SNOW FALLS AT THE PARK

THE PARK (Special).—Heavy showers came in the last few days, and Friday morning about three inches of snow covered the ground but the sun caused the snow to disappear. Grass is growing wonderfully and the newly-seeded grain is beginning to sprout already.

Several anglers from Lake and Polson were on the creek Sunday. They caught several nice trout of the rainbow variety.

A herd of dairy cows was moved from the Stanybrook Farm on Little creek to the summer headquarters of the Hall Dairy on Catherine creek last week. A Mr. Taylor will have charge of the dairy, it is reported.

Cy Turner of Big Creek was a visitor here recently.

Miss Geneva Walker of Big Creek visited with the Vanorber family last Sunday.

George McDove will be doing mending in a few days.

Sheepmen are looking over the private pastures in view of moving their sheep in the near future in the lower pastures.

The men who were working for the department of the interior camped at the mouth of Little Catherine below the Hall ranch have gone into the Baker district. There it is reported they will have a long job checking up the old section lines.

Farmers are talking of starting a poisoning raid on the gophers which are making their appearance in great numbers this spring.

Dutch Shippers Look Forward To Better Business in Europe

ROTTERDAM, Holland (AP)—A slow clearing of the international European horizon, coupled with a gradual stabilization of exchange rates and prospects of the execution of the Dawes plan enhancing the buying power of central European nations, are mentioned as favorable factors for this year in the annual report of the Netherlands Shipowners' Federation, which controls 856 vessels, or 97.5 per cent of the entire Dutch mercantile marine.

For the present, however, the condition of the freight market imposes extreme economy, says the report, which points out that foreign competition remains exceedingly keen. Dutch, American and English rates of pay for seamen, according to the report, are the highest in the world. They are double the German or Italian rates, and this explains why ships sold to the latter countries because they cannot be made to pay at home, can be run at a good profit by their new owners.

Movie Torpedo Handles Tagging Bull Cautiously

HOLLYWOOD, Cal. (AP)—A story of a bit of unfilmed humor that marked the production of a motion picture here recently is circulating about the studios.

A Latin type leading man was cast for a role in a bull fight. The arena was built and the spectacle handled by the actor in case the bull acted too realistically.

The actor was timid and didn't relish the scenes where he had to annoy the bull. He shied every time the bull even looked his way.

Finally the director, after much loss of time and film, became irritated and exclaimed: "Be something, show a little nerve."

"But what shall I do if the bull shows some nerve too," pleaded the actor from behind the arena gate.

"Now like a cow and maybe he will kill you" was the rejoinder of the exasperated director.

SMOOTH RUNNING KITCHENS AIM OF WOMEN INVENTORS

LONDON (AP)—Women inventors have applied for more patents in England during the last few months than at any other period in history. Most of these devices are labor-saving machines for use in the ordinary household where there are no servants.

Among them is an electrical dish washing machine which will clean the dishes of a family of 12 within a few minutes at the cost of 1-12 of an English penny.

One of the best known British women inventors is Mrs. E. M. Holt, member of a family of inventors and who recently organized a company which will manufacture labor-saving devices. She is a grand niece of Sir Humphrey Davy, who conceived the miner's safety lamp. One of her inventions is a complete laundry which may be operated by a housewife who has no maid, without getting so much as even a drop of water on her fat hands.

Many Things to Consider In Building a Residence

(Continued from Page 6)

Let us remind you that the building of a house is not without its risks and worries but like the story in modern fiction, the completion brings its compensating happiness.

If he advertises it, he knows it's good.

Observer Crossword Puzzle

Motorists may sympathize with their comrade in the sketch shown with this puzzle. But then there's the essential to consider.

HORIZONTAL

SCHOOL ENDS AT PROMISE

PROMISE (Special).—School closed here last Friday. Saturday the school children and teachers enjoyed a picnic at Promise. The boys played ball and the other children engaged in various other games. At noon a picnic lunch was enjoyed, after which there was a program, consisting of songs, recitations, dialogues and drills.

Miss Helen Brown of Flora, and Melvin Courtney came over for the picnic Saturday.

Chas. P. Carper and son, Howard, went to Wallawa Monday.

Miss Eunice Courtney accompanied by Ruth Hayes returned to her home at Troy Sunday.

There was a party at Mrs. Otis Smith's Saturday evening.

Mrs. Smith returned to Wallawa Monday.

Walter Carper sold his pet bear to Harry Wise of Maxville for \$25.

Mrs. Bertie Barton of East Grosman, was quite ill last Sunday and Dr. Tenbrook of Maxville was called. She is slowly recovering.

John Carter and Andrew Peshman, attended the Pomona dance at Lostine the last of the week.

Mrs. Ballard, of West Grosman has been quite ill. Her daughter, Miss Ruby, came in last Thursday evening to care for her.

