

NEWS of SOCIETY

In accordance with the Lenten season Mrs. E. P. Mossman gave an excellent talk Friday afternoon at the regular meeting of the Parents-Teachers Association of Willow School. Her talk was illustrated by stereoscopic slides of the last week of the life of Christ.

It's a Bandoleer Necklace

The Bible study class will meet tomorrow afternoon at 2:30 o'clock in the Neighborhood Club rooms. Continuing the study of the life of Christ the subjects will be "The Presentation in the Temple," "The Flight into Egypt," and "The First Passover." The corresponding study will deal with the spiritual significance of Egypt in the Bible. The reading of "Conquest of Fear" will be continued.

Mrs. O. W. Gobleman entertained Saturday evening at the home of Mrs. Ludena Terry. Four tables of cards were in play with Miss Mildred Standby and B. M. Durland winning high scores for the first prize and the consolation prizes going to Mrs. E. M. Durland and Guy Glenn.

The Young Women's Educational Auxiliary met on last Saturday evening in the basement of the Methodist church for its regular monthly meeting and program. The business meeting of the Auxiliary was mainly taken up with plans for the concert to be given the 11th of April, with Victor DePinto and Miss Marguerite Carney as soloists.

THE new bandoleer necklace is being introduced in New York by Constance Delaney, one of this season's most popular debutantes and Junior League. It is worn in the over-the-shoulder and under-the-arm fashion that originated back in Diorectory days, and is decidedly new in this country.

terian Ladies Aid will meet for a social afternoon. The membership contest will end on this day and the losing side will banquet the winners. The winning side will furnish the program for the afternoon. All members are urged to be present.

The B. B. C. Club will meet tomorrow evening at the home of Mrs. William Helvey, 1464 O Avenue.

Hints for the Housewife

MENUS FOR A FAMILY

Breakfast—Baked apples, cereal, thin cream, crisp broiled bacon, toast, pancakes, maple syrup, milk, coffee.

Luncheon—Dutch potato soup, croquettes, cottage cheese sandwiches, French pancakes, milk, tea.

Dinner—Lamb stew, boiled macaroni, piquant cabbage, orange and water cress salad, floating island, whole wheat bread, milk, coffee.

The cabbage should be served without the dressing to children under school age. Careful cooking and extremely fine slicing are imperative when this vegetable is served to children of four or five years of age.

Well cooked macaroni seasoned with salt and pepper, plenty of butter and a generous sprinkling of grated cheese can be served in place of potatoes with good effect at this time of year.

Dutch Potato Soup Two tablespoons butter, 1 large onion, 3 medium sized potatoes, 1 cup diced celery, 2 cups water, 2 cups milk, 2 eggs, 1 teaspoon salt, pepper.

Melt butter in sauce pan, add onion cut in thin slices and simmer for five minutes. Add potatoes pared and cut in slices, celery and water. Cook until potatoes are soft and the slices are broken. The water will be reduced about one-half. Seal milk and add to potatoes with salt and pepper. Bring to the boiling point and add the eggs, stirring vigorously. Reheat but do not let boil after adding eggs. The eggs can be broken into a bowl and very slightly beaten with a fork before stirring into the hot soup but this is not the "Dutch" method.

Serve at once.

Predatory Animals Killed

MEDFORD, Ore. — During the month of March Jackson county expended \$14 for hunting coyotes, minks, as 86 coyotes, 51 wildcats and one wolf, gave up the ghost. Since the first of the year 310 coyotes, 297 wildcats and two wolves have been killed.

Radio Chats

(By Powell Crossley, Jr.) When a man builds a house he provides for heating, lighting facilities for cooking, a telephone and plumbing. All those things are taken for granted. The day will come when "things taken for granted" in home building, will include a radio receiving set.

The time is approaching when nearly every home and apartment house, whether in suburban, rural or city communities, will have its own radio.

The progress and intelligence of a nation can be judged accurately by the progress made in developing means of transportation and communication.

United States leads the world in transportation and in communication and in the use of radio.

When a means of education and entertainment like the radio is in its infancy, then is the time for it to get the most careful attention.

Radio like everything else can be abused and has been. Unfortunately those guiding the destinies work out a plan whereby the

greatest number will obtain the greatest benefit. That, of course, is their objective. In these series of talks we intend to discuss radio from a non-technical point of view. We intend to take a glance at the past and to dream a bit about the future. Surely nothing has greater possibilities in its development than the radio. If you really have a conscience take care of it. What many content to take a glance at the past and to dream a bit about the future.
