## Sargent's Brother Made Good; Followed Advice

(Continued from Page One.)

Sargent had was just a clerkship."

* * *

"Well, what happened to that firm? Inside a year the junior member, A. F. Call, broke down physically and had to retire. Young Sargent, having shown much promise and being right handy, was boosted immediately into the junior partnership.

"A few months later Craig L. Wright, the senior member, died suddenly and Sargent inherited the entire practice. It included the legal representation of the Chicago & Northwestern railroad in his territory.

"You never saw anybody rise so fast. Now Fred is vice president and general counsel of the whole Northwestern system."

* * *

Quick would have grinned, had he lived another month or two, to see Fred W. Sargent stepping, as he has just done, into the presidency of the Chicago & Northwestern and Chicago, St. Paul, Minneapolis & Omaha railroads.

## YIELD CUT 10 PERCENT IN COUNTY

(Continued from Page One.)

weather as most of it is nearly ripe, reports state.

Wallowa county is apparently faring better than the Grande Ronde valley as news dispatches from Wallowa yesterday indicate that farmers are preparing to harvest the best crop since 1915.

## WESTERN RANGES IN GOOD SHAPE

(Continued from Page One.)

parts of Texas, New Mexico and Colorado. Arizona, northern and western New Mexico received sufficient rain late in June to give the feed a good start.

Cattle are generally in very good shape in all the range country except Texas and the southwest. In the intermountain and coast sections, cattle are in fine shape where thin last year. Montana, Wyoming and the western sections of the Dakotas report cattle in fine shape and are making rapid gains with prospects that grass fat cattle will be ready early. In the southwest and Texas, cattle are only in fair condition and there has been a heavy movement to better feed.

Sheep in all of the range country except in Arizona, Texas and New Mexico are in very fine shape. In the southwest, sheep are in fair condition and there has been some loss of lambs. In Montana and Wyoming, lambs are making good gains and will be fat early. The early lambs of Idaho, Oregon and Washington have been unusually good, and shipments to markets are heavy.

**Condition July 1**

Condition of ranges in the far western states July 1 follow: (100 normal): Montana, 105; Washington, 94; Oregon, 105; Idaho, 110; Utah, 97; Nevada, 103; Arizona, 70; California, 95.

Details by states follow:

California—Range and hay conditions very good. Cattle and sheep continue in very good condition. Cattle prices showed a further slump during June.

Washington—Cattle and sheep are doing very well and both improved in condition during the month of June. Summer ranges generally are very good. Some localities report ranges becoming a little dry and rain is needed, but the outlook for summer feed is, on the whole, much better than last season.

Oregon—Ranges and farm pastures are in excellent condition for this time of the year. Cattle and sheep are in fine shape. The wool clip is lighter than usual.

Idaho.—Condition of cattle, sheep and ranges continue excellent. All stock on higher ranges where feed and water supplies are excellent. Sheep are trailing to railroads to load lambs. Market shipment of lambs continue heavy, lambs are in unusually good shape.

## Markets

**PORTLAND MARKETS**

PORTLAND, Ore. (AP) — Livestock steady. Eggs and butterfat unchanged, butter 58c here today.

**BUTTERFAT.**

SAN FRANCISCO (AP) — Butterfat 53½ here today.

**REPORTS OF AGENCIES.**
**Bradstreet's.**

NEW YORK (AP).—Bradstreet's today says:

"Mid-summer conditions and the desire to await developments among the later sown crops make for a certain degree of quiet, but most of the usual measures point to a fully fair volume of business doing in the respect occupying a sort of middle ground between the fall activities of last autumn and the depressed conditions of last year at this time. Despite the very high temperatures ruling in the mid-western country and in fact benefited to a certain extent by the full measure of stimulation thereby given them summer apparel is enjoying a good sale, this necessitating a good fill-in trade from jobbers. Industry, except possibly building lines, shows a natural quieting, but here the spottiness of buying is perhaps best illustrated by the capacity operations in cement production and shipment and the active operations at silk mills, set over against which is the 60 to 75 per cent of capacity operations in the iron and steel, as against the 45 to 50 per cent operations of a year ago.

"Weekly bank clearings, $9,337,692,000."

**PORTLAND GRAIN MARKET**

PORTLAND, Ore. (AP).—Wheat—Hard white B. S. Baart, July, $1.46; August, $1.46; soft white, July, $1.46; August, $1.45; western white, July, $1.45; August, $1.42; hard winter, July, $1.45; August, $1.45; northern spring, July, $1.39; August, $138; western red, July, $1.38; August, $1.40; HRW, hard white, July, $1.50; August, $1.50.

Oats—No quotations.

Corn—No. 3 yellow, July $47.50; August, $47.50.

**MARKETS AT A GLANCE.**

NEW YORK (AP). — Stocks—Firm; Mack Truck and mail order issues at new highs.

Bonds—Steady; convertible oil liens active.

Foreign exchange—Mixed; Danish kroner advances on loan report.

Cotton—Weak; improved eastern belt weather.

Sugar—Steady unfavorable European crop news.

Coffee—Lower; Brazilian selling.

CHICAGO (AP). — Wheat—Strong; damage news from northwest.

Corn—Steady; in sympathy with wheat.

Cattle—Dull.

Hogs—Lower.

