La Grande Theatres

"Lady of the Night" Is Vivid Picture of American Life.

week at the Arcade theater in her latest First National attraction, "The Desert Flower."

The picture, an adaptation of the stage offering of the same name, recently presented in New York by Al Woods, trends with the action and color of Western life. It presents Miss Moore in the pathetically poignant guise of little Margie Fortune, step-daughter of a brute of a step-father, section boss of a railroad construction gang on the desert, and whose inherent instincts for the better things of life seek to find expression through a baby sister, whom she sends away to enjoy the refinements of a real home and education, while she herself goes into a mining camp dance hall to provide the wherewithal of it all.

Monta Bell, with the cunning of a great director, has not allowed the drab scenes to go without their humor. He has dotted the story with human interest and kept it alive with action.

The plot follows the lives of two girls, born at almost the same hour. It shows the two worlds that dwell side by side, each with little knowledge, and less understanding, of the other.

The beautiful and talented Norma Shearer enacts the dual role of Florence and Moly with fine artistry. In the cast are Malcolm McGregor, George K. Arthur, Fred Emmett, Dale Fuller, Lew Harvey and Betty Morrissey.

Comedy showing "Mark It Paid."

Colleen Moore Will Be Shown Here as "Desert Flower."

Colleen Moore was never more delightful than she is revealed this week at the Arcade theater in her latest First National attraction, "The Desert Flower."

27 YEARS AGO

Eastern Oregon Observer, July 29, 1925—Mrs. Henderson is very sick at the home of her son-in-law Garret, Woodland.

More Killage had 60 acres of hay in the field Friday and received the benefit of the heavy shower. Leander Ferguson had 180 tons of hay out in Friday's rain but the damage will be only nominal. He grew over 500 tons last year but will exceed that amount this year. The price of hay this year will be much better than for several years. Not only the shortage in the California crop but the first time in many years all the old hay has been cleaned up this year. So with a good crop at advanced prices the hay growers are happy.

The male quartet assisted by P. E. Chandler gave an entertainment at Perry Friday evening. On account of the rain the attendance was not as large as expected. The following made up the party that went from La Grande: Mrs. Nelson, Misses Mae Stephens, Myrtle Aldrich, Cora Aldrich, Celia Martin, Belle Strickland and Mabel Williams, Messrs. Tom and Sherwood Williams, Ben Grandy, Webster Chandler and P. E. Chandler.

A. B. Conley purchased another large steam threshing machine last Saturday.

Mac Wood, of the Parcel store, and Bert Pattison, of Jay Brooks' store, accompanied by their wives, have returned from an outing at Beaver Creek meadows.

Frank Cannon, who raised 500 tons of hay on his Ladd creek farm last year is now busy putting up this season's crop. The big water spout did other people damage but it benefited the hay crops in that vicinity.

La Grande and Cove are now connected by a stage line and people desiring to spend a day in Cove or Cove people coming to La Grande need not go to the expense of hiring a heavy team, but can simply step into Mr. Bloom's stage and make the trip.

Laberers in the hay fields in the vicinity of North Powder are receiving \$1.50 per day.

Tests Made to Eliminate Juice Retaining in Sugar Manufacture.

HAVANA (AP)—Manufacture of standard granulated sugar direct from cane juice has been proved a commercial possibility, tests at Central Horeby, near Havana, indicate.

Milton S. Hershey, American chocolate manufacturer and owner of four sugar mills, Cuba for several years has been carrying on experiments seeking a system workable on a commercial scale which would eliminate the raw sugar stage of refining the cane sugar.

Last year a well known chemist and sugar expert carried on a series of experiments which, officials of the mill say, proved beyond doubt that direct manufacture of white sugar on a large scale can be accomplished at a cost which would compare with the present system.

A conservative estimate should be that lots of rent jars have home brew in them now.

Dentists Seek Recognition VIENNA (AP)—The recent International Congress of Dentists adopted a resolution asking authority for official recognition of the professional designation of "dentist." The resolution also urged all countries to give international legal recognition to dentists, so that a dentist of one country can have full legal rights to practice in any other country.

Other provisions sought legal recognition of dental courses of training, governmental guaranteed diplomas and the extension of health insurance to dentists.

Woman Weather Clerk Makes Reports Breezy

BUXTON, Eng. (AP)—The only woman weather clerk in England, Miss E. W. Pilkington, has grown tired of the official language of daily weather bulletins issued from headquarters, and has instituted a new departure, while pleasing the populace of the district, does not exactly meet with official approval. Miss Pilkington issues an up-to-date style in forecasting the weather, one of her latest readings:

"Temperature: There is an acute shortage of thermis in the district. Pressure: A steady, reliable worker. Winds: Oriental in character. Local trend: Overcast with happiness. Inference: We are qualifying for the final of the weather championship."

Another was worded: "Temperature: Every day in every way it grows warmer and warmer. Inference: All the weather factors are checked out in their finest garb. The spectre at the front is too shadowy to worry us."

Tokyo Plans Beautiful Street.

TOKYO (AP)—The Ginza Merchants' League has inaugurated a movement for improving and beautifying Ginza street, the Broadway of Japan's Capital.

It is planned to place the reconstruction work in the hands of an American contractor, the cost of the improvements being estimated at 60,000,000 yen. This sum it is hoped to raise by a loan in the United States under a government guarantee, with redemption provided for in 20 years.
