Charming Contralto to Appear Here in Recital
(Continued from Page One.)
Miss Price thought it quite fine in its place but remarked that she soon tired of it while the really good music carried with it endless enjoyment.

Incidentally Mrs. Price's eldest son, 16 years old, is becoming quite a jazz band player—and his mother is very proud of him and encourages him to the extent of singing while he plays accompaniments at times in their home in Portland. Her other son, Robert, 12 years old is to take jazz piano lessons this year.

Speaking of her program to be given here tomorrow evening Mrs. Price said, "I feel that it will be a good summer program, not too heavy but of the sort to give the greatest enjoyment."

Asked what sort of songs she liked to sing Mrs. Price said she liked to sing those she would like to divide each of her programs into three parts, the songs that she thought she would like to sing herself and the songs that she knew the people would like.

Many of her songs tomorrow evening will come under the latter classification. In response to a special request Mrs. Moore has consented to sing a group of heart songs including "Love's Old Sweet Song," "My Old Kentucky Home," "Bonnie," "Love's in My Heart" and "Gypsy Love Song."

Home from Portland—Mrs. G. J. Price and daughter, Veda, returned to their home here this morning after several days spent in Portland.

Returned home—After the past two months spent in Pendleton, Heppner and other points in that section, A. Larson returned to his home at Enterprise this morning on the branch line train.

Called in Cambridge—Mrs. Alice McClain and Mrs. N. E. Beaudoin, of Joseph, returned to their home this morning after several days spent at Cambridge, Idaho. They were called to Idaho by the sudden illness of Mrs. McClain's daughter.

To visit here—Miss Evelyn Thornburg went to Elgin this morning to spend several days visiting there with relatives. She will accompany them to La Grande in a few days for a visit with her father here for some time before returning to Portland, and where she now makes her home.

Leave in morning—The members of the American Legion Drums corps will leave La Grande tomorrow morning for Prineville, to attend the State American Legion convention there Thursday, Friday and Saturday. The men will go in private cars. About five cars are planning to make the trip, taking twenty-three men.

RESORT IN MIDST OF BIG SEASON
(Continued from Page One.)
erection of 12 new cabins—one and two-bed varieties, and five of these will be completed by the fourth. These also have been spoken for.

Dances Popular.
The Saturday night dances are proving very popular and, with a La Grande orchestra contracted for the season, from 80 to 100 couples attend each Saturday evening from Wallawa county, the resort and La Grande.

The trails above the lake leading into the lake basin are opening up and the management plans to start the special parties, to last from one to five days, commencing fishing with scenic attractions within a short time. The company owns 25 head of horses which will be used for packing and riding on these trips. Competent guides will accompany the parties.

Fishing Starts.
A week ago Sunday some Standard Oil officials from San Francisco and Walla Walla went back to Ice Lake and had to dig through two feet of snow and then cut through two feet of ice before reaching water. Then, for their efforts, they caught three trout.

Ice Lake is open now, however, and Saturday a party went to the lake fishing and got the limit of basket-size trout in a very short while. The fourth of July will be the signal for the starting of fishing in earnest and the regular trips back into the mountains.

New Boats on Lake.
The company already has 17 new boats on the lake for general use and other improvements are being made throughout the resort as funds permit. Building will probably go on throughout the season.

A playground for the kiddies, on the old camping ground site, equipped with swings, teeters and sand boxes, has been completed.

German Millions Go Up in Smoke
BERLIN (AP).—Statistics compiled by the Tobacco Dealers' Association show that during the last year Germans smoked 8,500,000,000 cigars and 23,000,000,000 cigarettes. These cost the smokers a total of \$485,000,000.

FOREIGN TRADE OUTLOOK GOOD

(Continued from Page One.)

advantage over all others. He has a market of enormous capacity at home, almost always capable of absorbing the chief part of his output, thereby enabling him to reduce unit cost through increased production. The constantly mounting sums spent yearly in this country for luxuries and trivials, testify to the extraordinarily rapid increase of wealth here. Based on this home market our manufacturers are well justified in looking abroad for fields, the supplying of which will enable them to produce more than they can expect to sell at home. Naturally they seek first for those foreign markets to which their products are likely to appeal, and which have the buying power to take them. In most cases Europe has been our chief foreign buyer.

