Moss, divorced husband of Mrs. Moss, a few hours after Mrs. Moss had been shot and killed in the apartment which she and McCoy occupied as "Mr. and Mrs. N. Shields."

Spring floods are with us. Caused perhaps by the wild waters rushing to sea the new bathing suits.

SAFE FAT REDUCTION

Why be fat? The answer of most fat people is that constant dieting is hard, continual exercise is tiresome—and then, too, it might be harmful to force the weight down. That was the old-fashioned idea. Today in Marmosa Prescription Tablets all these difficulties are overcome. Just a pleasant little tablet after each meal and at bedtime causes fat to vanish. This modern method is easy, entails no dieting or exercising and has the added advantage of cheapness.

Get a box of these tablets and start taking them now. Within a short time you will be getting rid of fat steadily and easily without starvation diet or tiresome exercise. You will be comfortable and able to enjoy the food you like and want. Even there will be no dizziness or wrinkles remaining. You will feel 100 per cent better. All drug stores the world over sell Marmosa Prescription Tablets at one dollar for a box, or the Marmosa Company, General Motors Building, Detroit, Mich., will gladly send them to you on receipt of price.

COAL ONCE WAS KING IN ALASKAN GOLD CAMP

SOME, Alaska (AP) — In the early days of Nome coal was more precious than the yellow metal mined from the mountain streams and on the Bering Sea beach. The only places of business that had enough coal were saloons. An old-timer prospector made a coat with a sack inside. Each evening he would go to the North Star "Palace" and sit down by the coal box. When no one was looking he would place a lump of coal in his sack, go to the bar for a drink, and return to his cabin. He did this until the proprietor, Pat Cleary, noticed his coal supply dwindling. One night the prospector stayed too long and filled his sack too heavily so that when he tried to rise the weight dragged him down. Cleary pounced on him, made him discharge the coal and drove him outdoors. Laughing heartily the saloon-keeper called out: "Everybody step up, the drinks are on me. It's the first time anybody ever mined coal in Pat Cleary's camp."

(Continued from Page 1.) The Wilson shipping bill, which kept the Senate in session day and night for a full two weeks with members sleeping on cots in the corridors and anterooms, was a Republican filibuster. So was the most famous one-man filibuster, when Senator Burton held the floor for more than 40 hours to defeat a Democratic river and harbor bill. Senator La Follette, as a Republican, was one of the G. O. P.'s price filibusterers. A much more probable solution to the problem proffered into the senate by Dawes is the propo-

Buick WHY THERE ARE MORE THAN A MILLION Buick Torque Tube Drive

The fine engineering in Buick motor cars is demonstrated by the torque tube drive. This is a steel tube which transmits the drive from the rear wheels instead of adding this important duty to the burden of the rear springs. The torque tube also encloses and protects the propeller shaft. This type of construction also holds the rear wheels in alignment regardless of road conditions.
