

Announcement--

We have sold our entire Men's Department to the buyers of Scranton & Short, Bankrupt, and this space is being remodeled to afford more room for our Ladies' Ready-to-Wear Section. The remodeling is not interfering with our regular business and we hope to show our friends and the public a modern Ready-to-Wear Department in the very near future.

DEATH SHOCKS NORTH POWDER

NORTH POWDER. (Special)—Reports came Thursday of the death of John N. Niles, of the Wolf Creek community at the Baker hospital. He had been ill for several weeks and though his death was not entirely unexpected it comes as a shock to his many friends. Interment was made in the Baker cemetery after services held Friday morning at the St. Francis Cathedral in this city. He leaves four sons, Matt, Harry L., John H., and Joseph A., beside his widow and a number of grandchildren.

The funeral of Mrs. Anna Denning, who died recently at the home of her daughter at Santa Monica, California, was held in this city at the Methodist church Friday afternoon with Reverend Ira J. McPartland in charge of the services. Mrs. Denning was well known in North Powder having lived in this vicinity for a number of years. She leaves many friends and relatives to mourn her loss—seven children survive for whom she is Mrs. Don Brand, Mrs. Wylie Dalton and Dick Denning, of this city.

Two carloads of hogs were shipped to Portland Saturday by the Shively—Evans firm company. Frank Shively accompanied the shipment to Portland.

The North Powder high school football team feel much encouraged and their coach and schoolmates are very proud of them in their victory over the Union high school team, with a score of 56 to 0. The game was played Friday afternoon at the North Powder field.

Miss Kate Johnson, who entered the Baker hospital last week with a severe ailment in her throat returned Friday evening feeling much improved.

A number of North Powder residents attended the funeral of John Fisher Sunday at Haines. Mr. Fisher was well known in this vicinity, having lived in the Muddy Creek vicinity for many years.

Public Restroom Buildings Damaged in Recent Revolt

DUBLIN. (AP)—The Free State government has at last started rebuilding the Dublin post office destroyed in the rebellion of Easter, 1916. Work has now commenced on the old site with a view to preserving the tradition and character of the original building intact.

Dublin's most beautiful building, the Four Courts, was destroyed in the fighting of July, 1922. The dangerous parts of the ruins have been repaired and the walls are considered good enough to justify the rebuilding of the whole edifice. The restoration on the damaged area is keeping with the treatment of the original 18th century architect, James Gandon. The new structure is being used.

WHY SUFFER SO?

Get Back Your Health as Other La Grande Folks Have Done.

Too many people suffer lame, aching backs, distressing kidney ailments and rheumatic aches and pains. Often this is due to faulty kidney action and the danger of hardened arteries, dropsy, gravel or Bright's disease. Don't let weak kidneys wear you out. Use Doan's Pills before it is too late! Doan's are a stimulant diuretic to the kidneys. Doan's have helped thousands. They should help you. Here is one of many La Grande cases: R. L. Bussey, 1409 Monroe Ave, says: "I have been subject to kidney complaint at times, particularly when a cold settled in the lower part of my back. Severe pains annoyed me and my kidneys got out of order. I used Doan's Pills and in a short time they set me right." Over Seven Years Later, Mr. Bussey said: "If I have the least sign of kidney complaint a short use of Doan's is sure to bring prompt relief."

Monthly "Emerald" Is To Be Published Soon

EUGENE, Ore. (Special)—The Oregon Daily Emerald, student publication at the University, announces the publication of a 16 page Emerald which will appear monthly and will be devoted to purely literary subjects. It covers the drama, creative editorials, short stories, poetry and other literary works will be published. Leonard Woodward, of Portland, editor of the Emerald, Leon Byrne of Eugene, and Margaret Morrison of Hood River, associate editors of the daily, will be in charge of the monthly magazine.

Theresa Slowly Winning In Fight on Malaria

MOSCOW. (AP)—The International Malaria Commission of the League of Nations, which has been visiting India to investigate the malarial epidemic, has completed its work and approved generally the efforts of the Indians to combat the disease. One of the commissioners said recently that the epidemic seems to have passed in most of the affected areas, but there are a number of localities where it still prevails due to the shortness of winter.

