

Local News In Brief

At Portland—
Mrs. William Bollins, of La Grande, is spending the week in Portland, where she is visiting friends and relatives.

Leave for Portland—
Mr. and Mrs. E. Allen and Mrs. S. L. Klein left this morning, via auto, for Portland, where they expect to spend a week.

Construction Man Here—
E. G. Archibald of Baker is now registered at the Foley hotel. Mr. Archibald is with the A. D. Kern construction company.

Hunting on Reserve—
Walter McDaniels was fined \$25 and costs by Hugh E. Brady, justice of peace, this morning for hunting on a state game reserve.

Back from Portland—
W. B. Bollins, division superintendent of the O.W. R. & N. company, returned from a business trip to Portland this morning.

Magazine Man in City—
A. F. Alexander, manager of Up-to-the-Point magazine of Walla Walla, is in La Grande today looking after the business of his publication. He is an ardent supporter of the Harding Memorial park which is now being agitated for the top of the Blue mountains.

Going East—
Mr. and Mrs. John Speckhart and Mr. and Mrs. Paul E. Knauer and daughter, Lillian, will leave La Grande this evening on No. 19 en route east. Mr. and Mrs. Speckhart will stop at Quincy, Ill., and Mr. and Mrs. Knauer will go on to Chicago and Galena, Ill., where they will visit. They expect to be gone about two months.

Fined for Assault—
One good sock on the nose cost Leon Tiffany of La Grande \$25 to the justice court this morning. On Armistice day young Tiffany had an altercation with a sympathizer with the opposition team which terminated when Leon unloosed a haymaker which drew first blood on his opponent.

Former Chief Here—
Lou Rayburn, former chief of La Grande's police department, arrived in La Grande this morning to take Davis Penwell, escaped convict back to the state penitentiary at Salem. Mr. Rayburn has been employed as guard at the state institution for some years since leaving La Grande.

Public Speaking Class Met—
Last evening in the basement of the Baptist church members of the recent public speaking class met and enjoyed a couple of hours of interesting and profitable discussion and listening to the different speakers who were on the program. K. C. Bellamy was elected chairman for the next three weeks and Prof. Snow was chosen secretary. A list of subjects were drawn from a hat for each speaker next Monday evening when the class meets again at 7:30 o'clock. Some excellent plans have been made for the winter and it promises to be a very interesting organization.

Personal Mention

D. B. McDaniels of Walla Walla is now registered at the Sommer hotel.

Mr. and Mrs. B. Storey of Halley, Idaho, is among the guests registered at the Foley hotel.

Jay H. Dobbins, rancher of Empire, is now registered at the Foley hotel.

F. D. McCully of the McCully Mercantile company of Joseph, is now at the Foley.

Colonel and Mrs. F. S. Ivanhoe returned from Portland this morning.

Mrs. J. A. Train of Joseph was in La Grande this morning on the return trip from a visit to Huntington.

Mrs. W. R. Follett returned to her home in Elgin this morning after spending yesterday in La Grande with her daughter, Violet.

Not Afraid!

It's spreading how to handle them," says J. O. Wallace of Chehalis, Wash. Evidently he knows. Here we see him literally covered with bees that he never gets stung.

CENSUS FUNDS ARE RETURNED

WASHINGTON, D. C. (Special)—In his annual report to the secretary of commerce, made public today, William M. Stewart, Director of Census, describes the census work during the fiscal year ended June 30, 1924. The statistical subjects concerning which data were collected and compiled during that year included, among others, the following: inmates of institutions including prisons and reformatories; births and deaths; marriages and divorces; electrical industries; manufacturing industries; wealth; public debt; and taxation; state and municipal finance; current industrial and business conditions; cotton and cottonseed, and leaf tobacco stocks.

Preparations are being made for a census of agriculture, to be taken in January, 1925. This census, at which will be collected data in regard to acreage of farms and land, acreage and production of principal crops, number and value of domestic animals, etc., will be the first census of agriculture ever taken except in connection with a decennial census of population.

During the fiscal year the Bureau issued 217 printed reports, bulletins, etc., with a total of nearly 17,000 pages and an aggregate of more than 1,000,000 multiple copies and mimeographed press releases, with a total edition of more than 1,500,000, were distributed to the press and to organizations and individuals.

