HOSPITAL HIT BY BOLT.—PENDLETON, Ore.—Damage of approximately \$1200 was caused during an electrical storm at the state hospital, west of Pendleton, when several transformers were burned out as a result of a bolt of lightning. The heaviest loss was suffered by the Pacific Power & Light company. Some damage was also done to the hospital transformer house by a fire that burned after the lightning struck.

Temporary small transformers were installed today for use until larger ones can be obtained from Portland.

Urges Patronage of Neighborhood Stores

CHICAGO (AP)—Believing that national prosperity depends upon local property and that every town's progress rests on the development of its civic and commercial interests, the Local Loyalty League of America, with headquarters here, has inaugurated a movement to stimulate a hearty trade-at-home community spirit throughout the country.
Twenty nationally known manufacturers, constituting some of the largest newspaper advertisers, have pledged their cooperation.
Material for the program included newspaper, editorials and newspaper advertising, a motion picture production entitled "My Home Town," featuring a popular juvenile movie star, essay contests, billboard posters and radio-casting.
"A community is only as good as its citizens make it, and business is the cornerstone on which the community structure stands," said a statement. "Business depression, brought about by buying from mail order catalogues and peddlers and frequent shopping elsewhere, has ruined many towns. We desire to combat that and develop a trade-at-home spirit."

Workers on Cathedral Unite in Earnest Prayer

NEW YORK (AP).—The Lord's Prayer was recited in half a dozen tongues when nearly 100 stonemasons and laborers in work clothes joined with contractors and clergy in a prayer service at the Cathedral of St. John the Divine, before laying the first stone for interior walls of the nave recently.

The service was requested by the men themselves, according to Bishop William T. Manning, who in full episcopal robes, conducted it in the open air on the nave foundation near the south wall.
No tradition of the men's crafts was involved, Bishop Manning said. The request came from their spontaneous feeling of the special and sacred character of the work they are doing in raising one of the great cathedrals of the world.

The small hard-headed congregation contained sons of various faiths as well as races. When the bishop asked them before returning to their respective jobs to repeat the famous prayer of the Savior in unison it was uncertain to what extent they could respond.

They responded unanimously, it was observed. Anglo-Saxon voices were joined by French, Latin by German. Those whose memory or understanding faltered caught the pace from stonemason leaders. It was on the rise just above 10th street but in the occasional scene carried back to the coronation days of St. Peter's, Tours, Cologne, Rheims and other renowned medieval cathedrals.

Bishop Manning said the unusual blessing the guilds had sought for their work was in harmony with the interest organized labor as a whole had shown from the outset in the erection of the great edifice.

Men are becoming so efficient. One slapped a St. Louis motorman.
