## 'ROBIN HOOD' IS PRESENTED

Presenting a light opera famous for charming melodies and always popular for its comedy, "Robin Hood" the Brandon Opera company of Portland gave a very pleasant evening's entertainment last night at the Arcade theater. The company will return week after week for two more performances when "The Bohemian Girl" and "The Chocolate Soldier" will be given.

The principal characters in the production were very well taken and had delightful voices, though they were somewhat handicapped by a small stage and a smaller auditorium than ordinarily accustomed to. Theo Pennington, soprano, who appeared as Maid Marian, had a versatile voice of great power. She appeared to best advantage possibly in the choral and group numbers. Harry Pfeil, tenor, played Robin Hood effectively and his solo offerings were very well received.

Delos Jewkes, as Will Scarlet, had a fine bass voice that delighted the audience, and Carl Lundholm, baritone, was also very successful. These two male voices were probably the most effective of the company and they were entered continuously. Miss Jessie Evans was another principal who scored heavily with the crowd with her strong contralto voice necessary for the part of Allan-a-Dale. She sang "O Promise Me" with a great deal of ability and charm and was well repaid with variety applause. Dame Durdles was played by Margaret Jenkinson, her daughter Annabel by Esther Snyder, and Friar Tuck by Chester Bright, all of these being well cast.

The comedy of the opera was supplied in good measure and very effectively by Ed Andrews as the sheriff and Geo. Olson as Sir Guy. They are true comedians, made the most of every situation, and kept the audience in an uproar whenever they occupied the center of action. Friar Tuck was, as usual, a valuable comic asset as well.

Scenic effects were satisfactory and costuming was all that could be expected considering the fact that the company must play a wide variety of scenes with as small a wardrobe as possible. The entire production was good entertainment and theater goes will await the company's return with pleasure.

**DAWES LATE: NOMINATION IS FAILURE**

(Continued from Page 1.)

effort to save the nomination from defeat. Senator Reed of Pennsylvania announced that he would change his vote from yes to nay so that he might present a motion to reconsider the question. That change of the final result technically to 49 for and 41 against confirmation.

As soon as Senator Reed made his motion, opponents of confirmation countered with a motion to lay it on the table and demanded a roll call. That vote, too, resulted in a tie, 49 to 49, but as the vice president, who could have cast the deciding ballot, entered the chamber, Senator Overman of North Carolina, the only Democrat to vote for confirmation, switched his vote.

That decided the issue, making the vote 41 to 49 to lay the Reed motion on the table and irrevocable action under senate rules. The only way the nomination could again come before the senate would be for President Coolidge to resubmit it.

There was no indication Tuesday night what the president's course might be. The White House having declined to comment on the matter. If he decides to resubmit the nomination to the senate at this time or make a new one, he may either leave Senator General Beck in charge of the justice department until the next session of congress or make a recess appointment to fill the cabinet vacancy during that period.

Excepting Senator Reed of Pennsylvania, whose vote was cast for strategic reasons, nine Republicans, the one farmer-labor, Senator Chapman, and all the Democrats present except Senator Overman, voted against confirmation.

The Republicans were Borah of Idaho, Brookhart of Iowa, Cappers of Michigan, Frazier and Ladd of North Dakota, Johnson of California, McMaster and Norbeck of South Dakota and Norris of Nebraska.

**Restore Health by Gland Treatment Says Science**

According to a recent newspaper dispatch, the vigors of youth have been returned to men of mature age, through the beneficial results received from glandular treatment. This remarkable scientific work has been accomplished by the head physician and surgeon of one of California's State Institutions.

The object of glandular treatment is to wake up the defunct glands so they may continue their normal function of supplying the vital glandular secretions so necessary to physical energy and perfect health.

Glandogen, the new scientific gland tonic, which is prepared in convenient tablet form, for men and for women, provides a simple method of taking glandular treatment. Accept no substitutes. Insist on genuine Glandogen, the original gland tonic.

Red Cross Drug Co. will supply you—Adv.

## RETURNS FROM WINTER STUDY

Doctor Harry Bouvy who has been spending the winter in the Mayo Brothers clinic at Rochester, Minn., returned to La Grande yesterday morning. Dr. Bouvy was accompanied on the trip by Mrs. Bouvy.

Dr. Bouvy stated this morning that remarkable advances had been made in the treatment of the eye, ear, nose and throat, the department of medical science in which he specializes, during the past few months.

The Mayo Brothers clinic maintains a research laboratory and a staff devoted to research work known the world over as one of the most advanced in their profession.

Dr. Bouvy's winter study was spent in this institution and many of the most recent methods of treatment developed there will be used by him in his work.

opportunity presented by an inauguration.

For while an "official" inaugural ball—which would have been held in some commodious public building—was banned by the president, an "unofficial" charity ball was arranged for the main ball room of the Mayflower Hotel.

As a result of which, news stories and special articles, like this, have done more to fix the Mayflower in the public mind, as a modern up-to-date Washington hotel instead of an antiquated sailing vessel, than could have been accomplished in a year by a costly campaign of paid advertising.

seems on the surface.

It may mark the beginning of a decline in social circles of the prestige assumed by those who never forget to let the world know that their ancestors "came over on the Mayflower."

To the downer who hereafter announces her Mayflower descent, the frivolous flapper of today may make the fitting reply that she never danced in the Mayflower when Cal took the oath.

In another way, too, the Mayflower marks a step ahead in the capital's evolution. It gives to downtown Washington a history that is essentially metropolitan in its aspect.

The building is an enormous pile, occupying almost an entire city block.

It offers not only all the "conveniences" but all the "frills," including even the wife of a former Truman cabinet official as "housewife," to give it an atmosphere of distinction and class to its two rooms.