During the fiscal year a number of improvements and economies in the census work were put into effect, and others already in effect were further developed. These included, among others, the bringing about of closer and more effective cooperation between the Bureau and industrial and commercial organizations, manufacturers, and state and local officials; the reorganization and simplification of the tabulation of industrial statistics; greater promptness of publication; and reduction in printing costs. As one result of these economies, the Bureau was able to return to the treasury about \$20,000 and \$30,000 of the amount appropriated to carry on the census work during the fiscal year.

The census statistics in regard to the Bureau's numerous inquiries are published with a minimum of delay, and the preliminary summaries, which are issued in some cases a year or more in advance of the publication of the final reports, now present a greater amount of detail than formerly. The Monthly Survey of Current Business, the publication of which was begun in July, 1921, covers more than 1,000 indexes of commercial and industrial activity and is sent to a mailing list comprising approximately 8,500 subscribers in addition to newspapers, trade associations, representatives of the United States Consular Service, and commercial attaches.

With the view of avoiding delay and duplication of work, the director recommends legislation transferring the collection of data as to quantities of leaf tobacco held by certain classes of manufacturers and dealers from the Bureau of the Census to the Bureau of Internal Revenue.

The census force at the close of the fiscal year 1924 comprised 722 employees. During the past ten years the increase in the census work has been relatively much greater than the increase in the Bureau's force.

Reclassification, although raising the census salaries to some extent, nevertheless did not remove in its entirety the handicap under which the census bureau has always labored as a result of its relatively low salary scale.

Reclassification, although raising the census salaries to some extent, nevertheless did not remove in its entirety the handicap under which the census bureau has always labored as a result of its relatively low salary scale.

COLD SNAP CONTINUES IN THE EAST
(Continued from Page 1.)

Identified man died of exposure. At Hartford, Conn., John Yards was frozen to death. In the late field hills in Connecticut, temperatures of 4 to 10 below zero were reported.

Pittsfield, in western Massachusetts, reported a temperature of two degrees above zero, the mercury dropping 57 degrees in 45 hours. The lowest temperature recorded in Boston during the night was 14 above.

Central Vermont experienced a blizzard which raged throughout the night. Montpelier reported a minimum temperature of zero.

Portland, Me., had a temperature of 12½ degrees early Monday, a fall of 24 degrees since Sunday.

At Springfield the official reading was 10 above zero and temperatures were reported from some outside points down to 7 and 8 above. The demand for denaturated alcohol for automobile radiators reached record proportions and many filling stations ran out of supplies early in the day.

At Providence, R. I., a male of between 50 and 70 miles an hour was reported.

Considerable damage in broken plate glass windows was brought by high winds in Newark, N. J.

Lake Ontario shipping was reported practically at a standstill with a 26-mile gale lashing the lake.

Left to himself, he might not have taken the trouble to climb. His wife provided the ingredient of ambition. She provided also a quality of co-operation such as few people men in any country ever have had.

Not in an uncompromising sense, the congressman is his wife's political creation. Nicholas Longworth is an able man and of charming personality. But indeed as he admits.

1925 OREGON TAX LEVY TO BOOST FUNDS

(Continued from Page 1.)
ated that more money could be raised by taxation for 1925 than was received this year without exceeding the 6 per cent limitation amendment—he would not abandon his proposal to ask the legislature to levy a tax on cigarettes, moving pictures and an additional levy of 1 cent a gallon on gasoline sales in this state.

The governor said the cigarette tax he proposed would raise approximately \$200,000 annually, while the additional cent a gallon tax on gasoline sales would produce in excess of \$1,000,000. No estimate was made by the governor as to the revenue that would be returned to the state through a tax on moving pictures.

Leaves to be fought.
It was reported here today that several legislators who have studied the state's finances not

Airmen Plan Flight To Belt the Pacific

(Continued from Page 1.)
14 days.
Mr. Stead has pledged the aid of the Australian government to the project. The greatest feat, he added, would be the 2,000-mile hop from San Francisco to Honolulu. With this accomplished the flight to Manila could be made in easy stages, with stops at Johnston Island, Java, India, Panama and the Pole group. The third leg would be from Manila to Sandakan, and would then follow the route taken by Sir Ross Smith in his memorable flight from Europe to Australia, along the Australian coast within the barrier reef where calm water always would be encountered. The fourth leg would be from Sydney to Honolulu, by way of Fiji, Phoenix and Palmyra Islands.
