

# NEWS of SOCIETY

The General Aid of the Methodist Episcopal Church held a most interesting meeting yesterday afternoon at the home of Mrs. C. E. King. Mrs. A. Cooper read the devotional and Mrs. Shorwood Williams presided over the business meeting.

During the social hour Mrs. William Adler had charge of the musical program which was in the form of a hymn memory contest. The home was decorated with various flowers of the season artistically arranged.

Refreshments were served by the hostess assisted by her committee consisting of Mrs. E. O. Payton, Mrs. C. H. Griffin, Mrs. Thomas Wilson, Mr. Shorwood Williams, Mrs. C. M. Rossmund, and Mrs. G. C. Headley. A large number attended the meeting.

Members of the Bible Searchers Class of the Presbyterian Church met yesterday afternoon at the home of Mrs. W. B. Pickens. Mrs. Harry Turner presided over the business meeting, after which the afternoon was spent socially, several of the ladies doing needle work.

Refreshments were served by the hostess assisted by her daughter, Mrs. L. I. Hussey and Mrs. Lynn Bohnenkamp.

**Announcements**  
Social announcements may be printed in this column free of charge. Any announcements pertaining to any functions such as cooked food sales, etc., will be refused. Announcements to be printed the same day, must be in society editor's hands by 9:00 o'clock. — News editor's note.

The Ladies Aid of the Baptist Church will meet with Mrs. William Shado, 1387 Penn Avenue, at 2:30 o'clock Friday afternoon.

The Women's Relief Corps will hold its regular meeting and dinner Saturday, June 20, at the K. of L. Hall.

The average man does almost as much worrying about the money market as his wife does about the market money.

The unhappy ending of most novels is when the publisher sees them.

## Sister Mary's Kitchen

BY SISTER MARY

Breakfast—Shredded pineapple, spinach with poached eggs on toast, milk, coffee.

Luncheon—Cream of salmon soup, graham sandwiches, strawberry ice, sponge cake, milk, tea.

Dinner—Baked mackerel, scalloped potatoes, string bean salad, cheese sandwiches, floating island, iced bread, milk, coffee.

The cream of salmon soup is a rich mixture suitable for a summer luncheon for guests or the family. If the whipped cream is not used, a child six years of age may be given the cream soup.

The cheese sandwiches should be put into a very hot oven to toast the bread and melt the cheese. These are served with the dinner salad.

**Cream of Salmon Soup.**  
Four cups thin cream, 4 tablespoons butter, 4 tablespoons flour, 1 teaspoon salt, 1 teaspoon pepper, 1½ cups minced cooked salmon, 1 cup whipping cream, 1 cup sifted salmon, 1 tablespoon minced parsley.

Melt butter carefully and stir in flour. Do not let mixture become color. Stir in milk and bring to the boiling point. Boil three minutes. Season with salt and pepper and add 1½ cup salmon rubbed through a sieve. Let this mixture come to the boiling point and boil up once. Divide into six cups. Whip cream until stiff and fold in 1 cup sifted salmon pressed as dry as possible. Top each cup with whipped cream mixture and sprinkle with parsley. The whipped cream is delicious if 1 tablespoon lemon juice is added with the fish.

Many a heartless girl has a dozen or so of them.

About the most expensive thing on the earth is money.

## Electric Industry Recognizes Heroic Acts of Employees

SAN FRANCISCO (AP)—Medals for heroism and life-saving were awarded to 22 employees of the electric light and power industry during the last 12 months, declared the annual report of the accident prevention committee of the National Electric Light Association.

The award is the Samuel Insull medal for life-saving in connection with the utilization of the prone pressure method of resuscitation following electric shock, asphyxiation or drowning.

In every instance the awards were made to persons who rescued fellow workers at great personal risk. The details of such acts are carefully investigated. Those who were awarded medals in 1924 were Charles G. Gaertner, Los Angeles, Calif.; E. E. Forrest, Gary, Ind.; Joseph Sweeney, Sioux Falls, S. D.; Oscar Held and W. H. Taylor, Dayton, Ohio; John Palmer, New Philadelphia, Ohio; E. J. Wiley, Little Rock, Ark.; Chalmers Robinson and Charles C. Mather, St. Johnsville, N. Y.; E. L. Taylor, Cordale, Ga.; Herbert L. March, Houghton, Mich.; Orville D. Land and Lee York, Salt Lake City; Arthur H. Wood, Boston; Benjamin M. Sibley and Frank Thomas, Elizabeth, N. J.; H. C. Colver, Miami, Fla.; W. H. Treplove, Springfield, Ill.; Frank B. Adams, Jackson, Mich.; Harold Eastman, Winona, Minn.; William K. Brown, Augusta, Me.; Thomas Turner, Holton, Neb.