**FEARLESS LEGION ASKED**

PENDLETON, Ore.—The tendency of the American Legion in the future should be toward taking the offensive in matters of public interest, according to an opinion expressed by Father Joseph Lonergan, national chaplain of the veterans' organization, who is in Pendleton as the guest of his brother, Pat Lonergan.

"The Legion can be of more service to the community, state and nation by asserting itself more fearlessly and frequently on public policies and actions," Father Lonergan declared. "If the best individuals and the best moral forces run away from politics the nation is doomed."

## REALTORS AFTER 1926 CONVENTION

(Continued from Page One.)

remaining in 24-hour action for two days.

**La Grande Noticed**

Bellingham, Portland, Spokane and Seattle papers are already publishing articles about the part La Garnde is going to play in the convention. Advices from Bellingham say that the coming of the quartet for two days of the program is one of the big drawing features and inquiries are coming to the headquarters in this town: "Is that La Grande quartet sure comings?" And the answer goes forth, "Indeed they are, and for two days of the convention."

**A Real Benefit**

Local realtors are especialy eager to procure the 1926 convention because of the great amount of advertising and real benefit that will be the result. Real estate men from British Columbia, Montana, Idaho, Oregon and Washington will be in attendance—men who make it their business to know whether a valley or territory is attractive to settlers. And, after viewing La Grande and the surrounding valley local realtors feel sure that real estate men from all over the northwest will return home from a convention thoroughly sold to the value of this section. And that would mean that a large number of prospective settlers would be sent here from every real estate office in the northwest, realtors declare.

"Real estate men, when sure of the value of a territory are not hesitant in sending prospective settlers there," it is said, "and if La Grande can procure the convention, it will be one of the biggest things that has happened here for many years from a land settlement and advertising angle."

**Biography of Lincoln in German Favorably Received in Berlin**

BERLIN (AP)—One of the latest publications on the German book market is a biography of Abraham Lincoln in German. Hitherto only the German translation of the Carl Schurz sketch of Abraham Lincoln's life existed. The author of the German work is Count Albrecht Montgelas.

The book has met with a favorable reception by the press. Reviewing it the Vossische Zeitung says: "Despite the obvious thoroughness of Count Montgelas' investigations and research work among the mass of existing Lincoln biographies, his book reads like an interesting short story." Another paper states: "Even among educated Germans, there are not many who fully realize Lincoln's historical importance."

**Baseball Proves Best Money Making Sport in Philippines**

MANILA (AP)—That baseball is the most popular sport in the Philippine Islands was indicated when the total receipts at the Far Eastern Olympic games became known recently. The receipts at the six baseball games played among the Philippines, Japan and China amounted to $9,980, while football drew the next largest attendance, the total receipts for that sport being $3961. The total receipts for all the events amounted to $26,180.

It was explained that the receipts from the track and field events, which amounted to only $3780, probably would have been much larger, had not Japan's athletes walked off the field as a protest against the disqualification of one of her runners for fouling on the second day of the meet.

**TWO WOMEN BANDITS GIVEN PRISON TERMS**

CHICAGO (AP)—Women bandits get no special consideration in Chicago's criminal court.

"A woman bandit is no better than a man," said Chief Justice Hopkins in passing sentence of one to 10 years in the penitentiary on two girls, 17 and 18, arraigned for robbing taxicab drivers.

## OPERATIONS OF COMPANY MOVE AHEAD

(Continued from Page One.)

are employed at the mill, 180 in the woods and the total payroll is $55,000 per month.

At present the logging operations are centered about 25 miles north of Enterprise.

**Large Resources.**

The company now owns approximately 250 million feet of timber which insures itself a long run for the mill. Besides this the company has access to an additional 150 million feet of government timber.

Only recently, in order to reduce the stock of lumber piled in the yards, the planer and shipping departments began working double shift, and this gives employment to many extra men. A morning shift goes on at 6 a. m. and works until 3 p. m., and an afternoon shift follows up at 3:30 p. m. and stays on the job until 11:30 p. m.

The stack yard is so full of lumber that there is little piling space, and more room must be provided to take the output of the mill, while the stock in the dry storage sheds has been depleted. The present activity is for the purpose of establishing a better balance, while continuing heavy shipments, and it employs many young men.

**Headquarters in Kansas City**

The headquarters of the East Oregon Lumber company are in Kansas City, Missouri. H. C. Campbell, of Kansas City, is president and R. J. Campbell, of Enterprise, is vice president and resident manager.

A party of leading bankers and financiers of Kansas City are scheduled to be in Enterprise today. Included in the party are President Campbell, W. J. Ferry, J. H. Russell, Charles Kemper, C. S. Keith, president of the Central Coal & Coke company and a director in the East Oregon Lumber company, H. C. Flower, chairman of the board of directors of the Fidelity National Bank and Trust company of Kansas City, H. C. Abernathy, vice president of the First National Bank of Kansas City and C. J. Carter, president of the C. J. Carter Lumber company. The executives are coming west on a trip of inspection with the Veronia property of the Oregon-American Lumber company as a particular objective.

## FOUR HEAT DEATHS IN CALIFORNIA

(Continued from Page One.)

ings of the Anderson and Middleton Lumber company and timber along Culp creek, in the Cottage Grove district were seriously threatened today by a forest fire which started yesterday when a charge of dynamite ignited stashings.

Fire fighters by quick work saved the Anderson and Middleton camp last night. Seventy-five men are fighting the flames.