Europe Big Purchaser.
"There is an impression widely prevalent among Americans that Europe has been a purchaser only of our raw materials but even a casual examination of the detailed government reports will show that Europe is a heavy purchaser of a great range of manufactured articles and luxuries, as well as of raw materials and agricultural products."

"Europe will in the nature of things retain a portion of her former trade in neutral markets as soon as industry becomes reconstructed in the nations of that continent."

"Europe is steadily growing into a better condition. The Russian experiment with communism is still slowly working out its disastrous course, but in practically all other countries, with the possible exception of Great Britain, where unemployment continues to be a serious problem, the improvement is marked. In Italy, France, Belgium and Germany, unemployment is practically negligible."

"The elements which enter of necessity into consideration of the immediate future of our foreign trade are numerous," said Mr. Farrell in conclusion, "but when we hear, as we not infrequently do in these days, one or another of our friends or associates speaking of depression in foreign trade, it is well to consider whether he is voicing a personal or a common feeling, whether he is describing an individual or a general condition."

"In the long view, however, I think we have many reasons for confidence. Chief among them is

the fact that the whole world is growing. Its production is increasing, and that means increased buying power. International trade grows as the world grows, and we may reasonably count upon getting our share. Such, in brief, is the situation facing our foreign trade; it is one of hopefulness and we should look forward to it as an increasing element in the prosperity of our country."

GOSSETT TO MANAGE TEAM

interference except for supervision by the board.
The new manager has made no announcements in regard to the lineup to be used against Pendleton next Sunday but it is understood that several new bull players will be in action. A list of names was turned in to the league secretary the first of the week and the men will be picked from this list in order to comply with the eligibility rules.

EUROPEANS KILLED BY AGITATORS
(Continued from Page One.)
success or failure of these demonstrations will materially affect the general situation.

AGITATION SPREADING WASHINGTON (By the Associated Press).—The spread of anti-foreign agitation to Amoy is reported to the state department today by Consul Webber. The consular corps requested naval protection as Chinese authorities are unable to guarantee life and property.

UMATILLA WHEAT FINE
PENDLETON, Ore.—Umatilla county will harvest a wheat crop of about 5,000,000 bushels, according to Henry W. Collins, grain man, who has just completed a survey of the county.
Last year the county raised less than 4,000,000 bushels of wheat, and in 1923, when there was considerable carryover, the crop was estimated at 7,000,000.

"Umatilla county has more barley acreage this year than for many years," said Mr. Collins. "Many farmers after the freeze last winter sowed their land to barley, with the result that there will be about 10,000 tons this year as compared with 2000 tons last year."

Obituary

JOHN A. McNEILL.
John A. McNeill, 63 years of age, passed away at his home in La Grande at 9:25 o'clock June 23, 1925, after a lingering illness. The funeral will be held at the Cove M. E. church June 25 at 10:30 o'clock.

COOKING SCHOOL IS ANNOUNCED
(Continued from Page One.)
Winkell will have a breakfast, luncheon and dinner menu scheduled for each afternoon of the school and will prepare the various dishes as she conducts the school. She will use a Westinghouse electric range throughout the five day period. Food products prepared will be local and Oregon brands wherever possible will be used and will aid in demonstrating the quality and dependability of things produced in our own territory.

The Observer's school will be absolutely free of charge throughout its five-day course and every housewife (and husband, too) in the La Grande territory is invited to attend the program each afternoon. The room will be kept cool and comfortable with a battery of fans in constant operation. Additional attractions will be provided in the form of various attendance prizes to be given away free each day of the school. Prizes have not been completed but will include home furnishings and food products of local value.

Special refreshments will be served the last day of the school, Saturday July 11th, and special prizes will also be given that day. Every effort will be made on the part of The Observer to provide an interesting and profitable week for

the women of the community. Further announcements regarding the school and each day's program will be published in later issues.
