New Safe Way to Remove Hair Roots

No need now to undergo painful electric treatments to remove superfluous hair; not to apply electrolytic or destructive hair removers which only remove surface hairs. A marvelous new Oriental balm has been discovered which is applied almost as easily as cold cream. It penetrates towards the hair roots and gently "comes out" every objectionable hair, root and all, and leaves the skin clear, white, healthy and soft as velvet. No marks, no odor. The growing back of hair stranger than ever. Absolutely harmless. Karpis, as this wonderful new discovery is called, is highly recommended by prominent beauty specialists, and is sold as an absolute guarantee of satisfaction by Silverthorn-Wright Drug Store, Red Cross Drug Co., L. & L. Drug Co., Glass Drugs.

Billy Evans Says

too, as fandom knows.

BRING FLAG WINNERS. Two of them have brought in flag winners. For instance, Tim Speaker in his first regular season as manager led the Cleveland team to a pennant and world series championship.

And last year, Stanley Harris took what was generally conceded to be but a fair ball club, and not only topped the American league procession but handed the Giants a rude jolt in the blue ribbon classic.

Harris did the unique in baseball, winning the championship and world title in his initial year as a manager. Moreover, he was the youngest pilot ever to turn the trick.

Cobb has been handling the reins of the Tigers since the start of the 1921 season. During the interesting season he has finished second once, third twice, and sixth once. In the last three years he has had his outfit in the thick of the fight.

Last year was Sister's first in the role. And he did fairly well, all things considered.

It was also the first for Bancroft and Harris. The former, of course, didn't get anywhere in particular owing to the material at hand. But should do better this season, in fact has started nicely.

ANOTHER PLAYING MANAGER

The recent appointment of Rogers Hornsby of the Cardinals to the role of manager makes the seventh player now plotting a major league ball team.

The others include Dave Bancroft, Bravvo, Speaker, Indiana, Cobb, Tyner, Harris, National, Sliker, Brown, and Eddie Collins. While Sox. Four of the group are outfielders, the rest infielders.

Not so many years ago, playing managers were almost a thing of the past. They were conspicuous by their absence. Virtually every club in both major leagues employed bench pilots.

But of more recent seasons the number of playing leaders has steadily increased until today there are more active chieftains in the big show than has been the case in a long stretch.

And Guy have been enjoying marked success for the most part.

Business Men Censured

SALEM, Ore.—The influence of the Chamber of Commerce in National Affairs' was the subject of an address given before members of the Salem chamber of commerce by W. D. Dodson, general manager of the Portland Chamber of Commerce.

Mr. Dodson declared the average business man now has one eye on cash and another on the golf ball.

"What we need is men with a third vision," he said. "This third vision should be focused on public problems. It is not fair to place upon a few men the entire responsibility of solving the many public questions that develop from time to time. These should be given consideration by every man and woman interested in the welfare of the country."
