

Local News In Brief

Here shopping yesterday—
Mrs. Douglas Walker was among the Enterprise shoppers who were in La Grande yesterday.

To visit at North Powder—
Mrs. Georgia Barnes went to North Powder this morning, where she will visit for a few days.

Returned this morning—
Charles Playle, city commissioner, returned to La Grande this morning after a few days business trip to Portland.

Visiting in La Grande—
Miss Frances Mae Ferguson is spending a week in La Grande visiting at the home of her aunt, Mrs. George Clark.

Visiting here from Utah—
Mrs. Lesley Nabbutt, of Logan, Utah, is visiting in La Grande at the home of Mr. and Mrs. Elmer L. Stoddard. She expects to be here about ten days.

Returned to Portland—
After a month in La Grande visiting at the home of her sister, Mrs. Harley Richardson, Mrs. Evelyn Jacobs left this morning en route to her home in Portland.

Motored to Baker—
Mrs. Charles Waite, accompanied by her mother, Mrs. E. Lynn, motored to Baker Monday, where Mrs. Lynn went for medical treatment.

To study music—
Miss Isabelle Miller will leave this evening for Portland where she will study music for the next four weeks under Yeatman Griffith, of New York City, who will be in Portland during that time.

Home from Monmouth—
Miss Josephine Littlefield, passing through La Grande this morning on her way to her home at Monmouth. She has been attending the Oregon State Normal school at Monmouth since last fall.

Had operation—
Lou Harris underwent an operation yesterday at the Grande Ronde Hospital. He is reported getting along nicely this morning, although he will not be able to leave the hospital for about a week.

To visit sister—
Mrs. Charles G. Wells and small daughter, Ingeborg, went to Baker this morning on train No. 24. They will visit there for several days with Mrs. Wells' sister, Mrs. William Metcalf, who now makes Baker her home.

On camping trip—
Mrs. Wells, representative for the Designer magazine who has been at Hill's Department store for the past week in that interest, has completed her work here and left last evening for timber and other branch line points.

Returned from Portland—
Mrs. H. E. Watkins returned to her home here this morning after several days spent in Portland. While there Mrs. Watkins visited Mrs. W. S. Parker who has been confined to her bed for the past eight weeks with a broken hip. She says Mrs. Parker is much better and is now able to sit up some.

To visit sister here—
Mrs. W. E. Ferguson and daughter, Elizabeth, arrived in La Grande this morning and will visit at the home of Mr. and Mrs. Keeney here. Mrs. Ferguson and Mrs. Keeney are sisters. Mr. and Mrs. Ferguson formerly made La Grande their home but now live at Pendleton.

Left this morning—
Mrs. Edith Keckritz, accompanied by her mother, Mrs. Margaret Switzer, left this morning for Portland. From there Mrs. Keckritz will go to Canada where she will visit her sister, after which she will visit other Canadian points before returning to La Grande. She expects to be gone one month. Mrs. Switzer will return to La Grande sometime next week.

In route south—
Mr. and Mrs. H. B. Watkins arrived in La Grande today, en route south. They are on their way to visit relatives in and near La Grande for several days at the home of their son, H. E. Watkins. They came this far by auto, but will leave their car here and continue the trip by rail.

SCHOOL TO OPEN HERE ON SEPT. 14.

(Continued from Page One.)
It is expected that the new superintendent, Mr. J. D. Towler, will arrive in La Grande this morning. He is expected to arrive in La Grande this morning. He is expected to arrive in La Grande this morning. He is expected to arrive in La Grande this morning.

Worship in Washington
Any announcements regarding the high school are withheld pending the arrival of E. D. Towler, principal who has been speaking the summer in scientific research in Washington.

As to athletics
Comparatively little is available at this time. Mr. Longfellow has already expressed himself publicly as being in favor of athletics and other school activities of kindred nature. One thing the new superintendent is strongly in favor of is physical training for all school students. In a talk delivered before the Men's Forum of the Methodist Church some weeks ago Mr. Longfellow made the statement that he felt that competitive athletics should be the outgrowth of physical training.