Mr. and Mrs. Carl Griffith of Maxville, attended the picnic at Promise Saturday and remained over at the Stevens' until Monday. One and Carl went fishing in the Grande Rodee river.

Truman Paulson went to Lostine Monday with some horses of Charles Moffitt's which have been on the range since early spring.

Mr. Ruby moved his family in from Enterprise Sunday to the W. B. Hesseck place.

Tex Williams, Len Kenworthy and Mr. Garrett assisted Mr. Ruby in moving.

Mrs. Truman Paulson is visiting her mother, Mrs. Ole Swearingen. Roy Henderson is plowing for Mr. Ruby.

Miss Dorothy Smith, who has been teaching school at Poswauka, became very ill with influenza Monday evening and they took her to Hot Lake for treatment.

New Processes Make Milling Of Low-Grade Ore Profitable

SEATTLE (AP)—Ten years ago mining companies had to send ore valued at \$10 a ton or more to the mill to receive a profit, but new methods make it possible to mine and mill ore at a small fraction of the former cost.

Falcon Joslin, a Seattle mining operator, has explained the innovations.

"New milling methods permit the working at a profit of low-grade ores that are to be found throughout certain sections of the United States in almost unlimited quantities," said Mr. Joslin. "A large mining company operating near Junction, Alaska, is taking out and milling gold ore at a net cost of 45 cents a ton, and expects within a year to reduce the cost to 40 cents. This demonstrates the practicability of working low-grade ores that have not been regarded as worth development."

Courts Protect Authors Against Radio Broadcasting

BELLEVILLE (AP)—Broadcasting a writer's poems, essays or other literary productions is subject to the same copyright provisions as is the publication of such works in print, according to a decision of the Illinois courts.

Gerhart Hauptmann and Hugo von Hofmannsthal, two of the best known authors of Germany, filed suit against a Berlin radio broadcasting company for broadcasting their works without their permission and without paying the authors any royalties.

In the case of Hauptmann the court issued a preliminary injunction restraining the radio concern from broadcasting his works. It was understood that the decision in the Hofmannsthal case was a precedent and would serve as a precedent in other cases.

The court sustained Hofmannsthal.

Sweden Out to Collect Fees from Radio Fans

STOCKHOLM (AP)—Twelve per cent of Sweden's entire population are now licensed radio fans. The latest statistics show, and since the police have begun for the first time to round up illicit listeners the demand for official permits has grown to leaps and bounds. To meet the expense of operating the public broadcasting stations, the department of telephones and telegraphs, which has charge of the country's radio system, charges a license fee of \$2.25 for each receiver. At the beginning of 1924 only 420 such permits had been issued, but today the figure is about 70,000.

By July 1 government officials plan to have completed the five principal broadcasting stations at Stockholm, Malmo, Gothenburg, Sundsvall and Boden, all connected by wires for radio purposes, and so placed that every part of the country will be equally well served.

Florida Pine Highway Along Western Coast

TALLAHASSEE, Fla. (AP)—A proposed state west-coastal highway between Miami and Pensacola by way of Tallahassee is before the legislature in a bill introduced in the senate.

This highway would follow the Tamiami Trail from Miami to Tampa and, from the connection there with U. S. Highway, would trace the coast coast through Clearwater, Crystal River, Volusia Keys and Hampton Springs connecting at the latter point with State Road No. 19 into Tallahassee.

From Tallahassee the road would run south to St. Marks, thence to Slopehills and from there along the coast through Ponce de Leon, Panama City, Camp Walton and Milton, connecting there with State Road No. 1 into Pensacola.

They claim a man in Daytona had the wives, so everyone in Daytona doesn't say Daytona out.

Washington to Have Concert Auditorium For Unusual Music

WASHINGTON (AP)—A single story structure where concerts featuring the unusual in music are to be given, is rising in the court yard of the famed Congressional Library. The rectangular building, the gift of Congress of Mrs. Frederic Shurtleff Coolidge of Pittsfield, Mass., will seat 341 persons.

Herbert Putnam, librarian of Congress, is of the opinion that the program for the auditorium will be broadcast by radio. Music now on the shelves of the Congressional Library for reference purposes will be included in the program. The auditorium will have 1,000,000 pieces from which to select.

The auditorium is being erected under the supervision of David Lynn, architect of the Capitol, from designs by Charles A. Platt of New York, consulting architect. Mrs. Coolidge's original gift was \$50,000, but she added an additional \$24,000 and provided an endowment of \$25,000 annually. Under her plan, prizes will be awarded for original compositions performed in public for the first time at concerts given under the auspices of the Library of Congress.

Mrs. Coolidge set forth her conception of the mission of the auditorium in a letter, in which she also said:

"I have wished to make possible, through the Library of Congress, the composition and performance of music in ways which might otherwise be considered too unique or too expensive to be ordinarily undertaken. Not this alone, of course, but with a view to extravagance for the own sake, but as an occasional possibility of giving precedence to considerations of quality over those of quantity; to artists
