### IDAHO PLAYS W.S.C. TODAY

Mathews' Eleven Is Favored to Win, According to Moscow, Idaho, Dope.

MOSCOW.—With Idaho's chances against her older rival, Washington State college, as bright as the most loyal university man could request, the grizzly forces of the two schools meet on Marston field today before the Vandals homecoming crowd. Last season of Pullman, Idaho succeeded the Cougars, 14 to 6, and a second win would be an achievement unknown to Idaho since the 1923 and 1924 seasons when Idaho took two straight classics, 32-0 and 3-0.

Idaho's chances against the Cougars lie in superior strategy, for in actual poundage the squad of A. A. Exonides, the third Carlisle Indian to handle the football destiny of Washington State, will exceed Idaho an average of 15 pounds to the man.

The Vandal prospects have dimmed somewhat since Gonzaga defeated Washington State, 14 to 12. The Bulldogs held Idaho to a scoreless tie, 0-0, in a 11 first down to her opponents'.

### The Same Old Double Play

The famous Washington double-play combination worked just once in the sixth world series game and here it is. In the fourth inning Wilson, Giant center fielder, singled with one out. Jackson, shortstop, then hit into a double killing. Harris to Peck, to Judge. Peck is seen relaying the ball to first after receiving it from Harris. Wilson is shown sliding vainly to second.

### SEATTLE WINS, HOLDS MARGIN

Club	W.	L.	Pct.
Seattle	104	88	.541
Los Angeles	102	99	.511
San Francisco	102	99	.511
Oakland	102	92	.522
Salt Lake	97	96	.502
Vernon	94	99	.481
Portland	86	102	.457
Sacramento	83	102	.442

By defeating Portland 8 to 4 in a contest featured by hits and excellent playing on the diamond Seattle maintained her two game lead even though both Los Angeles and San Francisco won. The Seraphs, by hitting Vernon 1 to 0, remained tied with the Seals for second place who practically put Oakland out of the race. Oakland is now three games behind the league-leading Indians which is almost an impossible barrier to overcome.

Sacramento and Salt Lake were tied.

### Baseball Hits Youth; Death Proves Result

BAKER, Ore. (Special)—Rodney Barr, 12 years old, son of Mr. and Mrs. W. E. Baird of Halfway, died Wednesday afternoon from concussion of the brain caused by being hit by a baseball while playing with other boys at Richland. He failed to see that the ball had been hit by the bat and the fly caught him on the head. He was up and around for a time but complained later of a headache and a physician was called. He got rapidly worse and died in a few hours.

The boy was popular and his sudden death was a shock to the neighborhood. Funeral services will be held this afternoon at 2 o'clock at Richland. The boy was a grandson of Mrs. Henry Smith of this city and a nephew of Mrs. Hugh Austin, Mrs. A. H. Brown and Frank Haffel.

Winter barley, to stand winter conditions, should, if possible, be sown before October 25. Early October sowing is desired, as shown by results on the Oregon Experiment station farm.

## LIGHT CONTEST RULES GIVEN

In the contest for the \$15,000 home, the school child will not find it difficult to follow the rules in order to win a prize. There are only four things that he or she has to do after they enter the contest. First the lessons in the Home-Fighting Primer must be studied carefully. These lessons give the basis of the contest and teach the contestant the principles of better home lighting.

Continuing his studies in home lighting, the contestant visits the home of two of his friends and investigates the lighting there. He notes the type of room that his neighbors have in each room and marks this down on a chart in the primer.

Next he looks over the lighting in his own home and then marks down the kind of lighting that is installed there. After he does this he prepares what he thinks are the proper fixtures for various rooms and pastes them on the pictures of the rooms contained in the primer.

Now, he does the last and the most important thing. He writes an essay on how his home should be changed to have proper lighting. By this time he has considerable knowledge about proper lighting and his duty is easy.

The work of the contestant will be judged for knowledge of the lessons in the primer, as shown by the essay, knowledge of home lighting as shown by the pasting of the fixtures in the drawings of the rooms, originality of ideas and clarity of the language in the essays, and thoroughness and neatness of work.

### HINTS TO MOTORISTS

There are probably very few drivers that are not aware of the ordinance requiring a speed of not over 12 miles per hour past a school house, yet at the same time, but very few PAY ANY ATTENTION to it. In traveling at a speed of 12 miles an hour, a car with properly adjusted brakes can stop almost instantaneously, while if you might have to do at any time in the vicinity of a school house—ALONZO G. DUNN, La Grande teacher-officer.

## FATALITIES OF HIGHWAY GIVEN

WASHINGTON (Special)—The department of commerce announces that estimates indicate that during the year 1923 highway fatalities in the United States totaled 22,621, or an increase of 2,418 over the previous year.

The 1923 death rate from these highway accidents was 24.4 per 100,000 population as compared with 17.6 in 1922. This increase was largely due to the increase in the number of fatalities from automobile accidents. Even the 16,452 deaths charged against the automobile do not tell the whole story, as deaths resulting from collisions between automobiles and railroad trains and between automobiles and street cars are charged to the heavier vehicle. Two thousand fatalities from such collisions in 1923 is a conservative estimate for the United States. If this figure and the fatalities from motorcycle accidents be added to the figure for automobile accidents, the final 1923 toll from motor machines on highways becomes 18,783, or 32 per cent of all highway fatalities.
