children have returned to La Grande after a motor trip to Portland, where they attended the wedding of Miss Helen Levoff there last Sunday evening.

**Visiting Here**—Mrs. L. W. Goodin is visiting in La Grande from Copperfield at the B. A. Benham home. Mrs. Goodin formerly resided in La Grande and has many friends here.

**Here Yesterday**—Ed Itand, former sheriff of Baker county, now deputy state fire warden, under Will Moore, state insurance commissioner, was here yesterday investigating a number of fires.

**Returned Home**—Mrs. Frank Ott returned to her home at Summerville yesterday after visiting a few days with relatives here. Mrs. Ott is a pioneer of this county and has many friends here.

**Here From Washington, D. C.**—Robert H. Coker, formerly pastor of the local Christian church, but now of Washington, D. C., is spending a few days in La Grande renewing old acquaintances.

**Going to Boise**—Mrs. E. H. Braun and daughter, Marguerite, left La Grande this morning on No. 24 enroute to Boise, Idaho, where they will visit Mrs. Anna Braun, who is ill there.

**Arrived This Morning**—Mrs. Dwight Kloster and small son, Bobby, arrived in La Grande this morning from Portland and will visit here at the home of her parents, Mr. and Mrs. W. P. Mohr. Mr. Kloster will probably join them here later.

**Returning Home**—Mrs. G. H. Nuxoll returned to her home at Joseph this morning after spending the past week with her daughter at Baker, who is in the hospital at that place. She had very much improved when Mrs. Nuxoll left.

**To Check Up on Dogs**—The chief of police announced this morning that the dog catcher would be put to work again, beginning April 10th. It appears that several unlicensed canines eluded the officer during the past month and this time a general clean-up will be attempted.

**Motored to Pendleton**—E. G. Bickmore motored to Pendleton today. He will return to La Grande this evening, accompanied by his wife, who will spend a week here. Mrs. Bickmore is a school teacher at Walla Walla, Wash.

**Skating Rink Draws Crowd**—Last night, the skating rink since the skating rink in the Rex hall opened, found a large crowd in attendance—both on the floor and in the balcony. Roller skating, an innovation here to some extent, seems to have quite a few devotees if the number of skaters on wheels nightly can be taken as any indication.

**Former Pastor Will Preach**—Rev. H. H. Coker, who was pastor of the local Christian church some four years ago and who is now visiting in the city, will preach at the morning preaching service of the church tomorrow. Since Mr. Coker's resignation of the pastorate four years ago, he has been in Washington, D. C., in work of the government. His many friends will appreciate this opportunity of hearing him in the pulpit again.

## Land Office Removal Order Given Criticism

(Continued from Page One.)  
 for the benefit of settlers, it is false economy on the part of the government to abolish a service that will entail an added expense to the settler to get the benefit of that service at some other point.  
 "It would seem that this particular land district is unfortunate in not having a resident congressman."  
 The Enterprise Record-Chief-land says:  
 "A resolution asking that the government land office be retained at La Grande and not closed the last of this month was passed by the Enterprise Chamber of Commerce Tuesday night. This was suggested by the La Grande member of commerce in a communication which raised the point that removal of the office to The Dalles would be inconvenient to homesteaders, lumber companies and others having business at the land office. A. C. Miller said he believed many titles were not cleared up and the removal of the office would be unfortunate to settlers and others and the resolution was passed without argument."

## FARMER FACES GOOD OUTLOOK

(Continued from Page One.)  
 stay on the farms this spring.  
 "Return strength in livestock prices is the most impressive fact of the general situation," it declared. "Except for the cattle industry, where the number on feed has in two years tended to obscure the liquidation in actual breeding stock, agriculture has obviously emptied its surpluses of the major crops and animals. Over the country as a whole reports indicate that farmers have not gone into action so hopefully in five years."  
 Farmers warned.  
 Reviewing its recent intentions-to-plant report, which indicated that the farmers contemplated increased acreage of important crops the bureau repeated its warning that "it seems doubtful if the general expansion of production contemplated by farmers would be to their best interests."  
 "The indicated purchasing power of the important crops tended higher in February," the report stated. The key livestock products practically stood still, except in the case of eggs and butter, which lost ground. The rapid advance of grain prices through the winter left certain livestock products in a relatively weak position as to purchasing power. This has been especially true of dairy and poultry products, having reached a point such as discouraged production of the latter."