Japanese Social Worker To Visit United States

TOKYO. (AP)—Japan's outstanding social service worker, Tozuko Kagawa, widely known as "Kagawa of Kobe," plans to visit the United States late this year. Mr. Kagawa, a socialist with wide public contacts, conducts a social settlement in Kobe. During the past year he has been much in Tokyo doing relief work among the earth quake sufferers.

Irish Welcome German Ship

RAMROD. (AP)—When the liner Westphalia recently called at Queenstown, Ireland, to land some passengers the German ship was given an enthusiastic welcome which was quite unexpected. People at the port cheered and a delegation headed by the mayor went aboard, extended best wishes to the community and emphasized the friendly relations between the two countries.

Chickens Tax Total Heavy

OREGON CITY. (AP)—The Oregon 400's business in this city, and the largest during the time that L. H. Taylor has been tax collector for the past six years, was that on Saturday when 325 receipts were delivered. The amount taken in Saturday was \$25,500.

A BARGAIN

A fine 5-room modern home located on a paved street, just painted on the outside and in fine condition in the inside. This is a home anyone will be proud to own and the price and terms will make you wonder what has happened that it can be purchased for the price asked. It will pay you many dollars to investigate this home if you are planning on either buying or building this fall.

Radio

The next test to determine who invented the feedback circuit is about to be applied. The DeForest Radio Telephone and Telegraph company has brought suit against the Westinghouse Electric and Manufacturing company under section 4938, which relates to laws the court determines whether Armstrong's feedback patent is valid or void, in view of patents 1,587,616 and 1,447,922 issued to the DeForest company September 2, 1924. The bill of complaint prays for preliminary and permanent injunctions restraining the Westinghouse company from bringing any suit or proceedings for alleged infringement of the Armstrong feedback patent and further from granting any license or any rights of any kind whatsoever thereunder. In view of the "ground" this suit casts on this invention covered by the Armstrong and DeForest patents, the question arises whether these patents are enforceable against infringers until the point is finally settled. It is expected that motions to test the question as to the Armstrong patent will shortly be made in several pending suits brought under that patent.

The five thousand dollar broadcast receiving set shown by the English company at the radio world's fair at the Madison Square Garden, New York, recently was a copy of the receiver used by King George at Buckingham Palace. The set was an embodiment of cabinet work and of unusual size, being six feet long and standing four feet high. The English set did not have great receptive value but it was said to be a model of the use of radio equipment as a decoration in the same manner than as a utility.

The third national radio conference opens in Washington, D. C., this evening. The sessions will be held in the department of commerce building. The proceedings will be public and all persons who have suggestions regarding radio betterment will be heard. It is expected the conference will last about three weeks.

LONDON. (AP)—English women aroused by a desire to enlarge the long restricted horizon of their activities, are rushing pell-mell to Scotland Yard these days in an endeavor to enter in the Metropolitan Police force at the very fountain head of police administration in England. Their endeavors are a little premature. Nevertheless, they are greatly encouraged by a committee report recommending increase in the number of women "bobbies" of present very small. But particularly must come the necessary legislation to provide for the salaries of the police women before any real progress can be made.

All this to the contrary amidst women, not content with merely writing to Scotland Yard, beside the entrance of the "big" door, are in an attempt to press in person their claims to perform as members of the police force. All sorts of women are among the Englishers, old young, middle-aged.

WASHINGTON. (AP)—When the British ambassador to Great Britain and now the editor of the Washington Post, in a radio broadcast, stated in the editorial sanctum he was the political "hot" of the air for the radio is quicker than telegraph and much less trammled than the telephone.

