Educational Week

Beginning November 17th and lasting until November
17th and lasting until November 23rd is Educational Week
and throughout the United States efforts will be made to
place before the people stronger arguments and more con-
vincing evidence of the benefits of education.

In La Grande this will be done. The city schools are
arranging for proper programs during the week and each
teacher will place before patrons stronger reasons than ever
why the co-operation of the home and the school is es-
sential.

Occasionally there may be a disagreement about the
schools and some may hold the belief that present-day edu-
cation is not making good to the fullest extent, but the
undisputed fact remains that the schools are the founda-
tion of the country along with the home. Upon these two
pillars rest the nation. Upon these two pillars centers the
happiness of the people, and it is with considerable satis-
faction that everyone who has a deep interest in the
schools will take part in Educational Week.

smoking tobacco is injurious. Another timely inquiry
might be started into the effects of smoking campaign
cigars.

Babson Reflects Upon Election and Business

(Continued from page 1)

them a chance to get their shovels
cleaned and work off old stock
preparatory to some real buying.
The manufacturer uses the elec-
tion as an alibi to reduce aver-
age, adjust wages and introduce
some real efficiency in the busi-
ness. Of course, all these things
make business quiet for two or
three months preceding election
day, but they are all helpful. Hence
although business has been pretty
poor in many lines during the sum-
mer and fall, yet little has been
lost and much gained by the home
cleaning and rest period that this
pre-election conservatism has caused.

Business as shown by the
Babson index is today 8 per cent
below normal as compared with
16 per cent below normal a year
ago. Obviously the fundamental
situation is much better than it
was then.

It is interesting to note the
action of the commodity market
in election years. Taking the last
five election years—1904, 1908,
1912, 1916, 1920—we find that the
price level of all commodities ad-
vanced in four years and declined
in one. The decline was shown
during the drastic readjustment
and depression of 1920 and 1921.
Bradstreet's index shows that the
price level reached a low of 7.611
in July 1904. Then there was a
steady climb to a point six months
later of 8.082. In 1907 and 1909
was an exact duplicate of the 1904
movement. 1912 and 1913 was no
exception and four years later, we
again see a similar move—a low
in August 1916 of 11.441, then a
steady rise six months later to

about 14.100. The next election
year, 1920, found prices steadily
downward. So far, 1924 has fol-
lowed exactly the movement noted
in the four years of rising prices.
Both groups of commodities,
industrial and agricultural, sym-
pathized with the trends mentioned
above. The main difference, how-
ever, is noted in the fact that in-
dustrial commodities, as shown by
the Babson Industrial Index, in
1904, 1908, 1912 and 1916 reached
the yearly low point before the
election and held a higher aver-
age into the inauguration year, while
agricultural products in those same
years reached their low after elec-
tion.

All Not Satisfied.

"The results of the election are
not satisfactory to everyone. Many
people who have worked hard are
disappointed with the result. All
of us—whatever our allegiance—
would like to have had some-
thing different. The fact, never-
theless, remains that the election
is over and the alibis and excuses
of election can no longer be given.
Now it is up to the banker to
make loans; up to the merchant
to buy the goods; and up to the
manufacturer to start the wheels of
industry. We should all get
busy and forge ahead. We cannot
expect to get back at once to boom
times. The readjustment process
is not yet complete, but we have
passed the low point and should
steadily work upward. All statis-
tics indicate that business should
pick up for the next few months
at least. America is a great coun-
try and has the opportunity to do
the banking and build up the
commerce of the world. The develop-
ments which have taken place in

Trade Success Feature Of Wembley Exhibition

LONDON (AP)—If the Wembley
exhibition has not been a financial
success to the promoters, it has
been an unqualified success from
the point of view of sales and or-
ders. Many new markets, it is
declared, have been created
through the exposure of goods, and
some Canadian and Australian
manufacturers have sold their out-
puts for the next five years.

Among the big business deals
concluded, the following are re-
ported:

One engineering firm received
orders from five different munici-
palities for an equal number of
electrical generating installations;
a provincial grocer increased his
sales of New Zealand butter by 100
per cent in two months; a Cana-
dian dried milk dealer sold his
output for the next five years to
a British firm; one million boxes
of Canadian fruit were ordered by
European buyers; sales in the In-
dian Pavilion amounted to \$250,000
in three months; the little
colony of Cyprus was overwhelmed
with orders; one French firm
asked for 20,000 dozen boot heels,
and another dealer ordered \$145,000
worth of Cyprus asbestos.

BANK AT NEWPORT FAILS

NEWPORT, Ore.—The Western
State bank was closed by order of
Guy C. Hickok, state bank exam-
iner. No formal statement was
issued as to cause of the failure, but
it was understood to have been the
result of depleted cash reserves,
caused from inability to realize on
credits extended the Oregon Spruce
company, a lumber manufacturing
concern with mills at the mouth of
the Steiger river.

Just what the loss to depositors
will amount to has not been ascer-
tained, but it is believed the bank
will be opened after a rechecking
has been completed.

Offers of \$25,000 have been
made to C. E. Hawkins, president,
who also is president of the Lin-
coln county bank of Toledo, for use
in reorganizing the bank. C. O.
Hawkins is vice-president and in
active charge of the institution.

The Show Place of Champions

The Pacific International Livestock Exposition, orga-
nized but a scant fourteen years ago, is today
the largest general livestock show in America, rival-
ing the National at Chicago in its horse, beef cattle
and swine exhibits and even surpassing in many
respects the National Dairy Show.

Here under one great roof covering 10 acres, world's live-
stock champions and other notable stock come from many
distant states to compete for premiums totaling \$30,000.
This year's show combines:

- Gigantic Livestock Exposition
- Dairy Products Show
- Land Products Show
- Northwest Hay and Grain Show
- Western Winter Poultry Show
- Night Horse Show
- Industrial Exhibits
- Daily Auction of Dairy and Beef Stock

Over 125,000 people attended last year, availing themselves of
the opportunities offered for studying the ways and means of
profitable livestock raising in the West. Why not attend
yourself this year and then talk over the matter of bettering
and increasing your own livestock with us here at the La
Grande National Bank? You will never find us lacking in
encouragement and assistance.