## BROWN SPEAKS AT C. E. RALLY

(Continued from Page One.)  
 church for the remainder of the program. Mr. Brown was the main speaker of the evening. He was sent here by the International convention committee to advertise the convention. He told of his trip on Wednesday of this week to the Wallawa valley and stated that about 1200 people from different parts of Wallawa county and visitors from Baker and La Grande attended the rally held at Lostine.  
 In speaking of the International convention and the interest which Portland is giving it, Mr. Brown stated that he had attended almost every international convention since 1897 and that Portland had the best organized committee and was showing more interest in it than any other committee he had seen at work. He stated that in talking with E. B. Gates, general secretary of the United Society of C. E., Mr. Gates stated, "This bunch is the best ever assembled" and that they were always asking, "What more, Mr. Gates, can we do to make this a success."  
 Mr. Brown stressed the fact that the people of Oregon had invited the people of the world to attend this convention in Portland, and had let Portland do the work. He said that the least that Endeavorers of Oregon could do was to register and pay the two dollars registration fee, which goes to help meet the expenses of the convention. He stated that the state of Washington has twice as many paid registrations for the convention as the state of Oregon, including Portland.  
 At the close of Mr. Brown's talk registration cards were passed out and a few more registrations were made.  
 Immediately after the program last evening Mr. Brown left for Portland.

## RECALL IS DEMANDED BY GRANGE

(Continued from Page One.)  
 for said district, for the following reasons and upon the following grounds:  
 "That he is unfaithful to his trust as such state senator and does not properly represent the people of said district in said office."  
 "That during the session of the legislature of the state of Oregon for the year 1925, the said Brock Dennis voted for and supported Senate Joint Resolution No. 3, submitting a Constitutional Amendment to the people to prohibit the enactment of any law (1) 1919, assessing income and inheritance taxes, thus throwing the entire burden of such taxes on the property of the state and increasing the burden of the people; that he supported and voted for the abolition of the Voters' Pamphlet, thus denying to the people the right to get before the voters properly such measures and candidates as they saw fit to offer, without great expense; that he supported and voted for House Bills 35 and 42 to establish a convention system of nomination of candidates, regardless of the wishes of the people and electors of his district, tending to destroy the primary election laws and re-establish the only convention system, and notwithstanding the excessive tax burdens, voted for and supported numerous salary increases of officials who had been elected to office upon a less salary."

## "Mellon" Tax Plan to Be Dressed Up, Used

(Continued from Page One.)  
 under a congressional patronage.  
 The mark at which the tax reductionists are setting their sights is a maximum surtax rate of 25 per cent.  
 The present law established surtaxes running to 40 per cent on incomes over \$500,000, as against 50 per cent on incomes over \$200,000, previously assessed.  
 The proposed reduction on the tax on large incomes, therefore, would be considerably sharper than that granted by the last congress, being a cut of approximately 40 per cent of the present rate.  
 William R. Green, of Iowa, chairman of the house committee, who opposed the Mellon rates in the last Congress, has now been won over to the 25 per cent maximum.  
 A campaign in favor of reduction of surtax rates to this figure for mental capacity and physical is to be carried on this summer.

This will be done under the guise of missionary work for "tax reform" rather than as a straight campaign for reduced surtaxes.  
 Every effort will be made, when congress reassembles, to get quick action on this issue of reduced surtaxes.  
 This will be urged as desirable in order that the new rates may be made effective before the next assessment is due.  
 A further reason will be that action on the revenue measure is desired before developments that may reasonably be expected during the session have aroused animosities that might endanger its chances of passage.  
 Once the revenue bill, with its cut in the tax on big incomes, is out of the way, a deadlocked congress won't much matter. For that is the dominating issue on the administration slate.  
**Caving of Earth's Crust Is Mysterious**  
 BROOKHAVEN, Miss. (By the Associated Press).—Thousands of curiosity seekers are visiting the vicinity of Union Church, a village west of here, where for an undivided reason the earth is cracking and sinking in an area a quarter of a mile long and about 40 feet wide. Some of the cracks were described as "bottomless" while parts of the strip have sunk from one to 15 feet. The dropping of the earth continues at an estimated rate of a foot a day.  
 One theory is that hundreds of years ago aborigines inhabiting the country dug large underground chambers, beneath the hills, the entrances subsequently being filled and the earth only now caving in. Another is that an explosion heard some time ago was due to the bursting through the earth's crust of entombed gas, starting the movement of the soil now in progress.

## DOCTOR TO TEST THEORY.

CHICAGO (AP)—Dr. William H. Sheldon, University of Chicago psychologist, will undertake to answer the question whether a man with long legs and red hair has more brains than a short-legged blonde man. Professor Naccorati, of Columbus university advanced the theory that, as a rule, long-legged men had the greatest brain capacity, and scientific trends tend to support the theory. Doctor Sheldon said Thursday. He will measure 400 men at the University of Chicago as "anthropological indexes," who also will be graded for mental capacity and physical is to be carried on this summer.
