

MALLORY HATS

At Wedon's Mallory Hats here, because they keep coming too fast. A fresh shipment of ultra-smart Spring Shapes and Colors just unwrapped.

All The New Shapes And Shades In Spring Hats

Westenhaver & Gilbert

While Christmas costs a married man more than a bachelor, it is worth more to a married man.

WALLOWA OUT OF COLD WAVE

WALLOWA, Ore. (Special).—This section of the country has been in the grip of a second attack of the cold wave for the past several days. Following the extreme cold spell of last week, the temperature moderated considerably the last of the week, but on Sunday night again went below zero, and remained so for the greater part of the time, until Friday morning, when the sky was overcast with clouds, and the temperature slightly above the zero mark. Present prospects promise a further rise in the temperature. The ground is yet only covered with a light blanket of snow. Some of the farmers have expressed fears that the hard freezing for so long a time, would prove injurious to the fall wheat, due to the fact that the snow now on the ground, has not prevented the ground from freezing to a depth of ten and twelve inches.

The roads in the hill sections are quite rough at this time, from being cut up by travel when the ground was thawing some each day. The hard freezing has left many deep ruts. The snow is too thin to make very good sliding.

Logging Flourishing.
Ed Bell came from the woods near Maxville the first of the week, to spend Xmas with his folks. He reports logging operations going on well in the woods. The condition of the ground, with the absence of any large amount of snow in the woods, have been very favorable for work of this kind during the past several weeks. Men who have been skidding say they now have a better time for skidding, as with the ground frozen hard, the largest logs are very easily pulled in. John Stein and family of Lost-time spent the latter part of the week visiting with relatives in the Leap section.
Mrs. Kattie Gastin and sons, Roy and Irvin, and George Cusack, spent Christmas at Mrs. Meek's.
8 Inches of Snow.
Reports from the 28th Springs section state that about 8 inches of light dry snow covers the ground at that point. The weather has been very cold there for the past two weeks.
Many of the farmers in the hill sections have been busy during the cold weather in keeping the watering places open for stock, many springs which are piped out to furnish water having frozen up, requiring considerable work in thawing them out.
A fire scare was caused here Wednesday night when a small blaze started in the hospital here. Reports state that the fire resulted from an electric wire. Only one patient was in the hospital at the time, and was safely removed to the residence of Dr. Gregory's, a short distance away from the hospital. The amount of damage caused by the fire has not been known yet.
T. O. Peaslee was in town the first of the week from his home in the north woods. He reports some very cold weather in that section, making the long trip to town a very disagreeable one.
Holiday Business Big.
Practically all the stores here have done a large volume of business for the past couple of weeks. Many extra clerks have been needed for handling the increased business of the holiday season.
T. L. Sherod of Middle Valley has been quite sick for the past several days with an attack of the influenza. He is reported to be considerably improved at this time.
Mrs. E. W. Heskett of Leap has been sick for the past several days.
Archie Couch came home from town the first of the week to spend Christmas.
Home Out for Revenue.
ROME. (AP).—The Roman who is sufficiently well-to-do to employ domestic servants is henceforth to be taxed by the city on his affluence. One male servant costs his employer 50 lire a year; 100 for a second servant and 150 for a third. On female servants the tax is 20 lire for one, and for each additional helper 40 lire.

If he advertises it, he knows it's good!

CLAUDE C. PRATT

Would you be surprised if I should tell you that we expect to sell One Hundred Thousand Dollars' worth of building material next year—at prices never before heard of? Many of our friends have asked us how we can ship lumber so far and sell it so reasonable. This is why—

The principal mill we deal with is very large and extensive. They are the backbone to a city about twice the size of La Grande. They make a specialty of cutting enormous for telegraph poles and also for material. They manufacture millions of feet of the very best building material. But as they get a tremendous price for their specialties they give us a wonderful bargain in building material. We also buy out bankrupt stock. Therefore we sell lots of material on retail market even below the wholesale price. It will mean money dollars in your pocket to keep a close tab on us.

Nats. \$1.50 base, in Arg. 100. Fence Posts, 10 each.
