Here on Business—

T. C. Hefty, who owns one of the largest cherry orchards in Cove, was in La Grande yesterday on business. Mr. Hefty's crop this year was only about half of last year's but in spite of the fact he feels that it was a very good year. He reports that Lambshead brought 14 cents a pound, Hines 12 cents and Royal Anna 5 cents.

To Ship Short-horns—

W. J. Tompkins, one of the largest breeders of registered short-horns in the state, expects to ship a car load of his stock next week to the various fairs in the western part of the state. Part will go to the fair at Eugene, some to Albany and the entire herd will be shown at the State Fair at Salem. These cattle are well known to all people and people throughout the state, having made a very good showing at the State Fair and the Pacific International in previous years.

To Have Large Fair—

J. E. Reynolds returned to La Grande this morning from a meeting of the state fair board held at Salem. Mr. Reynolds reports that from present indications the fair this year will be larger and better than ever. More entries from boys and girls clubs throughout the state have been received this year than ever before, he averred. So far 552 clubs have entered.

Sells Sheep—

H. W. Noregaard of Walla Walla returned from Chicago this morning where he went with 28 carloads of sheep belonging partly to himself and partly to Fred Paulsen of Pendleton. Mr. Noregaard reports

Young, mathematics-history.

Baker Schools Ready.

BAKER, Ore. (Special)—The Baker public schools will open Monday morning at 9 o'clock, with a full corps of teachers, announced Superintendent Broadbent. "I will urge parents to start their children in on the opening day and insist upon regular attendance," said Professor Broadbent. "Success in school work whether in the first grade or the high school, as in all other lines of endeavor, depends upon regular attendance and strict attendance to business."

Professor Broadbent announced that the G. D. grade will not be received in the Central building as previously announced but the pupils will go to either the North or South Baker depending upon which is more convenient.

Miss De Six.

On account of the crowded conditions in the schools only those who will be six on or before September 19 will be permitted to be-

Going Up!

Bird Bennett took out a permit this morning to build a \$2500 dwelling on I avenue.

Perry Blanchard is to build a garage on M avenue between Seventh and Eighth streets. The building is to cost \$200 according to the permit taken out this morning.

The Silverthorn - Wright drug store has installed a set of new panel partitions constructed by Harley Richardson of the Richardson Art Shop.

gin school this fall. Those who will be six later than that will have to wait until the next term.

Those who were in the high school last spring and gave a preference for subjects in the coming term have been assigned their subjects and schedules according to Principal P. S. Knight. New pupils from out of town are being registered and all are urged to be ready for the fall term by Monday morning.

The high school is composed of the four upper grades of the Baker public schools and there will be a teaching force of 29. The Junior high school is composed of the seventh and eighth grades with a corps of 11 teachers under Paul McCulloch, principal. Thirty teachers will take care of the six lower grades.

The Baker high school is a member of the Northwest Association of Secondary schools which is affiliated with the North Central Association of the Middle West, so that its graduates are eligible to enter practically any university in the country.

The high school cafeteria will not open for about two weeks and it will take that long to get the staff organized and everything ready. The Nuzuel, the high school paper, will make its first appearance Monday and will contain the names of the full staff of teachers, courses of study and other information. Robert McCard is business manager of The Nugget. Glen Hays, assistant manager and Kenneth Buckey is editor.

Inner Schools Open.
IMPERIAL (Special)—The 1924 official school year starts at Imperial Monday morning, September 8. The teachers as they are lined up for the term are Mr. Hammett, Mr. Thompson, Miss Vera Henderson, Miss Eva LeBether, Mr. Hubbard, William Westenskow, Mrs. Hammett and Mrs. Edna Conklin. With the teachers complete this is expected to be another very successful term.

Walla Walla All Set.
WALLA WALLA, Ore. (Special)—The Walla Walla public schools will open Monday, September 8 at 9 a. m. It is hoped that as many as possible will be present the first day as it is very important for pupils to get started right and it is always difficult to make up back work.

The first graders will register with Mrs. D. B. White, in room 1 of the white building, all pupils who were in room 2 last year will register with Miss Agathe Marvin in the same room; the 2d pupils who were in Mrs. White's room last year will register with Miss Loretta Goodfellow in room 2 and

BRITAIN ONCE TORRID LAND

LONDON, (AP)—England 100,000 years ago was a tropical country in which the inhabitants hunted elephants and other animals of the warmer climates with skillfully made weapons, in the opinion of Major A. G. Wade, the British archaeologist, who has recently made important discoveries in the gravel pits near B. Ham, Dorsetshire.

Among the relics brought to the surface were the remains of mammoths, an elephant, woolly rhinoceros and beautifully made flint instruments. The findings of the remains of the mammoth and rhinoceros, according to Major Wade, who said that both had thick coats and could have lived in a cold climate.

"With the elephant," he said, "the case is different. He was not only a warm weather animal, but needed a tropical climate."

The flint instruments consist of great hand axes, oval shaped discolor implements larger than a man's hand which were probably used for skinning and cutting up large animals and enormous spears of the Paleolithic age. According to Major Wade, the persons who used them had attained a much higher degree of civilization than those of the Neolithic period who followed them.

Major Wade placed the age of his discoveries at 100,000 years, basing his estimate on the depth at which they were found, under the gravel of the old bed of the River River.
