NEWS of SOCIETY

A delightful party took place yesterday afternoon at the home of Mrs. J. F. O'Connell when she was hostess to the Monday Bridge club. Beautiful cut flowers were attractively arranged throughout the home, and during the afternoon's play at four tables, Mrs. D. H. Jessie won high score for the club prize and the guest prize went to Mrs. C. H. Scranton.

At an appropriate hour a dainty two course luncheon was served.

'Twill Be a Red Spring

STYLE authorities say this is to be a red spring. This coat is of red kasha cloth, lined with the plaid kasha cloth which also conservatively edges the dress. The coat would be an excellent separate wrap as well as part of the ensemble.

Hints for the Housewife

HOUSEHOLD HELPS

To keep dresses from slipping off hangers, wrap ordinary rubber bands several times around the ends. This successfully holds dresses in place.

If your young toddler insists on following you each time you step outside the door, have a hook placed on the outside of your screen door or the storm door, so it can be latched from the outside, as well as inside, and so keep the adventurous youngster safe.

In preparing cold slaw an excellent substitute for vinegar is the juice from sweet pickles, and the addition of a cup of black walnuts gives it an entirely new flavor and is delicious.

When cooking cereal which must remain in double boiler overnight, turn one cup of cold water over it just before leaving. This will prevent any hard crust forming on top. In the morning the water may be turned off.

When whipping cream is expensive or unavailable, whip the white of an egg into your salad dressing instead of cream. It's delicious.

To freshen stale cake. Dip it for a moment into sweet milk, and re-heat it in a moderate oven; it will be like freshly baked.

For Crisp Pork. Take an old wire toaster and lay across the top of the pan in which beans are to be baked. Slice pork down as far as the rind and lay across wires. The grease cooks out of the pork and drips down into the beans leaving the pork crisp, but not hard.

Crude Airplane Carried Mail In Georgia Back in 1911

SAVANNAH, Ga. (AP).—Claims for Savannah as having inaugurated the aerial mail service 14 years ago have been set forth by Henry Blun, who was postmaster here at that time.

"Aerial route No. 1 with a Curtis plane, one of the progenitors of those now in use, picked up letters at a baseball park and carried them to a wagon less than a mile away," Mr. Blun said.

One flight marked the beginning and the end of the service, the speaker declared. Owing to the shaky construction of the machine, preparations that had been made for Mr. Blun to accompany Beckwith Havens, New York pilot of the plane on the flight, the pilot considering it too much of a risk.

Mr. Blun recalled the machine used as having bamboo supported wings, with the aviator occupying a precarious perch upon a small box with control levers protruding at many angles in front of him.

Weight By Diet-- How To Do It

There are many different ways of achieving the weight one desires. A quick method and desperate one, is the operation. There are ointments and lotions and pills and potions of one kind and another for those who believe in signs. But, after all, there is only one royal road to correct weight and that is by diet. Exercise we omit, for one should exercise on general principle, no matter what one's weight, provided, of course, one is normal and healthy.

This article, by the way, is written for such people only. Those who are over or under weight because of some physical ailment or condition should consult a physician. This is for those who eat not wisely but too well and for those who eat neither wisely nor well enough. And we honestly believe, if you follow some of the simple suggestions given here, you will find a decided and regular improvement in your weight.

There are certain conditions to recognize in achieving a desired weight. One is regularity in eating. Whether you are eating to grow thin or to grow stout, you must observe regular meal-times. You must eat in a peaceful atmosphere and a peaceful frame of mind—or as nearly so as is possible. And you must chew your food thoroughly.

It is a good plan to drink a glass of water before beginning a meal and if you drink tea or coffee to drink it at the end of a meal, sipping it hot. The chief objection to drinking a liquid with a meal is this. Too many people use it to wash down partially chewed food, which increases the work of the digestive organs and decreases the food value.

However, everything in the world depends on your mental attitude so make up your mind that by following a regular plan you will secure the result you desire. Then go ahead and do it.

Clear soups, plenty of green, uncooked vegetables of almost any kind, gluten, bran or toasted bread, lean meat and fruit will constitute the list of approved dishes for those desiring to reduce.

Cream soups, vegetables of all kinds, white bread, hot biscuits, rice with cream and sugar, as well as all other cooked cereals, fat meats and sweets make up the preferred diet list for those who are underweight. However, green salads and fruits should be eaten generously, for in one's ardor to gain, one sometimes overloads the digestive system and clogs up the avenues of elimination.

A good plan to follow is this, if you who desire to reduce find yourself becoming unpleasantly hungry, drink a glass of buttermilk between meals or before going to bed, while rice with cream and sugar, between meals, is just the thing for those trying to add to their weight. Rice is rich in carbohydrates and at the same times easily digested, passing out of the stomach within one hour, under ordinary conditions.

Auto Racers Open Season At Culver City February 22

CHARLOTTE, N. C. (AP).—Preparations for possible smashing of automobile speed records, when the "Knights of the Roaring Boards" return here for the spring 250-mile event, are being made by officials of the local speedway. The race, which will be run Monday, May 11, the day after Confederate Memorial day, will be under the sanction of the American Automobile association and places in it will count for points in deciding the 1925 American championship.

At least five records fell before the driving of Tommy Milton, winner, Earl Cooper, Benny Hill and Peter de Poalo in the inaugural event at the local track last October. In December these records were smashed at the new speedway at Culver City, Calif.

The local track is a bowl-shaped affair and drivers are said not to have to slow down appreciably to take turns. Every foot of the track is banked, including the straight-away.

The 1925 season of the American Automobile association races starts at Culver City, Calif., February 22. The next event will be the race here, to be followed three weeks later by the Indianapolis event.

Safe Fat Reduction

Why be fat? The answer of most fat people is that constant dieting is hard, continual exercise is tiresome and exhaustive—and then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmola Prescription Tablets all these difficulties are overcome. Just a pleasant little tablet after each meal and at bedtime causes fat to vanish. This modern method is easy, entails no dieting or exercising and has the added advantage of cheapness.

Get a box of these tablets and start taking them now. Within a short time you will be getting rid of fat steadily and easily without starvation diet or tiresome exercise. You will be comfortable and able to enjoy the food you like and want. Even after taking off many pounds there will be no flabbiness or wrinkles remaining. You will feel 100 per cent better. All drug stores the world over sell Marmola Prescription Tablets at one dollar for a box, or the Marmola Company, General Motors Building, Detroit, Mich., will gladly send them to you on receipt of the price.—Adv.

Medieval Statue's Value Realized After 600 Years

LINCOLN, Eng. (AP). — For long regarded as of very little value, the statue of Queen Margaret on the side of the south porch of the cathedral here, has now been acclaimed by an authority on architecture as "possibly the finest and most perfect example of medieval portrait sculpture left in Europe."

Search is now being made for the name of the sculptor. After 600 years of exposure only the hands and the lower parts of the draperies are appreciably damaged. A suggestion that the statue should be removed from its present exposed position and placed in a specially prepared niche at the back of the altar screen in the Angel Choir has not been favorably received by the dean and chapter, but it has been enclosed in a wooden case to prevent further damage.

New York's Broadcasting Cheers Northern Labrador

LONDON (AP).—The Moravian mission boat, the 323 ton bark Harmony, the smallest boat on a regular run across the Atlantic, has berthed here on the return from her annual voyage to the mission stations in Labrador.

It took her 18 days to return from Newfoundland, according to her skipper, Captain Jacksons. For the first time for many years, he says, the Esquimau population shows a slight increase. The one wireless set in northern Labrador regularly receives all the New York concerts, but cannot tune in with British stations.
