BRAVES SEEM BETTER TEAM

ST. PETERSBURG, Fla. (By the Associated Press)—Dave Bancroft, starting his second year as pilot of the Boston Braves, believes he was a stronger, faster team than he had at any time in 1924. With virtually a new line-up, he has led the Braves to victory over the strongest teams in either major league.

terially to our 1923 strength. Besides Shea speed. "These new boys of mine are fast, they can field and they look and act as though they could hit. ... I am satisfied with my outfield. Dave Harris, a kid we secured from Greenboro, N. C. forced his way right into my regular outfield with his hitting and his fine general play. ..."

PALUZO TO MEET TERRIS NEW YORK (By the Associated Press)—Low Paluzo of Salt Lake just a little too heavy for the featherweight ranks, will meet Sid Terris of New York considered one of the east's leading lightweights, in a 12-round bout in New York next Wednesday. Paluzo was eliminated from the recent tournament by Jose Lombardo of Panama.

Boxing followers felt that Paluzo was too big a man to attempt to gain a championship among the featherweights. In the lightweight division there is every indication that he will improve and his bout with Terris will go far toward determining his future in the ring.

RETURNS FROM TRIP TO EAST

HOT LAKE (Special)—Dr. McCarthy who has recently returned to the Hot Lake staff from a long stay in eastern medical centers addressed the patients and staff at the Hot Lake sanatorium last evening, telling many interesting things about his trip. Dr. McCarthy spoke of his visit to the Mayo clinic in Rochester, Minn., and of the experimental work that is being done there. While he was in Rochester a number of experiments were made with focal infections which proved that infected teeth, tonsils and other infected parts were often the cause of some particular illness, such as the so-called rheumatism. Germs from focal infections, such as infected tonsils and teeth were given animals, and it was found that some form of illness developed, which was similar to that which doctors have long thought was caused by some infected point.

While in the east, Dr. McCarthy visited a large number of clinics in Boston, Baltimore, Philadelphia, and other medical centers. It was clear from his talk that he had come back to the staff full of new ideas. Dr. Phyl gave a short talk in which he explained how the tendency toward specializing in one line in the medical profession was making it necessary for an institution to always keep in touch with the experimental work being done in the large health centers by actually having a representative visit these centers and secure first hand information.

A number of musical selections greatly added to the evening's program. Mrs. Helen Sterns of Union sang a solo and also gave a piano solo. Charlie Brotherton sang a solo, as did Lou Bieder. The entire assembly sang a number of old time songs in closing.
