A DELIGHTFUL APRICOT PRUNE SOUFFLE

Many children and older folks as well, often look askance at any dish containing prunes. But despite the lack of interest they seem to inspire, there is no doubt as to their place in a healthful diet.

The prune is to many unappealing because of its color but it can well be used with other fruits which will tend to make it more appetizing. The apricot with which it blends so well, not only enhances its flavor, but its color and appearance as well. And a souffle of this combination should meet with the hearty approval of all the family.

Place one half pound each of apricots and prunes in cold water. Soak over night and then cook them until soft, in an enameled ware saucepan, which because of its porcelain-like surface, should always be used in cooking acid fruits. Remove the prune pits and mash through an enameled ware colander or strainer. Then mix together, one pound sugar, one quart cold water, three quarters of a cupful of corn starch, one half teaspoonful salt and the juice of one lemon. Cook in an enameled ware double boiler for twenty minutes and then add the apricot—prune mixture and four egg whites beaten stiff. Turn into a well buttered enameled ware baking dish which is so china-like and dainty in appearance that it can be used as a serving dish. Bake in a slow oven for ten minutes. Serve with thin custard, if desired, using just the yolks of the eggs.

What The Future Holds For You As A Registered Nurse

Nursing is one of the most profitable and satisfying professions which any woman can enter.

ATTRACTIVE FEATURES OF THE WORK: The most inspiring part of the work is the privilege of assisting in the wonderful results which are being accomplished by Physicians and Surgeons, and other leaders in the field of research and practical medicine. The nurse's work is the most essential part of all these activities; and so she has a vital interest in every detail connected with them.

INSTITUTIONAL WORK—As Superintendent of a hospital, or a School of Nursing, as head nurse in hospital wards or operating rooms, as supervisor of dispensaries and clinics there are always opportunities for rapid advancement.

EDUCATIONAL WORK—As a Nurse Instructor in schools of Nursing and as an instructor in Red Cross Courses in "Home Care of the Sick," the demand far exceeds the supply.

PUBLIC HEALTH—As visiting, school, child welfare, medical social service and industrial nurse, there are unlimited opportunities for full expression and use of all one's intellectual faculties, executive ability and instinct of service.

PRIVATE DUTY—As a private nurse, the scope of usefulness is boundless. Contact with the individual and the family and her service to them makes her a strong influence in the Public Health of the Community.

GOVERNMENT SERVICE—As an Army, Navy, Federal Public Health, or Red Cross Nurse, a young woman may serve her country in peace and in war at home and abroad.

MISSIONARY WORK—Home Missions in Labrador, Alaska, Mountain Regions of the South, and the Indian Reservations need nurses. Foreign Missions in China, India, the Near East and elsewhere call unceasingly for nurses.

HOME LIFE—As a mother, wife, or sister, a nurse's training lays the best possible preparation for a satisfactory family life.

Training school opens January First. Can accommodate a limited number of student nurses. If interested write Holger M. Larson, Superintendent, Grande Ronde Hospital, La Grande, Ore.
