It May Interest You To Know

That— Among the smartest new fabrics soon to appear is a knitted silk construction made on underwear machines. This material is to be used as the main decoration on some of the severe tailored dresses.

That— Tulle has made steady if rather slow progress in the American mode, but now it is coming into its own for Fall.

That— Prosperity has been heralded for months, but many are asking "when is it?"—The kind of prosperity that is worth while seems to be with us, namely, development along sound lines of reasonable growth.

That— A fairly inexpensive yet effective Spanish shawl may now be made by sewing together insertion of black chintilly lace and trining the whole.

That— The animal scarf has refused to be relegated to the discard. It has brushed up its sable, stone martin and fitch representatives and reappeared in the parade.

Tunney in Training

No, this is not one of the hired hands massaging the old wood pile before breakfast. But Gene Tunney, light heavyweight champion in training for his bout with Tommy Gibbons next month, Tunney has mapped out a strenuous training program. Chopping wood is one of the stunts on his list. Photo was snapped at White Sulphur Springs N. Y., his training headquarters.

SHOP TEAMS PLAY SUNDAY

The O-W shop baseball team will play its first league game here Sunday afternoon, against the strong Knott nine, according to agreement today.

The contest will begin at 2:30 o'clock at the high school athletic field. The local team has played several practice games here recently, including two with the Hi-Jackers, now topping the Sand Lot league. The shops defeated the league leaders in the second game of the series.

GAMES TODAY
American League
New York at Chicago.
Washington at St. Louis.
Philadelphia at Detroit.
Boston at Cleveland.

National League
Pittsburg at Boston.
St. Louis at Brooklyn.
Cincinnati at New York.
Chicago at Philadelphia.

Pacific Coast League
Seattle at Portland.
Portland at Oakland.
San Francisco at Sacramento.
Los Angeles at Salt Lake.

PLANES WILL FIGHT WEEVIL

O. A. C. Corvallis, (Special).—Control of alfalfa weevil, now invading the eastern boundary of this state, by applying poison dust from airplanes will be tested on a commercial scale next Wednesday, May 20, near Ontario, Malheur county.

W. J. Chamberlin, representing the entomology department of the Oregon experiment station, who recently arranged experiments with apple orchard spraying by airplane, is again in charge of the trials. Captain H. C. French, commanding the 22nd reserve observation squadron of Portland, will pilot a large commercial plane which is being fitted out with an improved dusting attachment designed since the orchard tests made the first of the month.

So certain is Captain French of the success of the experiment that he has contracted in advance to dust 500 acres of alfalfa owned by the Eastern Oregon Land com-

pany near Ontario. So far the first commercial application of material by airplane for disease or pest control.

Chlorin arsenate is the poison to be applied (the rate will be applied at the rate of 2 pounds to the acre). It will be mixed with a filler in order to permit even distribution at the low rate.

The county agent of Malheur county, H. L. Rothaupt, is arranging the local details of the experiment, while federal entomologists from Oregon, Idaho and Utah will be present to view the demonstration.

This experiment will constitute the latest move by the experiment station here to stop the advance of the weevil to other parts of the state, including the Willamette valley where alfalfa is now getting established.

OMAHA PLANS TO ENTERTAIN

OMAHA, Neb. (AP).—Formation of a definite and active program of legislation looking forward to a more liberalized insurance provision of the present Reed-Johnson veteran's bill will constitute the main work of the members of the Disabled American Veterans of the World war, when they meet in annual convention at Omaha, June 22 to 27. Adoption of resolutions on rehabilitation, hospitalization and compensation are expected to initiate the veterans' program for 1925-26.

The convention is expected to attract between 5,000 and 10,000 disabled veterans. Aiding these members will be probably the largest array of army general and leaders of the World war ever to address a single convention. Included on the speakers' roster are: General John Pershing, General Frank T. Hines, director of the U. S. Veterans' bureau; Major General John Dunn, national commander of the Veterans of Foreign Wars, of Boston; Other prominent speakers will be Myron T. Herrick, former American ambassador to France and now national commander of the Spanish-

many war veterans. So far the first commercial application of material by airplane for disease or pest control.

Cool Underwear

Just the sight of an ALLEN-A Unionsuit makes you feel cool. It gives you all the comfort that very light absorbent fabric perfectly fashioned, can give.

American War Veterans; James H. Lewis, national commander of the American Legion, and Governor Adam McMullen of Nebraska. Omaha will extend itself in entertaining the veterans. Madame Johanna Heintz, eminent singer, will give several concerts, while the celebrated French Rats, the first organization of the veterans, will have control of the traditional stunts and initiation. Horse-racing and a civic carnival will also be provided for the veterans.

