Fashion Notes

New York — For every designer who gives birth to a new idea there are 50 who secure a design by adoption.

New York — Contrast is the goal in dress at the present both for inner and outer garments.

New York — The newest walking coat is indisputably made to walk in.

New York — The decorations of the short cuffs of the newest gloves consist of perforations in the leather rather than embroideries.

London — Many of the fashionable English women wintering on the Riviera and in Madeira are carrying about with them bay dolls almost as large as the dummy of the ventriloquist.

London — Isn't it a blessing that woman can wear headgear in the house.

mounted by a diadem of black onyx. Two gold tissue ribbons fall from either side to the shoulders.

Paris — "And a border of mother-of-pearl." That does not sound unusual when a bag or a face or some other accessory is alluded to but it is an unusual trimming on an evening frock.

Paris — The Parisienne adopts a style to her own type rather than follow it blindly, and for that reason is one of the best dressed women in the world.

Paris Fashions for Spring Affected by War in China PARIS (AP) — China's civil war has had far-reaching effects in Paris fashion centers.

Far eastern silks, of Chinese color designs and bearing such names as China crepe, crepe Marjunga and Chin-Chin are being extensively used in the creation of delectable models to be launched at Autuil and Longchamps next spring.

Solid colors such as gray, sky-blue or pale green, with wide borders done in heinous, yellow, and soft shades of lavender predominate.

Some carry designs so large that two or three patterns would make a gown for a petite person.

The designs themselves thus far are free from eccentricities and unless some radical change is made between now and spring it seems that the conventional straight line effect will again dominate the coming season.

ISLAND NOT SUBMERGED LISBON, Portugal (AP) — Recent reports that Port Alexander, a small island in the Portuguese colony of Angola, West Africa, had recently sunk in the sea, were denied Wednesday by the minister of the colonies.

An official statement declared that only a sand bank, one hundred meters long, on port Alexander, had been submerged. It was added that there were no casualties, as the submerged portion was not inhabited.

ROOF OF BANK COLLAPSES; EIGHTEEN BELIEVED DEAD

SANTIAGO, Chile (By the Associated Press) — Eighteen persons are believed to have been killed when the roof of the Popular Credit Bank suddenly collapsed Wednesday, burying under it the employees and several clients.

Firemen and police immediately began working to rescue persons imprisoned and recover the bodies of the dead. The bank which was

opened in 1923, was a state pawn-ship created to protect the people against the usurious interest rates charged by private lenders of money.
