

NEWS of SOCIETY

One of the most interesting afternoon programs ever presented to the Neighborhood club was given yesterday by Mrs. A. T. Hill, carrying out the plans of Mrs. George Carpy, assisted by the Art Department of the club. The club rooms resembled an old time county fair with its panoply of revolvers and gas quills. The industry of the women of the Roosevelt family was attested by choice pieces, among them a table cover, and a stool top of needlepoint. Mrs. Murphy, of Albee, showed exquisite handwork made by her mother. A paisley shawl, belonging to Mrs. Bunce, was much admired, and several Godey style prints, which are so much sought at the present time, were shown by Mrs. F. B. Appleby.

HIJACKERS EVADE NET

MAHESFIELD, Ore. — Sheriff Ellingsen and Deputy Malhorn, who were advised that a hi-jacking duo would pass through Coquille were outwitted by the man, who alerted their signal to stop. The sheriff and deputy had only a small car and could not keep up with the hi-jackers after chasing them for some miles.

They gave up the chase, but found the chased had been throwing out ballast as they fled. Four sacks of varied brands of bonded goods were lightened as the machine sped on toward Roseburg. In the four sacks the officers found 14 bottles not broken.

The men have not been captured. They are alleged to have stolen a cargo of liquor brought in from California, worth about \$2,000, "giltie" Parker was named by the officers as one.

Sister Mary's Kitchen BY SISTER MARY

Breakfast Halves of grapefruit, broiled buns, shirred eggs, toasted bran muffins, milk, coffee.

Luncheon Asparagus in cases, cottage cheese sandwiches, milk, tea.

Dinner Casserole of chicken, buttered rice, creamed string beans, fruit salad, prune whip, whole wheat bread, milk, coffee.

Cottage ham is delicious cut in thin slices and broiled, or "regular" ham cut not more than three-eighths of an inch thick can be used.

Crisp bacon should be served to children under school age, instead of the ham.

Egg or brown bread is used in the cottage cheese sandwiches. Cream should be used in preparing cottage cheese to serve to children.

Asparagus in Cases. Eight small rolls, 1 bunch asparagus, 2 cups milk, 4 eggs, 2 tablespoons butter, 1 teaspoon salt, 1/2 teaspoon pepper.

Cut a slice from the top of each roll and scoop out the crumbs. Brush the shell with melted butter and put into a moderately hot oven to crisp and brown slightly. Wash and scrape asparagus and cut in half-inch lengths. Put aside the heads. Cook asparagus in boiling water to half cover for 10 minutes. Add milk and heads and cook 15 minutes. Heat eggs well and stir into milk. Add butter, salt and pepper and cook over hot water until mixture coats the spoon. The milk and egg combination is nothing but a boiled custard but requires careful cooking. Fill the scooped out rolls with the mixture, put on the tops and brush the outside of the rolls with melted butter.

More and more ladies are finding comfort in Arch-Aid Slippers. Our sales have doubled in the last 30 days. Why? Because they support the arch and carry the weight without breaking down the shank of the shoe, which will occur in slippers not built with an extra strong arch. This prevents the foot from elongating and relieves the weight from the metatarsal heads. And if you have large callouses on the bottom of your foot they will soon disappear if you wear Arch-Aid Shoes.

There is many dollars worth of comfort in each pair. Try one pair and be convinced.

ter. Put into a hot oven for two or three minutes to crisp. Serve two small rolls to each person. Any asparagus and sauce left from filling the rolls should be paired around the rolls when served.

Taste in Colors Called Criterion of Civilization DENVER, Colo. (AP) — Prof. Thomas Russell Garth, of the department of education in the University of Denver, declares that preference in colors denote types of civilization and orders of intelligence.

He pointed to a recent test made by the University of Texas, which found that white children cared most for blue and yellow, a particular distaste for blue.

"The more white people are educated," said Prof. Garth, "the less they esteem red. In fact, they suppress all colors except blue as they become more educated."

A previous examination of 1,000 Indians showed that red was their favorite color. They disliked yellow, avoiding its use whenever possible. One thousand Chinese children, given the same test, displayed the white children's preference for blue.

Prof. Garth is planning an expedition to a number of Indian reservations to continue his study of color preferences.