If he advertises it, he knows it's good.

A New Car for You

A little of your time, a brush and a can of Lowe Brothers Auto Enamel are all you need to renew the finish of your car—to make it as new and shiny as the day you bought it.

This enamel is easy to use; comes on freely, leaves no brush marks, and dries overnight to a smooth, glossy finish.

Stop in and we'll tell you how economically you can give your car a brand new finish.

Engineer Tests Alvita for Kidney Trouble

"I have been troubled for several years with bladder inflammation and when I went for Alvita was unable to work and did not know if I ever would run an engine again. I could not stay in bed nights, as I was worse lying down than at any other time. I have been up 25 to 30 times in six to eight hours. Forty-eight hours after I began taking Alvita tablets I was almost normal and in four days went to work, and at present feel perfectly well. I don't know what to say; I can't thank you too much for what you have done for me. For in his 20 campaigns — 1905 to 1924 — he only piled up 96 circuit boxes, a little better than four to the chase.

Back in 1884 "Pop" Amos, playing with Chicago tagged five circuit boxes on two successive days, the last three roping in any many times at bat.

However, Cobb's feat is the best established in the major leagues as at present made up. It is all the more noteworthy coming in his twenty-first season in big time.

In only nine of his many years as a major leaguer has Cobb got as many as five home runs during an entire campaign. His best year was in 1921 when he punched out an even dozen run-baggers.

While one of the greatest batters baseball has ever produced, the Georgian has never, until now, been called as a home run hitter. For in his 20 campaigns — 1905 to 1924 — he only piled up 96 circuit boxes, a little better than four to the chase.

The best previous homer record for modern times was jointly held by Babe Ruth, Yankees, Ken Williams, Browns, and Tilly Walker of the Athletics. Walker has since peaked from the picture.

Each of this trio tallied out four home runs in 1905 consecutive games. Ruth put his over in 1923 and Williams and Walker in the following season.

Then three were noted for their home-run productivity. In fact, Ruth and Williams are still so rated. Cobb, however, as mentioned, has never been considered as a long distance circuit-bagger, of his hits resulting from speed alone.

Since the Georgian got into the lineup following a short illness this spring he has been hitting all kinds of pitching. And despite his long regime, may persistence again be a dangerous contender for batting honors, just as he was a few years ago.

The scheduled contest between the Cayuse Indians and the Hi-Jackers baseball team here yesterday afternoon was postponed until this afternoon because of rain.

Los Angeles-Salt Lake games postponed, rain and wet grounds.

CALL SENT TO BILL DOAK
NEW YORK (AP)—One of the strongest appeals professional baseball ever has known has come forth to Bill Doak, spikish pitcher of the Brooklyn Dodgers, who last season in a heated race for the National league pennant, led his team to victory in a row in bid of the great Durrer Vance.

Doak is in Florida, evidently satisfied with his earnings from real estate. Sundry offers of the Brooklyn club have failed to lure him back.

Doak's services are needed and he should become aware of the fact when a letter signed by every member of his team, reaches his Florida abode. His team mates have asked him to come back to stand again by the side of Grinnon and Vance in hurling off investors that Brooklyn, after five years, may come again to a National league pennant and world series.

Two Wisconsin Girls Seek Golf Title of Approaching Season

MILWAUKEE, Wis. (AP)—The major contest for golf honors among women this season will be played in the middle west. Among the contenders likely to take a leading part in attempting to even the national title from the east, where it is now held by Mrs. Dorothy Campbell Hood, are two Wisconsin girls.

The younger of this pair, Miss Beatrice Wall of Oshkosh, is the champion of Wisconsin for the third time, while the elder, Miss Frances Harford of Milwaukee, has displayed expert golf at times, having been runner-up since in the western championship, as well as state champion. Both are faithful followers of the links and are planning to participate in all the leading events of the season.

Miss Wall, although a rather slight girl, has a splendid swing, placing both wood and iron in good form. She gets good distance from the tee and through the fairway, but her specialty is in the short game. She approaches and puts well when at the top of her form. To those who do not know her, she appears on the links, she appears at the starting line to be one of the adventuresome girls who enter tournaments as a lark and giggle while they roll up a score in three figures for 18 holes. But when the well-thumbed swing, making up for lack of more hardened muscles, allows the Oshkosh girl to send the ball whizzing down the fairway full 200 yards, or more, the onlooker, unthinkingly admits that unassuming
