Fishermen Turn Aside To Kneel in Prayer

LE HAVRE, (AP)—Every year, before the Havre fishermen sail off in their boats to the distant Newfoundland banks, they gather together at Havre to celebrate the feast of their patron saint, St. Peter. This year the presence of the Archbishop of Rouen lent unusual interest to the ceremony. The whole town turned out, and the church of St. Etienne was covered with flags and bunting and flittered with lights. The sailors filed reverently up the aisles, accompanied by their women folk, and the Normandy altar, sang hymns and prayed for those who go down to the sea in ships. As part of the ceremony a bluff old master seaman, who had weathered many a storm, came to the rail of the choir and made an address in the rough, poetic language of the seafarers, to which the archbishop replied.

New Dry Law to Safeguard National Election in Philippines

MANILA (AP)—The legal machinery has been set in motion for the enforcement of the new prohibition law regarding the sale of intoxicating liquors during the national elections next June. The law, as amended by the last session of the legislature, prohibits the sale and dispensing of intoxicating liquors during the two days on which electors register, during the two days prior to and on election day and during the entire time consumed in canvassing the votes. The old law prohibited the sale of liquor only on the two registration days, the even of election, on election day and during the counting of the votes. At the elections in June there will be chosen members of the house of representatives, one-half the membership of the senate, governors and other officials of the various provinces of the Philippine Islands.

RELIEVED OF KIDNEY TROUBLE AFTER TAKING ALVITA

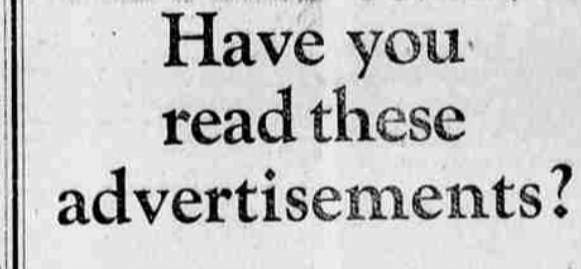

Mrs. Jennie F. Benson, 1034 E. Alder street, Portland, Ore., who had suffered for years from severe kidney trouble and inflammation of the bladder, gives thanks to Alvita Tablets for her recovery. "I have had a lot of trouble for years with inflammation of the bladder, but since taking Alvita I have not had any sign of it. My kidneys have always given me trouble every winter during the wet weather, but this year I have not had any bad spells and very little trouble of any kind that way. My stomach has been one of my main troubles all my life, but I can eat almost anything I want now and it never distresses me since I am using Alvita Tablets. They are certainly a wonderful remedy." Alvita Tablets are scientifically prepared from the wonderful alfalfa plant, which through its long root absorbs the vital elements—lime, iron and phosphorus—naturally to health and vigor. Alvita has proved especially beneficial in building up weakened, run-down conditions, and in overcoming kidney, bladder and prostate trouble. No matter what you have tried, try this remedy of Nature now. A dollar buys a box at any drug store. Red Cross Drug Store will supply you. Mail orders accepted.—Adv.

Forces Combine to Fight Evil of Child Marriages

NEW YORK (AP)—There is need for important reforms in the marriage laws and their administration either or both in practical effect in the United States according to a 106-page report on "Child Marriages" issued here today by the Russell Sage Foundation, as the result of a several years' investigation extending into six cities in practically every section of the country. The report, which was prepared by Mary E. Richmond, under whose direction the study was conducted, with the collaboration of Prof. S. Hall, takes the position that at this stage reforms must be effected state by state. It calls upon associations of parents, women's organizations, school authorities, ministerial associations, social workers, legislators and others interested in the problem of child marriage, to undertake the following ten steps toward a solution of this problem: 1. Work toward a reasonable and enforceable minimum marriageable age law; the minimum for girls should be at least 14; in many states it is still 12. 2. Procure in states which now are without it a law requiring five days' advance notice of intention to marry; such a law is now in operation in eight states. 3. Put the marriage market town out of business; there are at least 40 notorious Gretna Greens where the exploitation and commercialization of marriage are responsible for numerous child marriages. 4. Through cooperation with adjoining states discourage hasty marriages across the state border; where out-of-town marriages are railroaded through either at the license office or the justice of the peace office, or both. 5. Know the work of your license issuers, so that the difficulties with which they are now contending single-handed may be brought to light, and that they may be encouraged to use the discretion which the laws of many states now empower them to exercise. 6. Destroy the fee system; in so far as the system of fees in lieu of salaries to license issuers survives, it interferes with the disinterested character of their services. 7. Strengthen requirements as to proof of age of applicants for marriage licenses; at present no proof of age is required in most marriage license offices and the practice of accepting affidavits tends to falsify them by applicants and sometimes by their parents making possible the marriage of children 11, 12, 13 and 14 years of age. 8. Substitute better evidence of age for affidavits; no other form of evidence is so unmanufacturable as birth and baptismal certificates, to other forms of documentary evidence of age are so common in the report. 9. Require both applicants for a marriage license to appear in person before the license issuer. 10. Harrogate the different state laws in which a minimum age is required; the minimum marriageable age should not be lower than the minimum working age, and the compulsory school attendance age should fit into both these others. Adoption of such reforms, says the report, would act as a check upon those parents who are willing to marry off their boys and girls while they are still children. What is more important, they would protect other parents who at present never know when some degrading person or impulse of the moment may spirit away the immature girl or boy from the home and make the child the victim of an administrative system which is without proper safeguards.

According to the new law, the closed season for setting out brush and slashing, from August 15 to October 1, is now necessary to obtain permits for any kind of a fire in the forest area. The old law provided for the granting of permits only for slashing fires. BERLIN (AP)—This year's ball of Berlin's women artists marked an important departure from a tradition of 30 years. While formerly it was a festive occasion for women only, the mere male was this year not only invited, but fairly wooed. When the women artists of the German capital started out in 1895 to arrange an annual costume party, they hit upon the novel idea of limiting it to members of the fair sex. This meant that all women with title, graceful figure

Storms Conspire to Keep Old Ship Afloat

LIVERPOOL (AP)—It has often been said that ships sometimes appear almost human, and this has been illustrated off the British coast during the last six months. Repeated efforts have been made to clear the iron bark Hippen from her native land to a foreign port where she was to be broken up as junk, but all in vain, for she still rides English waters. The Hippen, formerly the Angerona, of Liverpool, left Povey for Genoa last summer, but a few days out encountered a storm and put into Paimouth with much damage done to her sails and rigging. The repairs required some time and early this year she started out again, supposedly on her last voyage, but was driven back by stiff winds two days later. A third attempt to steer the bark to Genoa was made in February, but this proved no more successful, heavy seas being met which pounded the sides of the vessel to such an extent that the captain returned to Paimouth where she is still at anchor awaiting favorable weather. For the last 20 years the Hippen has been under the Norwegian flag. She was built at Whitehaven 51 years ago.

dressed as men and as such became the dancing partners for the others. The ball enjoyed great popularity among the suffragettes, who pointed out that women were not permitted to wear modestly until some male dancer asked them to have a turn on the floor, but anybody in female attire could undoubtedly ask anybody in male garb to dance. But when the ball was revived for the first time after the war, a year ago, it was found that the modern woman no longer cares to come to a ball of spinsters. Therefore it was decided to invite men this year.