The prone pressure method of resuscitation has been developed by years of study and practice in the N. E. L. A. and is equally effective for drowning or asphyxiation. It has been endorsed by the American Medical Association, which has cooperated with the committee in spreading information as to its practice.

Six thousand public audiences, exclusive of radio listeners, heard the story of electric light and power companies last year. These audiences, says the public speaking committee of the association, aggregated 300,000 persons throughout the United States.

All of these addresses were the direct result of the policy of the electric light and power industry to withhold nothing from the public, for the reason, says the committee,

"first, that the story of the electric light and power industry may be told in an instructive and entertaining manner to all our population, both old and young; and, secondly, that our customers and the public may understand the economy of our business, our problems, and realize that their interests and our interests are mutually interdependent."

Insurance ranging as high as \$1,000,000 has been taken out by companies as a precaution against financial loss through the destruction of records by fire, flood or other causes. The necessity for insuring records is pointed out by the fact that the cost of replacement in all instances would be considerable, and in some cases would run into millions of dollars. In one case cited, the replacement cost of the records of one large company is figured at \$4,000,000, which is more than seven per cent of the total capitalization of the company, and which exceeds 20 per cent of the gross annual income of the company.

**School Elections Held.**  
MARSHFIELD, Ore. — A. S. Blanchard was elected school director in the Marshfield district over D. J. Buckingham, incumbent by a vote of 236 to 227, the largest vote in several years. The ballot of \$25,000 was passed and the board given power to vote a budget.

Patrons elected E. L. Davis director and Percy Zimmerman clerk of the board there; J. A. Gamble at Bandon, was elected over John Nelson by a majority of 140; P. G. Birch was re-elected director in the Hunter Hill district; Charles Dungan clerk in the Coast River consolidated district; Sylvester McGriff was named director and Mrs. M. A. McLaggon clerk in East Side.

**Goodyear Balloon Tires**

**They Don't Just Happen To Be Good**

You hear a lot about Goodyear Tires. They have a fine reputation all over the world. Did you ever stop to seriously figure out why they are so well thought of? You can't tell much about tires by merely looking at them. They all look pretty much alike. But you know, Goodyear tires don't just happen to be good. They are good for very definite reasons. Most of the reasons why Goodyear tires are good are due to patented processes—materials and methods not found in any other tires.

The All-Weather Tread, the Goodyear Bead, the remarkable new Cord materials—FUTHERWIST—the group ply construction—these and many other things are the reasons why more people ride on Goodyear tires than on any other kind.

And the beauty of it is—you can buy these superb, quality tires for no more, frequently less, than you pay for the general run of tires.

## Better Business Codes Attributed to Rotary

CLEVELAND, CAP)—With a trend of business toward better quality, better production and more simplified selling and transportation facilities, will come a demand for greater confidence among men who, knowing each other better, will become more friendly and then more honest.

Arthur H. Sapp, chairman of the committee on business methods, said in an address before Rotary International here.

"In the olden days standards were largely the result of religious philosophies, the taboos raised by governmental laws and statutes, and the struggles for territorial expansion and commercial advantage," Mr. Sapp declared. "These have been the impelling forces behind the ethics of personal, civic and business life throughout history. The idealism of Rotary is an expressed or unexpressed desire to improve all human relationships on a common basis of good will and understanding."

Codes of standards of correct practice have found a place in the program for higher standards of conduct.

business practice, and with far reaching results. More than 34 codes have been adopted by various craft and professional organizations in the last three years, largely as the result of our work. The code of correct practice is naturally the outgrowth of a trade association.

"Men everywhere recognize that the conditions under which business is conducted are going through a very rapid change."

"The only people who can afford to be perfectly candid are those who don't care whether they have any friends or not."

**Simple Mixture Best For Constipation**

Simple laxative bark, magnesium sulphate, glycerine, etc., as mixed in Adierka, is excellent for constipation. It often works in one hour or less and never grieves. The pleasant and quick action of this efficient intestinal evacuant will surprise you. Adierka helps any case gas on the stomach, unless due to deep-seated causes. Often removes matter you never thought was in your system. Silverthorn-Wright Drug Co.—Adv.
