

WORKERS' PLAN IS ANNOUNCED

CHICAGO, (AP) — Active campaigners for the Workers' Party ticket, with William Z. Foster of Chicago for president, and Benjamin Glilow, of New York City for vice president, will wage their fight almost exclusively in the large industrial centers of the country, their headquarters here has announced.

Mr. Glilow will head a dozen prominent communist speakers who will start on a nation-wide tour this month, carrying "the Communist message to the workers and farmers." Wherever it is possible to get presidential electors on the ballots, a state campaign will be opened. In Illinois their candidate for governor is William F. Dunn, Chicago.

According to the official program, the party plan is "to run candidates nationally, in the states, and locally, under the name of the Workers' Party, wherever it is possible for us to put candidates on the ballot, and to include the nomination of presidential electors in every state in which we can get on the ballot. The national office will issue a series of campaign leaflets which will be distributed by the party organizations in millions of copies."

The party headed by La Follette as well as the Democratic and Republican parties will draw fire of the Workers' Party speakers "in the supreme duty of the Workers' Party," the central executive committee has announced, "to rise against the petty bourgeois alliance which is misleading the workers. La Follette is a menace to the labor movement. Part of the organizations participating in the June 17 convention are themselves inflected with La Folletteism and will be swept along in the wake of the La Follette petty bourgeois progressive movement."

"The alignment in the election will be the capitalist Republican and Democratic parties, the La Follette progressive petty bourgeois party, and the Workers' Party raising the slogan of working class action on a Communist program against the capitalist and against the petty bourgeois misleaders of the workers."

Novel Punishment Meted Out For Petty Larceny in China

TRINGTAO, China, (AP) — The park police here demonstrated a new and effective mode of punishment of vandals recently when two men were caught stealing flowers.

The officers took the culprits to the main boulevard and made them kneel. To the prodding of police rifles they were made to shout to all passers by why they were being thus treated.

For 15 minutes they were compelled to shout: "I took what did not belong to me and promise never to do it again," while they were made to hold the stolen flowers aloft.

TOURISTS ENJOY THEMSELVES AS SECOND CLASSERS

SMYRNA, Turkey, (AP) — Americans are doing the only building in Smyrna. While the waterfront and the burned areas leading to the back streets remain in ruins, tragic reminders of the disaster of 1922, the Americans are going ahead with the building of an agricultural school at the International College for which Mrs. John S. Kennedy, of New York, recently gave \$10,000. The Turks interpret this as evidence of Yankee confidence in the future of their country.

Smyrna's export business is improving. In the last 12 months it exported 31,000 tons of raisins and 15,000 tons of figs, and the tobacco crop is better this year than it was in 1923. American buyers are taking most of the tobacco crop.

Turkish rug factories are turning out almost the same number of rugs as in pre-war days, and have substituted Moslems for Christian weavers.

Mouamer Bey, father-in-law of Mustafa Kemal, has just been re-elected Mayor of Smyrna. He is a wealthy land owner and is popular with the people. Italians of whom there were nearly 10,000 in Smyrna a year ago, are leaving in large numbers owing to a growing feeling on the part of the Turks that Italians have designs of their country. The Italians are going to Syria and to South America. Of Greeks there are only 23 left in the city, and these are awaiting transportation to Greece.

Consensus Is For Coolidge.

DETROIT. — Senator James Couzens, who during the last session of congress was frequently aligned with the La Follette group and whose Republicanism has been questioned by political opponents, announced Tuesday, in two speeches, that he will support the Republican ticket in November, irrespective of the outcome of the September primaries, at which he is a candidate for renomination.

Senator Couzens said he "probably was in error" a year ago, when he said the present prohibition laws were unenforceable and that he was in favor of "old-fashioned" beer.

"But I shall say what I mean, regardless of the political error of the remarks," he added. "Nothing I can do can change the prohibition laws."

Patient Gives Self Up.

BAKER, Ore. — A man walked into police headquarters here, gave his name as D. E. McMillan, said he was a veteran of the world war and had escaped from United States veterans' hospital No. 24, American Lake; that he had out of funds and could not find work, and asked to be sent back.

He was turned over to the sheriff's office and a wire sent to the hospital, but no reply has been received. He gave his age as 34 and said he was mustered out of service June 25, 1919, at Camp Lewis, and transferred to the mental ward of the veterans' hospital. He was held pending word from the hospital authorities.

Cruel Eyes Watched Murder

Here is a remarkable facial study of Miss Florence McKinney, 19, who sat at the wheel of an automobile while her sweetheart, Emil Zuke, strangled to death Miss Cora Raber, whom he had also promised to marry. Miss McKinney then waited while Zuke hid the body of his victim in the bushes along a lonely road near St. Joseph, Mich. The cool, almost set eyes and stern mouth of Miss McKinney are plainly shown.

Dinner Hour Arouses Animals Held Captive

CINCINNATI. (By the Associated Press) — A large female dog dispossessed of her puppies is the best friend of St. Stephen, curator of the Cincinnati Zoological garden. She is used quite frequently to nurture the younger animals of the cat family who have been cast aside by their natural mothers.

Several of the jungle cats which inhabit the zoo have had a female dog as their adopted mother. To look at them, however, no one would suspect that they had been brought up by "foster" parents and Mr. Stephen asserted he would not be able to tell if it were not for the fact that he brought the female dog to them.

