

Decidedly New

Back in the days when women had to depend upon furs entirely for smart winter apparel, it's likely that leopard skin was the only thing to wear one season. And now, down to Modern Times, leopard comes to the fore again. So much so in fact that out of the new furbest from Paris is leopard velvet.

The Spanish and Chinese influences have brought flowers into the line of fashion. And now you may carry your flower of fashion right along with you. Handkerchiefs made like peonies, gardenias and roses, in dainty and exquisite colorings will make gay adjuncts to the smart ensemble.

It's not often that Fashion fits to Norway, but when she does, it's a worthwhile trip. The "Christina" is a choker, formed of sea green beads and pearls—a single strand around the neck, with a three-string pendant effect.

Fashion knows no gratitude—knows not the meaning of faithfulness. Last season many bracelets were the rage—the more the merrier. This Fall, a single magnificent bracelet gracing Milady's arm is quite the smartest thing.

Buckling Fashion — and successfully. Buckskin enters the field of feminine fashion with a great deal of smartness. Buckskin, formerly associated only with Men's Gloves, fashions Women's new Fall Gloves. Strap gauntlets, tiny cuffed and deep cuff effects add to the chic of these accessories.

What has become of the beaded bag, you ask Fashion? Transformed into a beaded purse, answers she. Paris still sponsors the flat purse, and in turn, beads it. One of the latest hand-bag novelties are flat purses, beaded on both sides.

GRAND-NEPHEW OF FRANKLIN IN SETTLEY, NEVADA

SETTLEY, Nev. (AP)—Back in the middle ages "Franklin" meant freetholder and John Henry Franklin, known to residents of this section as "Long John" and reputed grand nephew of Benjamin Franklin, is running true to form. He is a freetholder of a tentative kind.

"Long John" is 68 years old, tall and with hair and beard tinged with grey. He is a bachelor and takes great pride in taking pie and cakes. He describes himself as the "black sheep" of an illustrious family and his little faith in the writings of Benjamin Franklin

in regard to liquor. Where as Benjamin Franklin would "drink water, put the drop in your pocket and have the dry holocaust in the punch bowl," it is the claim of "Long John" that he "can hold his liquor with the best of them."

Some years ago "Long John" quit tobacco and now as a substitute for chewing and smoking he munches peppermint candy.

From the time he was 18 years old until he came to Nevada 12 years ago, Franklin wandered about the world, and he recounts his experiences a trip to Siberia aboard a whaling vessel and imprisonment there by Russians for many months.

Premier Herriott proposes to abolish the Devil's Isle prison, the notorious penal colony of French Guiana and known as a "man-made hell."

You Can't Match It for Utility-Comfort-Value

With the right performance assured, pick your closed car with the idea of utility and comfort uppermost. On that basis examine the good Maxwell Club Sedan. Try all the seats. Stretch your legs. See how easy it is to get in and out.

Then drive it on the road and experience its driving and riding comfort.

Of course, since it is a good Maxwell, you know you can count on care-free, economical performance.

An ideal car for the family, for the busy man or busy woman; and, by long odds, the best value in the four-cylinder field.

We are pleased to extend the convenience of time payments. Ask about Maxwell's attractive plan.

Geo. Thomas, for many years a resident of Cove, but now of Roseburg, is spending a few days at Cove.

WORLD LAWYERS ISSUE CALL FOR PEACE PROGRAM

STOCKHOLM, (AP)—International good will, peace, and increased co-operation are reflected in the proposals and decisions of the International Law Association congress held here recently, attended by 400 delegates representing 20 different countries. One of the most important recommendations of the congress calls for a more humane treatment of prisoners of war, protecting them under international law, preventing exploitation for forced labor, and providing for control of their treatment by a neutral power.

The serial defense committee of the congress worked out and submitted a bill for a new law stipulating legitimate objects for attack by air forces, and forbidding all aerial warfare with the object of terrorizing the civil population. Sir John Fisher-Williams, of England called upon all law experts in the world for a thorough revision of international law in the interests of peace in order to form a new basis for international intercourse. A committee was appointed by the congress to work out these principles.

New and strict laws preventing unfair international commercial competition and granting equal rights and privileges for foreign merchants in the course of all countries, a permanent international civil court for commercial arbitration, and strict rules defining the apportioning of liabilities and risks in trans-oceanic commercial transactions, were some other problems brought under discussion for definite solution within the near future.

Waitresses Lose Illusions As to Honesty of Mankind

LONDON (AP)—The consensus of opinion among the thousands of waitresses who cure for the crowds which attend the British Empire exhibition, is that men are more honest than women. The waitresses do not, however, put the general honesty of the human race on a very high level.

A report on this subject which resulted in a pay-as-you-serve system being instituted in many leading places at Wembley, stated that about one out of every 50 people eating there has succeeded in evading the payment of bills. The waitresses seemingly pass the cash in the crowds.

Now the customers have to pay for the food as it is brought from the kitchen and, as the waitress is held responsible for the amount of the bill, the evasions have been reduced to nil.
