

NEWS of SOCIETY

Announcement was received in La Grande yesterday of the marriage of Miss Audrey Harer, daughter of Mr. and Mrs. W. R. Harer, of this city, to Robert Frederick Lane, of Seattle, Washington. Miss Harer is a graduate of the La Grande high school and has been attending the University of Oregon for the past three years. She is a member of the Oregon Club, a society for girls at the university. Mr. Lane is a member of the University and is a member of two honorary fraternities. They will take a short trip to the coast and return to the university this fall to resume their studies.

An enjoyable evening was spent at the home of Mrs. Lennie Wright last evening commencing Mrs. Ernest Vehr's. During the evening Miss Frederike Schilke delighted the guests with several beautiful vocal numbers. Mrs. Vehr's little daughter, Betty May, dressed as a wee French maid, in a dainty crepe paper costume, served the delicious refreshments. The guest of honor was presented with a corsage of sweet peas. A tiny bouquet of sweet peas was also presented to each guest.

UNION. (Special)—A number of girl friends of Miss Whitford Halsey gathered at her home Wednesday afternoon to help her celebrate her fourteenth birthday anniversary. Games were enjoyed, after which luncheon was served.

Dane Critchies Government For Privilege to MacMillan COPENHAGEN (AP).—The Danish explorer, Peter Freuchen, launches a violent newspaper attack on the Danish government for permitting the American explorer, MacMillan, to search the ruins of Viking homesteads in Greenland on terms hitherto reserved to highly reputed Danish explorers.

Freuchen winds up his attack by saying that while Amundsen remained unheard from, any attempt at saving him—even by MacMillan—might have been tolerated, but that Amundsen is safe there is no reason to grant MacMillan any facilities.

New Cape

The cape that is most favored by fashion is not the large, circular affair of former years, but a section rather, as this one is. It gives an excellent line to the back of a coat, but does not jeopardize the slender line of the youthful effect.

Sister Mary Says:

Breakfast—Chilled cantaloupe, cereal, thin cream, plain omelet, crisp graham toast, milk, coffee.
Luncheon—Tunalet of carrots, lettuce sandwiches, apple sauce, molasses cookies, milk, tea.
Dinner—Fillet of sole, tartar sauce, creamed potatoes, buttered string beans, shredded cabbage and pineapple salad, blueberry purf, whole wheat bread, milk, coffee.

A child under six years of age should not be allowed to eat the luncheon suggested for breakfast nor the tartar sauce with the fish. A dessert of stewed fruit and plain cookies is more suitable than the blueberry purf but half a "puff" served with plain cream will not hurt a normal child of four years.

Breakfast—Stewed prunes, cereal, thin cream, crisp graham toast, milk, coffee.
Luncheon—Baked salmon salad, cucumber sauce, rye bread, tapioca cream pudding, milk, tea.
Dinner—Tomato puree, croquettes rice with green peas au gratin, hard-cooked eggs and watercress salad, red raspberry blanc-mange, sunshine cake, whole wheat bread, milk, coffee.

Although the cucumber sauce is not suitable for the junior members of a family the sauce is so good that the recipe is included. With this exception there are no dishes suggested that may not be served to a child four years of age.

No meat is planned in the dinner menu, the eggs in the salad and the cheese in the rice and pea dish making up the deficiency.

Cucumber Sauce
One cup chopped cucumber, 1-2 teaspoon salt, 1 teaspoon minced parsley, 1 tablespoon vinegar, 2-4 cup whipping cream.
Let cucumber stand in ice water for two hours. Pare and chop very finely. Add salt, parsley and vinegar. Mix well and keep very cold while whipping cream. Whip cream until stiff and combine with cucumber just before serving.

CHICAGO WILL GAIN ACREAGE

CHICAGO (AP)—The reclaiming of land along a seven-mile stretch of Chicago's lake front, one of the greatest projects known to modern engineering, will add 1500 acres of park and boulevard drive to the lake side at a cost of approximately \$100,000,000.

The projected plans call for the actual building up by dredging from the lake and filling in with soil and refuse from the city of 30,000,000 cubic yards of front. The city itself extends for 26 miles along the western shore of Lake Michigan.

