## CAPITAL STOCK BLANKS MAILED

PORTLAND, Ore. (Special)—Capital stock tax blanks for the fiscal year beginning July 1, 1925 and ending June 30, 1926, have been mailed to taxpayers by Clyde G. Huntley, collector of internal revenue.

"There has been no change in the law," announced Collector Huntley, "and every corporation organized prior to June 30, 1925, must file a return during the month of July or incur penalties for delinquency. Even though no tax is due, it is necessary to file a return in July each year until the corporation is actually dissolved.

"For the convenience of taxpayers, blank returns have been mailed to all corporations, but in some instances the addresses of newly-organized companies cannot be located. Corporations not receiving blanks should communicate with the internal revenue office at once as the fact that no blanks are received is not considered a reasonable excuse for delinquency by the commissioner.

"Taxpayers may have the assistance of a deputy collector in preparing their returns if they will call at my office in the custom house."

The road to success is fast becoming lined with advertising.

### Stewart Declares Big Tariff Fight Due Soon

(Continued from Page One.)  
by the Wall street publication aren't to be sneezed at.

If they've set their hearts on tariff reduction, though they may not get it, the ultra-protectionists will know they've been in a first-class row by the time it's ended.

The bankers' idea is easy enough to understand. When President Harding took office and the Republicans had everything their own way, a traditional protectionists first act was to put the tariff way up.

There was some talk at the time to the effect that this was going to make it hard for Europe to pay her debts to America—she hadn't the money and the tariff wall would prevent her from paying in goods.

Still, the manufacturers wanted it, the farmers thought they did and the bankers evidently resolved to give it a trial without kicking much.

Now, however, clearly they've made up their minds that it's failed.

"They've received practically no interest," he says, "nothing of principal, from any of their old world debitors except England and lately even the British have begun intimating that they can't keep it up indefinitely on the present basis.

The tariff, while tremendously important, generally is a dry, dreary, technical subject, but there ought to be some real thrills in a battle over it, with "high finance" on one side, an challenger, and "big business" in the role of title-holder, on the other.

The commissioners considered it advantageous to impose of the entire block of bonds at present. Several reasons were advanced why this step would be the best rather than the sale of the bonds as the money is needed. Plans are being made to place the funds that will not be needed until the improvements are well along so that this sum will bear interest, which will assist materially in paying of interest on the entire block of bonds.

### REIGN OF "PAREE" IS USHERED IN

(Continued from Page One.)  
laid with the car in which the others were coming from Eugene. The orchestra is here in full force today and will start the dance promptly this evening following the stage dancing. From the quality of the music the men furnished last evening the Fi-la Pipers should be popular with the local dancers.

"Value Received."  
Unlike many shows of the same

variety "Yankee Parade" gives the patrons value received for the money spent. It was the intention of the Legion men when putting on the show to have the gifts on the games of standard quality rather than of the show variety.

Thus the turn of the wheel may give a man a genuine Poulton Indian Robe or other useful article. The doll racks, the old-fashioned country store, the candy booths, and the blanket racks all proved very popular and many of the patrons of the show went out loaded with gifts.

Although a large crowd was in attendance last evening a larger one is expected this evening with the final window Saturday night. The American Legion has announced that any proceeds above the amount necessary to send the drum corps to the state convention at Prineville will be contributed toward the armory fund.
