Maccabees Will Hold Convention in Capital

WASHINGTON (AP)—Ten thousand members of the fraternal order of the Maccabees will assemble here Monday for the four days quadrennial convention of the order, according to advance registration received at Maccabee's headquarters here.

An outstanding feature of the convention is that virtually all the 10,000 delegates are expected to arrive by automobile. During the past year the fraternal order has been preparing an international automobile caravan to bring its members to the convention over the motor highways from every part of the United States and Canada. More than 2,500 automobiles are registered for the caravan. They will take part in a parade July 20, which with its allegorical floats and bands in motor cars is expected to be the largest automobile parade ever known.

On the evening of July 20 will be the largest class initiation ever celebrated by a fraternal body, 5,000 candidates being taken into the order at once. At this convention women members for the first time will take part in the activities of the Maccabees, the order having thrown open its doors to women June 1, with the installation of Martha Washington High No. 1 in Washington. The 200,000 members of the order are divided into three, there being 4,000 in all parts of the United States and Canada.

On Friday, July 24, the convention will adjourn to Chatham, Pa., to inspect the International Home and Hotel Association for orphans and aged members of the order.

Scheme for Improving Artillery Fire Devised

HONOLULU (AP)—A scheme for taking ballistic wind, to be used in correcting the ranges of guns in night firing, has been devised by Major John H. Hood, of the 15th coast artillery at Fort Kamehameha here, and is appointed to have passed successful tests in improving the accuracy and precision of fire.

Portable searchlights, capable of revolving both vertically and horizontally, were trained on a pilot ascension balloon 26 inches in diameter as it rose. The speed and direction were computed, as is done at the meteorological station during the day. This is said to have been the first time the idea of tracking a small balloon at night had been tried.

The experiment was carried out successfully by the operator of the light the first time and without field glasses. Atmospheric conditions were adverse, with low clouds and a heavy wind velocity, nevertheless the balloon was tracked for 1,500 yards. Military experts said that with better equipment it could be tracked as high as 3,000 yards.

And if a gold fish had false teeth yet could kick him out the door for chewing your slippers.

Maybe you could outfit a gold fish with a set of false teeth and teach him to catch rats.

Pretty Peggy

This is the time of year when the beauty contest flourishes, so here's the result of another. This one is Miss Peggy Cogswell, the prettiest girl in Olympia, Wash.

Sister Mary Says:

Breakfast—Orange juice, scrambled eggs with rice, lean muffins, milk, coffee.

Luncheon—Sweetbread loaf, toasted muffins, orange marmalade, milk, tea.

Dinner—Halibut steaks, stuffed and baked, rice with tomatoes, buttered beets, cucumber salad, sliced peaches, cake, whole wheat bread, milk, coffee.

Juniors under six years of age will not be served the stuffing in the fish, the cucumber salad nor the peaches. If the cake is a plain variety a small piece may be served them with stewed fruit.

Sweetbread Loaf
One pair sweetbreads, 1 pound lean veal, 1 egg, 1-3 teaspoon pepper, 1 teaspoon salt, 1 cup cracker crumbs, 1 cup dried pineapple, 2 cup butter.

Cook and blanch sweetbreads and mince. Put veal through fine knife of food chopper. Mix meat thoroughly. Add seasoning and pineapple, cracker crumbs and half the butter melted. Stir in egg well beaten. Form into a loaf, dredge with sifted cracker crumbs, dot with butter and bake in a moderately hot oven until crumbs are brown. Baste frequently with melted butter while baking. Serve with cream sauce.

PET SNAKE GETS AESTHIAN INTO COURT AND OUT AGAIN

VIENNA (AP)—The love of Franz Gleb, the actor, for snakes was responsible for getting him into court recently. One of his pets, a boa constrictor, caused much worry and fright to neighbors as it lay basking in the sunshine in front of the actor's home. Summoned to court, he packed his pet in a suitcase.

When he arrived in court he unwound the coils and deposited his writhing burden on the board before the judge. The snake began to manifest an unusual interest in the prosecuting attorney, at whom it stared persistently though not unkindly. The owner took it up and wound it around his neck to demonstrate the perfect gentleness of the reptile. The court approved and released the actor with his pet, especially as the director of the zoo testified to the unvenomous nature of the snake.
