Tan Colored Hose Match Rio's Sun Tanned Arms

RIO DE JANIERO (AP)—The American fad of beige-colored hose for women has hit Rio with amusing results, due to the fact that the new style became popular here at the height of the bathing season.

The beach-tanned arms and the beige stockinged ankles are often so nearly alike in color that it was frequently thought hoseless days had arrived.

PAPER BOOSTS WALLOWA LAKE

The following paper was written by Francis Kelly of the La Grande high school:

Wallowa Lake Wonderland.

"A man is not without honor save in his own country." How true this is of everything in life. We are of course somewhat proud of the scenery in Oregon but do we boost it? Among the many places which are of interest to the tourist is Wallowa lake.

Wallowa lake is one of the most beautiful lakes in the world. Not only the lake itself but surrounding mountains and the cool mountain breezes form attraction for both young and old.

Because people of Eastern Oregon do not give enough honor to the Wallowa Lake Wonderland is the only reason why it is not known throughout the nation. I am supported by many in my belief that the Wallowa Lake Wonderland will be a national park in a short time. People from other states realize the extraordinary beauty of the vicinity. I will give one illustration which will prove this fact. Last week there was a certain multi-millionaire from New York at the lake. A man who could go any place in the world that he desired, but he is one of the few people who wishes to see his own country first. He was far from disappointed when he arrived there. In fact he was so well pleased that he would have stayed for a month had there been a convenient cabin for his use. He is desirous of having a summer cottage built so that he may spend at least a month out of every year at the Wallowa Lake Wonderland. This gentleman is going to boost Wallowa lake and he lives in New York. Why shouldn't we who are going to get the benefit of it?—Francis Kelley.

Pinched for Living Space London Adopts Bunks

LONDON (AP) — The demand for living space in London is so acute that bunks, one above the other similar to those aboard ships and which fold up out of sight when not in use, have been installed in some of the newest flats in the crowded City of London, where inches have to be taken into consideration whenever any building is being done.

"Having heard of your Alvita Tablets, I came to your Long Beach store two weeks ago and bought a box of sixty tablets for $1.00 and within one week was absolutely relieved of a long-standing trouble with my kidneys or prostate which necessitated my being up from four to six times during the night.

"I can hardly express my appreciation for the good these tablets have done for me in this regard. I am a man of mature age, but feel like a young man today —I am buying one-half dozen boxes of Alvita Tablets to give to my friends."

Bill Considered to Permit Suit Against British Crown

LONDON (AP) — The historic British law which provides that the Crown may not be sued will be discussed in Parliament in the near future when a bill is introduced calling for its alteration.

A committee of jurists has prepared an outline of the bill which would knock out the ancient law altogether. The proposal as considered by the jurists is that the Crown should be as liable as any other employer for acts committed within the scope of an employer's authority.
