

Local News In Brief

COMING EVENTS

Union County Track and Field Meet at Union May 2. Eastern Oregon Track and Field Meet at La Grande May 5. Union Live Stock Show at Union, June 10-11-12.

Free from Chicago—Mrs. Henrietta Jones, of Chicago, Illinois, is spending two weeks in La Grande, visiting friends and relatives.

Here Yesterday—Mr. and Mrs. Loyal Strickland of Imbler, wife visitors to La Grande yesterday. Mr. Strickland is cancer in the bank at Imbler.

Visiting Here—Mrs. Cara Knoda arrived in La Grande this morning from her home at Bendleton and will spend several days visiting with Mrs. Roy Williams.

Went to Ontario—Captain Paul C. Hathaway went to Ontario this morning in the interest of the Citizens Military Training Camp.

On Tour—The boys and girls glee club of the University of Oregon is touring western Oregon. Wednesday night they sang at Salem and last night appeared at the Helwig theatre in Portland.

Returned Home—Mrs. J. L. McKinney returned to her home in Enterprise this morning after spending the past two months in La Grande with her daughter, Mrs. T. O. Barnwell. Mrs. Barnwell accompanied her mother to Enterprise this morning and will spend the day there and return this evening.

Went to Hot Lakes—Mrs. Harry Starr went to Hot Lake this morning on train No. 24 to visit her husband. Mr. Starr is in the hospital there and according to Mrs. Starr improvement seems slow, although he has only been there one week.

Want Game Sunday—The H-Jackers baseball team is looking for a game to be played Sunday on the Greenwood diamond. Any team caring to play from should notify Bob Gentry, Green Price of Slater, Wednesday. They have already won two games this season.

Left This Morning—Mrs. Christine W. Clark, district deputy of the Woman's Benefit Association, who is now making her headquarters here at the Sommer hotel, and visiting the surrounding towns, went this morning with the party there this evening. The W. B. A. is preparing for a rally to be held at Pendleton May 15 and 16 and it is that interest that Mrs. Clark is spending her time in eastern Oregon.

Returning Home—Mr. and Mrs. H. A. Maxwell, who make their home at Detroit, Mich., were in La Grande last night en route to their home, via Salt Lake City, Utah, Denver, Colorado and other points. Mr. and Mrs. Maxwell have been spending the winter

in California, having spent one month at Los Angeles, one month at San Francisco, and one at Riverside. They also visited at Long Beach, Sacramento, Santa Cruz and other points of interest. They traveled three thousand miles by auto in southern California during the winter sight seeing. Mrs. Maxwell states that she likes northern California better than the southern part, although the south is lovely in the winter time.

Personal Mention—Mrs. Jeanette Tuttle of Imbler was a La Grande visitor yesterday.

San Hallgarth and John Huz, both of Elgin, were in La Grande Wednesday on business.

Mrs. J. Y. Wright returned to her home at Elgin this morning after spending the past two weeks with friends in Portland.

Mrs. Tom Harrison went to Elgin this morning on the branch line train. She will visit indefinitely with her mother, Mrs. Sam Mason, there.

Mrs. Nell Cameron was a visitor to La Grande yesterday from her home at Walyawa.

H. H. Huz, grocery man of Elgin, was a visitor to La Grande yesterday.

WALLOWA'S LURE WILL DRAW MANY

(Continued from Page One.)

It is to be known as the American Switzerland.

"That it is a region of large potential trade, with a wheat crop of \$300,000 a year, \$20,000,000 invested in land, \$5,000,000 in livestock and with an irrigation cost of only \$20 per acre."

SECURITY WAITS FOR LLOYD ENTERPRISE, Ore. (Special)—After the first "set" for the moving picture, "Winds of Change," to be filmed at Wallowa lake, had been finished, Lloyd Briefly, technical director in charge of preliminary work for the Frank Lloyd company, stopped work. The location of the next set will not be decided upon until the principals of the company arrive next month.

In addition to the interest in the picture, Wallowa lake resort is already attracting many. Fishing in the lake is proving an early season attraction and L. C. Binford, manager, finds it is bringing patronage.

The dining room in the new Wallowa Lake lodge is open and the old restaurant building is being made into a store, where agricultural implements, from greengrocers to sporting goods, will be sold.

A fair crowd attended the opening dance last Saturday night despite inclement weather.

WALLOWA'S LURE WILL DRAW MANY

In addition to the interest in the picture, Wallowa lake resort is already attracting many. Fishing in the lake is proving an early season attraction and L. C. Binford, manager, finds it is bringing patronage.

The dining room in the new Wallowa Lake lodge is open and the old restaurant building is being made into a store, where agricultural implements, from greengrocers to sporting goods, will be sold.

A fair crowd attended the opening dance last Saturday night despite inclement weather.

W. C. Kelly, of La Grande, contractor in charge of the construction for the picture company, is furnishing much entertainment with his radio set.

SPRINGFIELD, Mo.—Purchase of an eight-acre tract here by Wayne T. Boles part of the American Legion was the first step in the legion's plan to establish a national athletic field and children's playground for this community.

