

Season's Chief Record Holders

Three of the outstanding athletic notables of the past season were Sybil Bauer, back-stroke swimmer of Chicago, Jackson Scholz, New York sprinter and Harold Osborne, high-jump star of the Illinois A. C. Recently the A. A. U. officials in annual conference accepted as official marks made by this trio of performers during the 1924 season. Miss Bauer was the pre-eminent swimming star of the year with a total of 15 new A. A. U. records to her credit. She was actually credited with 21 records but the officials accepted only 15. Scholz ran the 200 meters in 29.10 seconds in the final Olympic tryouts last summer. This mark has been accepted as an A. A. U. and a world record. The same is true of Osborne's mark in the high jump. Osborne leaped 6 feet 8 1/4 inches at Urbana, Ill. last May. The A. A. U. lords thought well enough of the evidence presented to accept the record.

BETTER SERVICE FOR INDIANS AIM OF U. S. AGENT

WASHINGTON (AP)—Unprecedented activity and distinct progress in all phases of federal supervision of the affairs of the government's Indian wards were cited in the Board of Indian Commissioners' annual report today, which asked of congress sufficient funds to carry on the intensified Indian service operations. In a review of the settlement of important Indian matters which had been the subject of agitation and controversy for years, the board expressed gratification for the signing by President Coolidge of the Snyder act which conferred United States citizenship upon all non-citizen Indians numbering some 125,000.

BARBERS BECOME RICH GROOMING ENGLISH WOMEN

LONDON (AP)—Conservative people who almost despair of humanity because young ladies and old ladies on having their hair bobbed, now have one more dreadful vision of what this fashion may result in. They predict the loveliness of modern models and instructions will be furnished by politician's neck, that rough and red-dish appearance behind the ears so prominent among politicians, courtiers, golf professionals and business and hitherto largely confined to the gait of the ape.

daughters. The overhead expenses of sporting a shingle, the British term for the more closely cropped bob, are really quite large, while with a daily or every-other-day clip back of the neck, in addition to taking care of the side waves, with frequent trimming, curling and what-not. A rich patron of one of the fashionable hair-dressing establishments may pay annual fees in excess of \$200 to her barber, according to a bond street practitioner of the clipping craft.

It's Christmas Stocking Time

Who ever heard of Christmas without Christmas stockings? Besides making someone very happy with a pair, you'll enjoy selecting them, so exquisite are the new shades and the silk that fashion them. Don't you think the new fad of matching daytime hose to gloves, and evening hose to arms a nice idea? A visit to our Hosiery Dept. will convince you a better gift could not be found.

PHONES FIXED AT THE PARK

Entire Male Population of Community Devotes Time to Repairing of Faulty Line.

THE PARK, Or. (Special)—Hert Van headed the repair work on the telephone line between Medical Springs and Union. The line had been in a bad shape for some time. It is owned by the people along the Union-Medical road and following Catherine (A. K. A. "Hubb") for about 2 1/2 miles. Jack Hunter at the works connects on to the main line with four miles of individual wire. There has never been any definite organization, although it needs it badly. So, ever since the line has been put up, no repair work of any consequence has been performed. This made the line this fall almost a nuisance instead of a benefit. No one seemed to take an interest in repairing it, leaving to the other fellow or let "George do it." George didn't do it so Bert Van rustled out the bunch. Everybody was out, and it took only a few days to put the line in shape so that we can now talk or listen in of pleasure.

Charles Vanderor was helping Bert Van butcher some fine pigs Thursday. Frank Wigglesworth and George MacDowell were also helping Bert Van at his butchering Thursday. Frank is also butchering for himself, having doubled up with Bert, they did the two jobs at once.

Kenneth Vanderor has gone to work for his old boss Bob Waunaker. Kenneth works there all but winter feeding stock. This winter Wigglesworth will be working with him, as the Waunaker herd has increased so that it requires extra help.

A cow and calf came down the mountain to the Hall Ranch the first part of the week. The animal was very poor. Frank Hall has brought a little boy for it and will drive it down to Union Thursday or Friday. Some trappers are located at the old cabin on the Hall Ranch. Whether successful it has not been heard of. It rained all night Wednesday, and the snow is nearly all gone.

URGE BETTER DAIRY SIRES

COVE, (Special)—The Cove Commercial club held a dairy meeting Monday evening. The principal speakers were Dr. W. T. Poy of Hot Lake and J. H. Longmire of the American Drovers' association. The subject discussed was "Better Sires." Monday evening, December 15, the Cove Commercial club will have as its guests members of the faculty board of La Grande. Cove will tell those present what can and what cannot be grown in this fertile valley. Mr. J. E. Conley returned a few days ago from Walla Walla, Washington, where the word of "Franklin" King is to be with her some Great and More. One of the most significant events during her stay there was a play given by the school in which Conley played a leading role. The presence of Mr. and Mrs.