The Washington baseball team, from heavy slumped Walter Johnson, the pitching king to Stanley (Duke) Harris, the youthful manager, are all rascals. The writer of "Stable" recalls a visit to the Senators at the Grand Concourse hotel Monday day early in the baseball season. The entire team, amounting to about a Glee C. B. 12 and using a "rehab" to give added power, were taking part of the air. Every player is an expert in his own line but they do not rail their own. Stanley Harris supplies youth and enthusiasm on the ball lot or at a radio show. His senatorial aggression will undoubtedly have the sympathetic support of millions of radio enthusiasts when the world series goes on the air.

CLAUDE C. PRATT

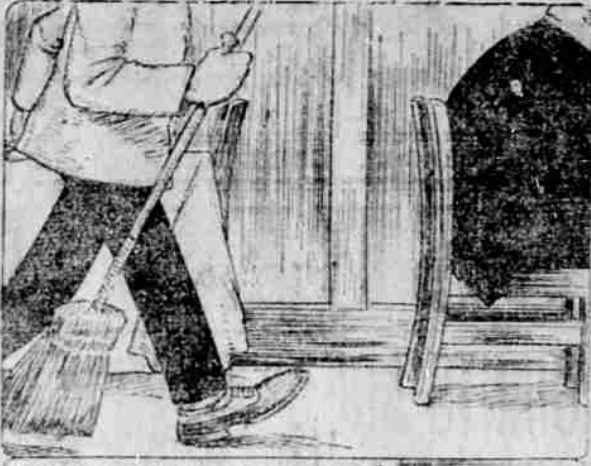

A HEART-TO-HEART TALK.

I just wanted to tell you that we are doing the best we can to furnish you with building material at a reasonable price, however it is not the easiest thing in the world to do. Some would like to tell me the price I should sell for. I have been out of front buying lumber, wire, nails and cement. I am going out for these materials. I do not expect to be out of front from those materials very long. I will let you know how things develop.

Customer after customer has been here after these materials and see me shake my head with a heavy heart. I feel sorry and afraid to have on my a hungry dog in a city home. P. S.—Building is very good, selling lots of material.

Maxwell is One of the Staunchest Cars Built Today

At all vital points, you will find that metals and construction of the good Maxwell are the same as in cars costing three to four times as much.

In proportion to its weight and power, it is actually stronger than the most expensive cars built today.

That's a big thing for us to be able to say about a car of the good Maxwell price; and it is one of the Chrysler superiorities that put Maxwell so far ahead of its own field.

Yet it is only one of the sound, fundamental superiorities which make us proud to be factors in its production. You have probably heard about Maxwell pick-up—how in a flat 8 seconds, it accelerates from 5 to 15 miles an hour.

You are also probably acquainted with the fact that the simple device of a platform spring under the front end of the motor, combined with the balancing of reciprocating parts to the fraction of an ounce, practically eliminates any sense of vibration.

Are you aware, however, that all the way through the Maxwell chassis, you find

chrome nickel or other high grade alloy steel for those parts which must stand heavy stress and strain—just as in cars of highest price?

The front axle, and all the parts on which depends the control of the car, are almost unreasonably over-strong.

A bull-dog for powerful pulling—this car; but it can't pull too hard for transmission and rear axle.

The steering knuckles, and the king pins upon which they turn, are of chrome nickel steel, heat-treated.

The thoroughness of good Maxwell strength is well illustrated by the frame, which is unusually deep, and braced by six stout cross members.

Good Maxwell strength, in a word, is a match for Maxwell performance and dependability.

All these are a part of that complete and unusual goodness which scores of thousands of owners declare makes the good Maxwell the most care-free and economical motor car they have ever possessed.

We are pleased to extend the convenience of time-payments. Ask about Maxwell's attractive plan.

Do You Want Dollar Butter?

Do not allow selfish interests to force you to accept their price of butter. They would kill competition--create a monopoly--force higher butter prices and put off the market a wholesome nutritious spread for bread.

Unless you vote the Anti-Margarine Bill down on NOVEMBER 4th it will mean Higher Cost of Living in your home.

Once and for all time--by your vote--kill off this vicious and rampant legislation--that attempts to curtail your time honored personal rights and privileges.
