### HI-JACK RUSE REPORTED

ROSEBURG, Ore.—How Roseburg hi-jackers obtained a cargo of liquor by representing themselves to be officers was reported here today. A large shipment was made by automobile into Roseburg, according to the current story, for delivery to a local bootlegger, who accompanied the driver of the liquor car to an isolated spot near the city for transfer.

A companion of the bootlegger was in hiding near by, and as the automobile stopped leaped out flourishing a revolver, and shouting that the men were under arrest. At command of the bootlegger to run, the driver of the car dashed into the nearby brush, while the bootlegger apparently ran in another direction, only to circle back and join his companion. The two climbed into the cargo car and accompanying machine and drove to the Pine Grove schoolhouse, where, it was said, they transferred the liquor and abandoned the borrowed car.

The greyhound can run 35 miles an hour, so if you get one he never should be late for supper.

According to a French-Canadian law, stealing a kiss in Canada is not a crime, but we know that.

CLAUDE C. PRATT

A well known lumber manufacturer advised me two weeks ago that lumber was due for an advance. I took this tip and bought three carloads of rough boards and dimensions. I still have one car left—it is moving fast. If you are going to need any fencing or boards and dimensions for any kind of rough construction you will save from \$5 to \$10 per M. if you buy now.

## USE BOATS TO STORE WHEAT

CHICAGO.—With its elevators full and all ocean tonnage but of Montreal fully engaged up to the close of navigation, the Grain Marketing company is now exerting itself, it was announced today, to have a fleet of vessels full of grain at Lake Erie ports before navigation closes.

Vessels are being engaged daily and filled with grain to hold at Toledo, Erie, Detroit, Buffalo and Fairport, Ohio. It is planned to have fully thirty million bushels of grain thus held in storage on board boats when navigation closes. The object is to get advantage of the cheap lake freight rates for every possible bushel. The wheat being stored in the vessels at Lake Erie ports can be moved by rail to ocean ports during the winter, or can be held until the St. Lawrence route opens in the spring.

"This extraordinary use of boats for storage is an essential part of the program the Grain Marketing company has followed throughout this crop year," says an officer of the company, "channel of forwarding export wheat from western terminals with the utmost possible speed and volume. In this way it contributes influentially to the maintenance of prices by leaving room for the receipt of shipments at secondary markets during the winter."

"This utilization of vessels for storage purposes is only one item of the consistent policy of the Grain Marketing company of utilizing every factor of the merchandising, transportation and storage of grain for the strengthening of the market position. Generally speaking only a cooperative company, primarily interested in serving grain producers, would so steadily exert itself to that end. Certainly no such effort with the motive of benefiting grain producers has ever been put forth before."

Berlin Will Let Down Bars to Mannequins from Paris

BERLIN (AP)—German horse owners would like to engage British jockeys to ride their mounts, but are prevented by a ruling of the English Jockey club, adopted during the war and still operative. Hence the club is to be approached with the suggestion that the rule be relaxed.

British boxers are today given warm welcome in Germany, and British football teams have been well received all over the republic.

Another sign of the healing of the rift of time is found in the announcement that a heavy of Paris mannequins is to come to Berlin to show off the latest French creations in dresses for women.

Oh, gosh! Italy has a singing lightning bug. Oh, well, we have singing radio bugs.

### Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of 26 Forbes St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of endless study, that no one can be free from rheumatism until the accumulated impurities commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allen's, to others who took it, with what might be called marvellous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allen's with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.
