### Fashion Notes

**THE VOGUE OF STRIPES.**  
The newest and the smartest hand knitted sweaters are very much simpler than those of last season. They are quite as colorful and with certain individual details such as a distinctive neckline, a becoming scarf collar, or a novel arrangement of stripes, in candy stick or the graduated Roman shades. Frequently a close fitting hat and a scarf repeat the striped design and form a sport set as smart as it is distinctive. Most of the hand knitted sweater outfits being shown can be reproduced by anyone with even a rudimentary knowledge of knitting for the stitches are the simplest and the designs, if any, not intricate.

# IS THERE A DIFFERENCE?

Is there a difference in tires? Is one make of tires as good as another and price the main consideration. We contend that there is a big difference and the EXTRA three or four thousand miles that Goodyear Tires consistently deliver is the result of several features found only in Goodyear Tires and the use of a quality of raw materials far superior to that commonly used.
