Hats for Every Occasion

If a woman is to be really in style, and it is a store's privilege to convince her of that state, she cannot buy only one hat expecting it to last her the whole season. Instead she must choose a snug, close-fitting hat for her man-tailored costumes, a flower or feather trimmed piece of millinery to accompany her ensembles and a dressy, oftentimes quite large, chapeau to wear with her more formal silk or wool wrap.

New King of Bantams

Introducing Charley (Phil) Rosenberg, the new bantamweight king. Charley acquired the title the other night by decisively defeating Eddie "Cannonball" Martin over the 15-round route at Madison Square Garden, New York. Figured as more or less of an outsider, Rosenberg tore into the chap who had been termed "the second Terry McGovern," and left no doubt as to the winner. Even Martin's staunch admirers were forced to admit their man had been thoroughly whipped. Rosenberg is the seventh pugilist to hold the bantam crown since the termination of the World War. Whether Rosenberg can cling to the laurels for more than a limited span remains to be seen. He is shown here with his spirit of victory and in ring attire.

Paavo Nurmi Makes 34 Of Total 115 Records

NEW YORK (AP)—One hundred and fifteen world records have been made to date in the indoor track and field season, which virtually closed last Saturday night. Of this amazing total, 34 marks still stand, the others being superseded.

Paavo Nurmi of Finland leads with 34 records of which 15 still stand, to his credit. Most of the other 15 he himself has broken in subsequent meets through the east.

Spurred by Nurmi's unprecedented feats, America's track stars have contributed their best to make this the greatest indoor season in the history of the sport.

To Willie Ritola goes the honor of second place in the record total. He has broken 13 records since the first of the year, but has seen most of his performances fall before Nurmi.

Ugo Frigerio of Italy, Olympic walking champion, has made 15 marks. Nine were made Saturday night when he defeated William Plant, his American rival, in the 10,000-meter walking contest. Plant, with three defeats over Frigerio to his credit, has made six records and has held four of them.

Alan Helfrich, the Penn State runner, has proved a sensation during the season. He has broken 13 marks and being only one year old, Lloyd Hahn of the Boston Athletic association has lowered Nurmi's time for 1500 meters and three-quarters of a mile and still holds these marks. Harold Osborne, high jumper, has broken his own record three times.

Offer Prize to Medium Who Stands Acid Test

BOSTON (AP)—The sum of \$5,000 is awaiting the medium who, under certain conditions, will demonstrate supernatural material phenomena; the occurrence must be bona fide and due to a force not previously known to science. The announcement will appear in the April number of the Journal of Abnormal and Social Psychology, which lists as follows the members of a committee to carry out the investigations:

Harlow Shapiro Paine, professor of practical astronomy at Harvard university and director of the Harvard Observatory; Theodore Lyman, professor of physics at Harvard and director of the Jefferson Physical Laboratory; Dr. Walter B. Cannon, professor of physiology at the Harvard Medical School; Dr. L. T. Troland, assistant professor of psychology at Harvard; and Henry Henshaw.

The journal stipulates various conditions, among which are the following. The medium must cooperate with the committee; there shall be no trickery; the phenomena must be visible, produced in full light and subjected to instrumental recording, measuring and testing; any medium wishing to compete must present evidence of the production of phenomena worthy of investigation, and the award must be made by the unanimous vote of the committee.

The Journal takes this step with the hope of stimulating the search for truth and bringing alleged supernatural phenomena within the domain of scientific research.
