ESSEX TEST REMARKABLE

News of an unusual cross-country run in an Essex six coach—a trip that took the driver from Utah to Indiana in 48 hours—has just been received by E. L. Ledbetter, Hudson-Exess dealer.

In some respects, according to Ledbetter, this run exceeded even that of the famous transcontinental dash of the Essex, four several years ago. In that it was unplanned for and was the achievement of a single driver.

"Driving one of the new balloons (Ex-standard Essex coaches)," said Ledbetter, a man in Ogden, Utah, who wished to see his mother in Terre Haute, Ind., started off on a remarkable achievement of nerve and skill.

"In 48 hours 15 minutes of actual driving he covered 1702 miles of all kinds of roads, with no rest or assistance whatever. He was using an Essex coach which had gone only 600 miles and which had absolutely nothing whatever on it but the regular equipment. The time he made shows that his Essex averaged more than 35 miles an hour.

"He left covered roads in Utah, Wyoming, Nebraska, Iowa, Illinois and Indiana. A lot of them were built out up and chuck-holed, crudely hard on a car and driver going fast. Yet the only difficulty encountered was a tire puncture. The driver, L. L. Hains, has written a warm letter of congratulation to the Hudson-Exess distribution.

uting concern in the inter-mountain territory.

"We are receiving many compliments from Essex owners here in the city. The old Essex four was a famous performer, but the new six has all the stamina and reliability of performance, plus a much greater smoothness and comfort, so they tell us.

"If the Essex coach were only a six cylinder closed car, at the price of an open one it would be a remarkable bargain. But the fact is that it is also an automobile of unusual performing power. That is why Hudson-Exess is the leading line of six cylinder cars. Sales in Wayne county, Mich., the home of the industry, show that men and women who really know automobiles, are flocking to Hudson and Exess."

DAILY FUND BELLS II

FAIRLEY, Ore.—With the entrance this year of 20 students in state colleges and universities as beneficiaries of the Bernard Daily educational fund which was established by the will of the late Dr. Bernard Daily of Lakeview for the education of boys and girls of Lake county, the cause is now sending 44 students to Oregon institutions of higher learning under scholarships which provide for all necessary expenses during a full four-year course.

Unless the number of graduates should increase materially in the future, it is believed that every boy and girl graduating from the schools of the county can be sent to college under this fund in the next few years.

Washington broke all campaign records on Sept. 27 by having no less than four candidates for president in touch at one and the same time.

But everything remained quiet on the Potomac—and a demonstration or rally of any kind.

Instead, the populace apparently didn't know or care a thing about the presidential race. Its whole interest centered in the American League baseball race. Instead,

HUNT'S LETTER (Continued from page 1)

"Mebbe you're right," the old fellow agreed, haltingly. "Heyan, he's all right, I've voted for him three times a'ready. But ain't J. G. Davis gittin' a little odd for president?"

All these side lights on his campaign give a lot of pleasure to the normally dignified, white-haired Democratic leader. He even gets a chuckle out of one communication that reached him through a case of mistaken identity.

"John W." is a name that has been freely bestowed among the Davises. And one such "John W. Davis" was recently used for breach of promise.

Whereupon Candidate John W. gets a letter from an interested partisan in the town where the suit was filed saying he is acquainted with the lady who has brought the suit; that he knows a thing or two about her which would help him in defending the suit and that, as good and loyal Democrats he is willing to divulge the same to assist the candidate.

Cross Bay Lists Heavy. MARSHFIELD, Ore.—Registration at the close was very heavy on Cross Bay, Marshfield having added \$28 since the primaries, and North Bend 225. It is estimated that the total in Cross county registrations will be at least 11,500. Republicans were 50 per cent more numerous in Marshfield than either the democrats or independents. Democrats and independents are neck and neck.

SMALL TRACTS. We have but four choice 2 to 5-acre tracts left of good land with water rights just north of Riverside Park. This land is close in and desirable for an independent living. Other tracts sold in this district are being improved, making this a growing, valuable section. Inquire of us about these tracts. They are priced low and on easy terms.
