Georgette Dress

FIGURED chiffons and silks are not to pass out with the summer, as they usually do. They have been so popular they are to be carried over into the winter season. Here we have a figured georgette draped over a navy blue satin foundation that follows very tailored lines, and can be worn very formally. The collar is of plain crepe and the eyes at the low waist line are in rose shades.

Fashion Notes

Suits More in Favor. London. — Suits appear to be more in favor today than ever. Though some predictions were that their spring popularity would kill them, the newer suits have very long coats.

Make Hobble Hair Dignified. Paris. — Frigorous and varied have been the devices for keeping bobbed locks demurely dignified for formal evening dances. The latest idea is a bandana of fine silver, studded with crystals and worn low across the ends of the hair, from ear to ear.

Changes in Lingerie. Paris. — Lingerie in certain of the smart shops has taken an unexpected turn today. The undergarments are made of printed silk, of very soft texture, which shows brilliant little flowers scattered over a creamy background. The only trimming is a binding of silk ribbon in some dark shade matching the darker blossoms.

Square Crowns for Hats. London. — Everywhere at present one sees the high crowned hat, and usually the hat with crown that is square. Often these hats of satin or felt are untrimmed except for a narrow band around the crown. They have a Kate Greenway look.

Crowns Decline Still Popular. New York. — Although the ultra-fashionables declare that crepe de chine is not in the fore front of

Your Teeth

By Frederick D. Stricker. The importance of the care of the teeth needs no argument. A well cared for mouth and set of teeth are a mark of well being, refinement and character. Bad teeth are an unnecessary evil. Tooth decay is perhaps the most common of all diseases to which man is heir. Tooth decay is not a late cause of toothache, but toothache is only a fore-shadow of what is likely to result if the tooth is not properly treated by a dentist. Toothache is the danger signal but it is frequently sounded too late to enable a dentist to save the tooth. We used to think that toothache, as food, old-fashioned, "jumping toothache," was the worst punishment anyone could receive for the crime of decayed teeth. Now we know that poison from bad teeth and gums has a far-reaching effect in stomach disorders, rheumatism, heart trouble and a number of other disorders which cause ill health and disease in almost every part of the body. It is cheaper, less painful and better for the health to go to a dentist, twice a year, and have the teeth kept in a good condition all the time instead of going only when one decays or aches.

The teeth are living, sensitive structures, lying in sockets which resemble a bony joint. Strong teeth and a healthy body have a much greater power of resisting decay than otherwise. Teeth need exercise by eating the right kind of food in the proper way. A soft, pulpy diet weakens the teeth and invites trouble. Tooth decay is often an expression of general malnutrition and is frequently associated with enlarged tonsils, adenoids and other signs of disease or degeneration. It is probable that sound, vigorous teeth have a definite power of resistance and it is now believed that structural changes within the teeth render them susceptible to outside influence. The teeth are dependent on the general nutrition of the body. A well balanced diet, rich in vitamins, including whole grain, fresh dairy products, and green vegetables is one of the best preventives against tooth decay. The most frequent cause of tooth decay is unclean teeth and mouth. The teeth are almost always decayed from without as a result of acid formed by bacterial fermentation. The common explanation is that calcium is dissolved by lactic acid formed by the fermentation of food in contact with the teeth. Cleanliness help avoid the immediate causes of decay.

Tooth Brush Needed. For the cleanliness of the teeth, each well-cared, untraced, with a toothbrush, some soap and clean water. While it is preferable to brush the teeth the last thing before retiring, the first thing on arising and immediately after each meal, many people find it inconvenient to brush the teeth more than twice a day. A good method of brushing is known as the rolling stroke method. To brush the teeth and gums with this method, place the toothbrush (ends of the bristles up) for the upper teeth; between the cheek and the gums; turn the brush toward the gums, sweeping the bristles down over the gums and teeth to the cutting edge of the teeth. Repeat for the lower teeth and brush up. This motion brushes the cheek side of all teeth and the tongue side of the back teeth. Brush the inside of front teeth by putting the brush, bristles up, on the roof of the mouth for the upper teeth and on the floor of the mouth for the lower teeth, and pulling the brush outward over the gums and teeth. Brush the grinding surfaces of the teeth with an in-and-out and side-to-side stroke of the brush. Brush the brush in clean water frequently while brushing the teeth.

The advice of the dentist should be sought as to the condition of the teeth, especially as to whether there is any decay or destruction of enamel. Periodic examination and cleaning by the dentist are the only safe means. Prevention is greater than cure.

ISLAND CITY COMMUNITY CHURCH.—Now for the new year. What sort of a year shall we make it? It is quite sure to be a pleasant one; but is pleasure to be the main object? For the primary consideration how would it do to get our inspiration from such words as Work, Service, Helpfulness, Community betterment, Character-improvement, and efficiency in Christian Living? The text Sunday morning will be "So He made It Again," found Jeremiah 18, 4. Sunday evening the text will be "Call Joshua that I may give him a charge," Deuteronomy 31, 14. "Making the most of my mind" will be the topic for the Epworth League meeting. See Acts 22, 3; 17, 16-29 and Luke 2, 40. We need you and you need the church services. Let us begin now—pray, plan and work for a great year.—Hall K. Wallis, pastor.
