Knight—it adds perfection of riding ease to the grace, the power, the performance, the durability that have earned prestige for Willys-Knight.

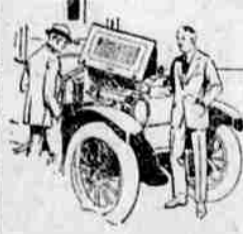

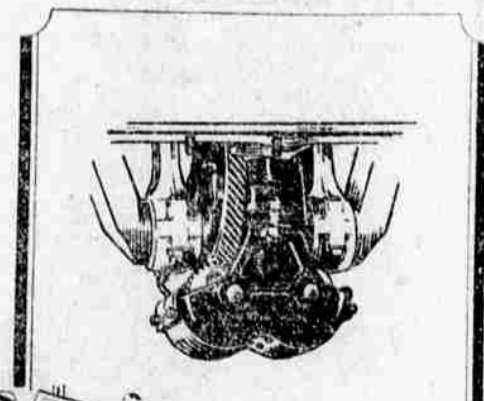

Car owners have desired this improvement since the first automobile was built. The best technical talent of the industry has unceasingly sought it. It has presented a problem seemingly insurmountable.

Willys-Knight now gives America the solution of that problem. It makes the impossibility of yesterday the accomplishment of today. It reaches the apex of modern motorcraft in—the vibrationless engine.

It is the same engine—the same quiet, superb sleeve-valve motor that improves with use and develops greater power under grinding operation. But now it endows Willys-Knight with a velvet smoothness of operation never before imagined by the enthusiasts who own and drive the car.

The Lanchester Balancer marks a wide forward stride in automotive engineering. Its effectiveness has astounded car owners and engineers alike. It is the distinctive development of the year in motor circles.

The Willys-Knight, with the Lanchester Balancer installed, is ready for inspection and demonstration. Try it out—at all speeds. Your experience will be eloquently convincing.