And a New York insurance agent has lived 80 years without talking off either one of his arms.

THE PARK (Special)—About twelve inches of snow fell during Sunday at the Park, but by Monday afternoon it had all disappeared. The snowdrifts which were left during the last few days of cold weather, a heavy frost came the morning of Tuesday. The grass is growing rapidly though and there is an excellent and abundant supply for early pasturing.

Mrs. S. Godsey is taking care of her daughter, Mrs. Art Moody of Lower Powder.

Lon E. Wirth, Big Creek rancher and his son Herb, were the guests of Mr. and Mrs. A. J. Vandevanter Saturday.

Reports have it that at the school meeting Saturday Bert Wirth of Big Creek was hired for teaching school the coming term and that the contract will be signed sometime next week.

George Leach, manager of Medical Springs, was a guest at the Clarence Vandevanter home Monday.

Roosting of birds the first seen in the Park to get in good this spring. Frank Whitworth had to admit that it was sweet eleven that he was seeing.

Mrs. Rose Lay while participating in a ladies' tennis game Monday at the school house was defeated by the champion ball player of the Park. She says she will challenge the Big Creek ladies to a ball game in the near future.

Observes Anniversary.—An interesting program in honor of the battle of Lexington was presented at the school house Monday. The affair was successfully conducted by Miss Della Miller, the school teacher. A good sized audience was in attendance and all pronounced it a success.

The snow and rain stopped the baseball game that was scheduled to take place between the Park and Big Creek Sunday. But the boys are practicing hard for the next encounter which will be next Sunday if weather permits.

Vivian Kennedy went after four or five hundred Durham hogs that O. E. Woodson bought in Union recently. He was assisted by Kenneth Vandevanter and they passed here with the animals Monday evening.

A deal of 400 head of fine cattle was returned to the owners of Lower Powder recently. Mr. Woodson right along is adding to his large herd. The cattle were driven

ESSEN, Germany. (AP)—Quantity production three years ago of bathhouse turkeys and rapid-fire guns was a feature of the work here of the firm of Friedrich Krupp, once the symbol throughout the world of armament manufacture; today this organization is making artificial teeth and surgical instruments.

Swords, or their more hideous modern successors, the "Big Bertha" cannon, have literally been beaten into ploughshares. The Krupp now turn out agricultural machinery, railway engines, automobile trucks, merchant ships, steel bridges, and a thousand and one smaller things. Artificial teeth and surgical instruments are but two of the many minor articles manufactured in what was once the most formidable armament plant in the world.

A striking feature of the transformation is the fact that the change has come about without change of technical engineers or skilled workers. In fact, one reason for turning into such activities as watch and clock making, moving picture manufacturing, and the construction of delicate mechanisms for optical and microscopical instruments was the consideration that a large staff of skilled workers and engineers used to be engaged in perfecting the delicate mechanisms of rapid-fire guns and the like. These men, after the war, were compelled to turn from inventing and constructing engines of death to devising machinery for the advancement of civilization. Thus new types of turbine engines are being developed. Diesel motors are being improved upon, better processes of steel are being experimented with.

A word as to the magnitude of the Krupp plant at Essen; the area covered by the various buildings is almost 200 acres. The private railway which connects the various sections with each other extends nearly five miles from one end of the plant to the other. The largest of the buildings, that devoted to locomotive construction, covers an area of 300,000 square feet, and has a frontage of 1,640 feet. The four hydraulic presses for compressing blocks of steel exert a pressure of 4,000 tons each. Some of the greatest employees are bringing high grade steel to the melting point have a capacity up to 90 tons each.

The plant is equipped to employ 115,000 men. That was the figure reached during the peak of wartime production and applies to Essen alone. If one adds other works of the Krupp empire, the total number of men employed in the plant is 138,000 men.

28,000 Workers.—As a matter of fact, however, only 28,000 workers are now on the payroll. The Krupps are getting out of the arms business and are now devoted to the construction of agricultural machinery does the place seem really busy. The railway locomotive construction department, for instance, is equipped to turn out one locomotive each working day, or about 200 a year.

STAR TODAY Saturday and Sunday

LARGE CROWD TO WITNESS SUNDAY TILT

(Continued from Page One.)

There will be at full strength in their tilt with La Grande as Babe Adams is expected to be in the short patch position. King or Peterson will likely play first with Chas. Clark as second and Barney Hodges at third. Hunt, Cox and Olson are expected to hold down the garden while Taylor will be behind the plate.

One thing is certain from the way the Bards have been clouting the ball since the season opened and that is that Buck Bels will have to bear down from the first if he is to hold the Pendleton swatdown in check. Pendleton has been two of the best pitchers in the league in Byrnsford and Tom's Park and the few speed ball chuckers fared badly as a result.

In a Boston fire, things were carried out by three neighbor girls in pajamas, so now no house in Boston is safe.

And 30,000 elevator men in New York plan to strike, but other varieties of uplifters never fire of their work.

To the home ranch by the following cowboyboys: Kenneth Vandevanter, Joseph Lay, Bob Wankar, former of the home ranch at Big Creek. The round-up was assisted by Art Moody, Leo Oliver, Jay Oliver and Romeo Brown. The cattle are at the ranch and it is said that the price paid by Mr. Woodson is \$22 per head.