Big, strong and healthful these cats, the offspring of ferocious jungle animals, are content in their new environment until feeding time. They are aware of this hour and make their demands known in deep penetrating roars. The majority of the younger cats have been nursed by a mother dog, but they are not as tranquil and decorous as the mother dog would want them to be. As soon as they were able to pull their bodies around they start acting in a manner true to the strain that runs through their veins.

They pull and tear at the old mother dog and make life miserable for her. When the kittens can do this to their natural mother to a certain degree, they all do seem to sense the limit, according to Mr. Stephen, and stop their rough play in time to avoid a swift cuff with the paw.

Abandonment of kittens by their mothers is not a rarity. This season Mr. Stephen has had unusual good luck to have all the cats remain with their kittens. Odd as it may seem, the male of the pair pays but a mild attention to his offspring. Scarcely to him the cubs are annoying, for in a majority of the cases he will have nothing to do with them.

The zoo has one of the greatest collections of animals in the country. It has been honored by the birth of triplets to Loba, the lioness, and twins to the leopardess. Mr. Stephen said this was one of the few times that triplets have been born to any of the cat families here.

Early Development of Owyhee Project Expected in Salem

SALEM, Ore. — Early development of the Owyhee irrigation project in Malheur county is believed to be forecast in the action of the federal reclamation service in reserving for reclamation purposes all water in the Owyhee river, notice of which has been received by Ithea Luper, state engineer.

The Owyhee project is one of three approved by the federal reclamation service during the past year for development, provision for which was made by the last congress. The project lies in eastern Malheur county, extending over in to Idaho, and comprises a maximum of 172,000 acres. Under the federal reclamation service reservation, no further filings for water rights on this stream will be recognized, Luper said.

Steel Work Near Done.

HOOD RIVER, Ore. — Steel crews completed placing the last girder in the seventh span of the Waukena interstate bridge across the Columbia between here and White Salmon. The total length of the seven spans which reach from an 1800-foot wooden trestle on the Oregon bank to the channel span, is 1450 feet. Riveters will complete their work on the steel next week.

Crews of the Gilpin Construction company are now concentrating their efforts on three piers on the Washington side of the Columbia. When these are completed two 26-foot spans and the channel span of 252 will be laid, completing the structure. It is anticipated that the bridge will be ready for traffic by late October.

Embry's Return Asked.

SALEM, Ore. — Gov. Pierce has issued a requisition for the return of Charles N. Embry to Union county, where he is wanted on a charge of non-support. Embry is under arrest in California. Lee Wardick, sheriff of Union county, left here Monday night to bring Embry back to Oregon.

Women Doctors Unite.

HAMBURG, (AP) — A German association of women physicians has been formed. The club intends to represent the interests of its members against male doctors, and to further reform work with regard to social hygiene.

Hoover Silent Politically.

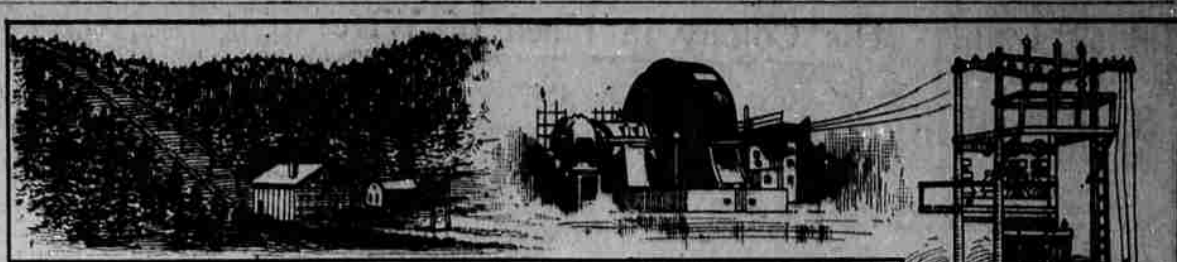

SACRAMENTO, (AP) — Herbert Hoover, secretary of commerce, is not a politician, he told members of the Butler club here Tuesday night, after a dinner given in his honor, at which he refused to discuss the political outlook, but expressed it as his belief that President Coolidge will be re-elected.

Secretary Hoover made a plea for the development of the Sacramento river by the building of locks, to prevent the water in San Francisco bay from backing into the mouth of the river, thereby contaminating the water supply and irrigation prospects of a large area.

The backwater situation was caused by the abnormal withdrawal of river water above Sacramento for irrigation and hydro-electric storage purposes.

Fishermen Want Higher Prices.

MARSHFIELD, Ore. — Fishermen on the lower Coquille river, believing they were not getting sufficient for their salmon, will not deliver to the cannery at Bandon. The fishermen asked 40 cents for silver side and 60 for chinook, but the cannery said they couldn't afford that schedule. The fishermen said they would suit their catches and ship out on vessels which ply to the Coquille river.

It Is Doing The Work Of A Giant While Ironing Baby's Dress

A big lumber mill employing many men is sawing a mammoth log into lumber. At the same instant a skilled mechanic in the railroad shops of La Grande starts his motor-driven lathe.

On a farm, near North Powder, a farmer's wife is hatching and brooding her chicks by electric heat.

In Cove a woman is ironing her baby's dress.

In a flour mill at Union, sack after sack of grain is being milled. A storm is gathering near Elgin and from house to house the lights begin to twinkle in the dusky light.

Thus are some 25,000 people in 16 communities simultaneously served — each day, each hour, each second by inexhaustible, unvarying Eastern Oregon power. Over the far-flung transmission lines it flows to them ceaselessly—dependable, instantly available at the finger's touch.
