...in well selected words Chairman (Stoddard) presented Mrs. Currey to the gathering and had her good work for the highway. Then he presented Mrs. Gault, Mrs. J. E. Foley, Mrs. Julius Roach, Mrs. Lee Bouvy and the two little children showing four generations of the family. Mrs. Foley donated the park on the Seaside highway which...

COBBY IS ELATED
TALMAY, Ore. (AP)—Chairman H. H. Cobby, of the public safety commission, who initiated the central Oregon railroad building program, was elated when informed today that the program was approved in the examiner's report. He said it is a foregone conclusion that the commission will approve the report.

"Radio is without question the most valuable item of equipment ever taken into the north by an Arctic explorer. It has enabled us to correct our chronometers daily within one-tenth of a second. Without correct time our lands cannot be plotted accurately upon the map." Captain Donald H. MacMillan.

DEDICATION SERVICE OF SIMPLICITY

(Continued from page 1)

...ment which was veiled with the American flag were Mrs. Gault and daughters, Mrs. J. E. Foley and Mrs. Julius Roach, Mrs. Lee Bouvy, daughter of Mrs. Foley and Mrs. Bouvy's little daughter along with the little daughter of Mr. and Mrs. Jerome Foley. Mrs.

...cent address recalling the early days when this country was young and few people were here. He told of personal experience in the Grande Ronde during the period when it was first being peopled. There was not a trace of civilization in his talk for the old gentleman warned his hearers that this Old Oregon Trail is no chance to present modes of travel, but on the other hand it is a mere step in the onward march. His belief is that but a short time will elapse until no highway will be needed and people will travel in the air.

...Walter E. Murcham, president of the Old Oregon Trail association, delivered one of his classic addresses on the program after which he congratulated the people of La Grande county on the completion of their road program. A. W. Nelson presided for a brief period during the lunch and immediately following during which time he enlightened the crowd on matters of some importance relative to Oregon's road program. A resolution of appreciation was passed for U. L. Larson, who acted as master of ceremonies when the highway program was first started in the county.

...County Judge U. G. Cline spoke on the county's side of road building and urged everyone not to quit now that the Old Oregon Trail was completed, for he contended that the country which produces the crops must have the roads built so that the highways will function to best advantage. Rev. Keith pronounced a fitting benediction on the happy event and adjournment took place in ample time for those present to attend the Neighborhood club entertainment yesterday afternoon in the city library.

Paul G. Redington, United States district forester in San Francisco has declared that there would have been practically no fire burned in the California national forests, even during this drought if human care—Advt.

The Star Car

Establishes an Economy Record IN PORTLAND

Making an Average of **37.1** Miles per Gallon of Gas

In a 95-mile Non-stop Economy Run, five 1925 Stock Star Cars, including a sedan, officially observed by judges selected by leading newspapers who make sworn affidavits to the truth of these statements.

37.1 miles to the gallon of gas, in Portland traffic, the most difficult test of a motor's economy.

These stock models achieved this marvelous economy under exacting conditions. And that means economy for you. But, you ask, can I too, get the same mileage in a Star car?

Here is your answer: In a 100-hour Non-stop Economy contest held all over the Pacific Coast, these sworn records of gas economy were made by 1925 Star cars:

Los Angeles	59.88	Sacramento	46.49
Pittsburg	44	Spokane	49
Presno	48.71	Oakland	35.49
San Francisco	42.28	Portland	37.1
Seattle	44.1	Tacoma	36.7
San Diego	46.17	Phoenix	35.43

AND HERE ARE REAL REASONS FOR THIS ECONOMY:

A wonderful, new Continental Red Seal Vibrationless Motor, Ford Feed Lubrication, Ford Clutch, Four-Wheel Brakes, and the marvelous cooling system that allows a car to run 100 hours without a fan belt and not over-heat.

Come in and see these new 1925 models that are astonishing the motor world. Make us prove every statement. Our reputation is behind our word. We want you to know the Star and we make it easy for you to own one.