Kenneth Vandevanter has accepted a position from O. E. Woodson of taking charge of the entire herd of the Woodson cattle on the range for the summer.

Mrs. Leona Wilson, daughter of Mr. and Mrs. J. R. Hunter, with her young baby boy, Eddie, is recovering from the Grand Bonds hospital in the home of Mr. Wilson's brother, Tom Wilson, in La Grande.

GUN MAKERS CHANGE PAGE

PROMISE NEWS OF THE WEEK

PHARMER (Special)—Although the rain has halted much of the spring work here the alfalfa and other hay and fall grain is growing fast and the fruit trees are beginning to blossom.

John Phillips left Wednesday for his home at Wendling, Oregon.

Boyd Carper went to Maxville Saturday. He reports the roads in good condition.

Mrs. Eadie Courtney went to Troy Friday evening and returned to her school at Riverside Monday morning. She visited with Ruth Worthington.

E. G. Potter and Raymond Hunter went to Elgin the first of the week after some cattle, returning Tuesday.

Chas. Carper and son Ralph, are working a few days for Bill Carper.

Charlie Bennett, of Lower Valley came in Friday and spent the night at John Carper's, returning home Sunday.

Wilbur Hancock of Maxville was in Promise last week.

Mrs. Phillips is staying with her daughter Mrs. Nellie Plehman.

Fred G. Potter made a business trip to Troy Saturday.

Rumley Courtney spent Wednesday night with Ruth Hays at the William Sarnar home.

Emeline Bennett visited Friday with Lucy Reed.

Miss Dorothy Smith of Wallowa, who has been suffering for several weeks with rheumatism, was able to resume her duties as teacher at Peowaska school last Monday.

Miss Ruth Ballard who has been teaching for Miss Smith left Monday for a visit with relatives.

Mrs. Stella Poulson spent Monday night visiting at the Chas. F. Carper home.

Paul Poulson, accompanied by his mother-in-law, Mrs. C. E. Smith and his son-in-law, Glenn, returned from Wallowa Wednesday.

John Carper went to Wallowa Monday.

Howard Carper went to Maxville the first of the week.

One of Toles Newby's boys has been ill but is now improving.

Rice Courtney and Ethel Carper visited Tuesday night with Mrs. Stella Poulson.

Walter Carper, Edgar Barton and Mr. Williams of Maxville, are bear hunting on Little Salmon river.

LADIES' PUMPS \$2.98

Broken lines in Ladies' Suede Pumps and Oxfords in black, brown, grey and airedale, values to \$7.00. Nearly all sizes.

55 STORES

Provisions must be made to insure: 1. That every child is well born; 2. That every mother receives proper attention and care; 3. That every child is protected from improper care and that physical defects are corrected before serious harm is done; 4. That frequent physical examinations are made to insure normal development.

May Day is Child Health Day. Celebrate it by giving every child in this state a chance for health and happiness.

Perhaps a baby born in the Grand Central Station in New York will grow up and become a hero or a railroad president.

People are so impatient. In New Jersey a bank was robbed by a paying teller who couldn't wait until he became cashier.

A Los Angeles innocent bystander is expected to recover.

NOTICE! Don't Forget The BARN DANCE —At— Eagles Hall April 25 Auspices R. N. A.

HEALTH

RAISING HEALTHY CHILDREN

The children of the State of Oregon, over two hundred thousand strong, who represent our state's future, need wise care and early training. The physical impairment of the coming generation depends entirely on the measures we adopt for prevention and correction.

Although Oregon leads the United States with a low infant mortality there is still an appalling amount of unnecessary sickness and disability. Altogether too many children die from preventable diseases and many others go through their childhood weak and sickly when by proper attention they might be strong and healthy.

They are, in round numbers, in the State of Oregon, over one thousand children who are mentally defective, and over one thousand who are handicapped with organic heart disease. Over four thousand children have defective vision; over three thousand have defects

of hearing; over fifteen thousand have adenoids or diseased tonsils; and over fifty thousand have defective teeth. During the past year there were fifteen thousand six hundred and seventy-four births in this state. One in twenty of these children will probably die during the first year of life. One hundred and fifty are mentally defective; over one hundred of them have organic heart disease; six hundred have defective vision; four hundred and fifty defective hearing; one-quarter of them have adenoids and diseased tonsils; and over one-half of them will develop defective teeth. By the time they reach adult life only one-third of them will be classified among the physically fit.

In a state as rich and intelligent as the State of Oregon we should have a few children developing into manhood and womanhood with handicaps of remediable physical defects. The practical problem of bringing up healthy children demands that each child must be carefully considered and all remediable defects removed. It is wasted time and money trying to force defective children through the regular mill of school work. Every child should have a physical examination before his entrance to school, put in the best possible condition, and maintained in that condition by careful supervision. We are responsible for the normal development of our children. Children are born without habits, but habits are soon formed and the bad ones come more easily than the good ones.

In order to grow healthy children a comprehensive and intelligent program must be adopted.