The filling in is being carried on at the rate of 10,000 cubic yards a day. A fleet of trucks, three dredges and a score of barges are doing the work. In the last year, 29,554 feet of bulkhead also has been constructed.

The first step in the process was the construction of an outer and inner bulkhead of piles and timbers at a distance ranging from one-quarter to three-quarters of a mile from shore. The water enclosed was gradually displaced. Dredges are removing the shallow lake bottom outside of the bulkheads and throwing the sand inside. About 38 per cent of the filling will be accomplished in this manner. Soil and refuse from the city will compose 29 per cent.

Between the present lake front and the inner bulkhead, lagoons have been formed. When the project is completed, the lake front will consist of a series of narrow islands running parallel to the present shore and connected by bridges.

Sixteen concrete bridges will be constructed, spanning the lagoons and the tracks of the Illinois Central railroad, which has its right of way along the shore line. Ultimately these tracks will be completely covered and will be run through a subway. Twenty-five miles of boulevard will be built along the reclaimed land, two of which will parallel Michigan boulevard. The bridges, which will connect the outer bulkhead with all cross streets, will range in cost from \$250,000 to nearly \$1,000,000.

More than two million cubic yards of fill from the dredges have been deposited within the bulkheads and 750,000 cubic yards have been contributed from various excavations in the city. Five million dollars were spent in this operation last year.

The work is done entirely by contract and is financed by bond issue. Two issues of \$5,000,000 and \$15,000,000 each have been authorized, of which amount \$12,500,000 have been issued, sold and the money spent.

It is estimated by Chief Engineer Lynn White of the South Park commission, which has charge of operation, that if the present rate of progress can be maintained, the lake front as outlined should be completed in from ten to twelve years.

PRESBYTERIAN CHURCH—"The government of a country never gets ahead of the religion of a country. There is no way by which we can substitute the authority of law for the virtue of man," said President Coolidge in a recent address. The church has that divine mission to cultivate the virtue of man and without the church there is a lack. It is our endeavor to assist in the religion of our country. To that end we offer tomorrow the following opportunities: Sunday School at 9:45 with classes for all and a most happy hour of fellowship. The morning worship at 11, at which time Miss Frederike Schilke will be the soloist and the minister will bring the message. The Christian Endeavor at 7 will continue the echo meeting from Portland with

Miss Dean Gabel as leader. All the young folks and others are urged to hear these reports. These privileges will allow us to know the Master better and to more nearly live His life. This church most cordially invites all to unite with us in fellowship and faith.—Wm. Crosby, Tron, Minister.

FIRST METHODIST EPISCOPAL CHURCH—The people who attend the services at 8:00 p. m. have a musical treat in store for them. Mrs. Kinnman will render the following on the pipe organ: "At Sunset" by Gatte Spilars and "Salve d'Amour" by Elgar. Mrs. A. L. Richardson will give two solos entitled "How beautiful upon the Mountains" by Barba and "The Earth is the Lord's" by Lynde. In addition to these numbers the congregation will join in recital of the great hymns of the church. The pastor will speak briefly on the question of "The Democracy of Service."

At the 12:30 o'clock hour the pastor will give the second sermon in the series on the general theme, "Gods Ideal for all."

The church school will convene at 9:45 for the grades to the Senior. The Forum meets at 10:00 a. m.
The general public will read a royal welcome.

Burial of Italy's King To Be Preserved Empty NAPLES (AP).—After much discussion as to the best way of preserving for posterity the room here in which King Victor Emmanuel III was born, Minister of

TEN THOUSAND ATLANTA people signed a petition to have Belle Bennett, Hollywood film star, return to the stage at Atlanta. Here is Belle with a part of the petition.

Public Instruction Paolo, after consulting Benedetto Croce, noted Italian philosopher, had decided to leave it entirely empty, except for a marble tablet in the middle of the room to record the event.
It was first proposed to restore the room to its original appearance at the time the king was born, then there was a plan to fill it with relics excavated from the ancient city of Herculaneum, but both these suggestions were abandoned.