Teacher MacFabbish
who has played the fife and whistles through two successful seasons is expected to coach again this year. MacFabbish is at present in Colorado but will probably arrive in La Grande about the first of September.

State Department Grows; More Rooms Needed in Capital
(Continued from Page One.)
The return of the peace brought some shrinkage in the army and navy departmental personnel, but by this time the State Department was making preparations at such a rate that the navy folk never did get back into the old building, nor any of the army crowd who had moved out.

And today the State Department
is clamoring for the space occupied even by these who remain. They have to go, too—to the Munitions Building, or if that would hold them all into a rented office, where they would be taken care of.

Great preparations are being made
at the other end of the line. Anticipating large crowds for the series the management at Caldwell are putting in seats at the Grande Park, where the games are to be played to accommodate 2,000 people.

Caldwell Team Fast.
The Caldwell team is rated as a fast outfit although evidently not able to keep up with the class of half played by the Baker team. The Colts measured the Magicians out for an 8 to 2 defeat a week or so ago.

Some of the La Grande fans
have made preparations to accompany the club on the Idaho invasion. The game on Friday will be called at 2:30 in order to accommodate business men and late arrivals and the Saturday and Sunday games are scheduled to start at three o'clock.

Volume of Building.
Volume of building construction has continued near record levels. June figures of value of building permits in 26 principal cities showed a smaller than seasonal increase as compared with figures for May, but were 38.8 per cent larger than the figures for June a year ago. During the first six months of 1925, the value of building permits issued in the 26 selected cities was larger than any during any half year of record, exceeding the previous peak figures of the last six months of 1923 by 6.4 per cent.

Production of lumber was largest
of the 4.2 per cent during June, 1925, than during May, 1925, a partly seasonal increase. As in May, reporting number milled of the district cut more lumber than they sold, but for the first six months of 1925 their reports show that production was slightly less than sales and shipments. Recent increases in demand for lumber are reflected in June figures of orders received and shipments made which were 2.8 per cent and 2.7 per cent larger, respectively.

Commercial Estimates.
Commercial estimates indicate that 1925 production of both canned and dried fruits will be larger in California, and slightly smaller in Oregon and Washington than the 1924 output, changes in the size of the pack reflecting similar changes in size of canning and drying fruit crops in each state. Markets for both canned and dried fruits have been relatively active during recent months, and fruit packing factors are entering upon the 1925 season with smaller carrying stocks than have been held during recent years.

Wool shearing has been completed
in this district, and preliminary commercial estimates indicate a total clip of 50,000,000 pounds, compared with 53,955,000 pounds produced in 1924. Growers have already sold a large proportion of the 1925 clip at prices ranging from 36 to 32 cents per pound, compared with 22 to 19 1/2 cents per pound received for the clip of 1924.

Value of sales at retail, as reported
by 22 department stores in seven principal cities of the district, declined 9.2 per cent during June, 1925, as compared with May, 1925. The decrease was less than that which normally occurs at this season of the year and this bank's index, when adjusted for normal seasonal movements, advanced from 145 (1919 monthly average—100) in May, 1925, to 147 in June, 1925. In June, 1924, it stood at 155. Total value of sales for the first six months of 1925 exceeded total value of sales for the first six months of 1924 by 1.2 per cent. Trade at wholesale during June, as reflected in reports received by this bank from 136 firms in eleven lines of business, was considerably more active than a year ago and relatively more active than in previous months of the present year. Compared with activity during June, 1924, the June, 1925, sales of these firms showed an increase of 15.8 per cent. Value of sales in all lines, except groceries, being greater than a year ago. This is by far the largest increase in any month of this year as compared with the corresponding month of 1924, the figure for May being 8.2 per cent and for April and March, 1.86 and 2 per cent, respectively. During the first six months of 1925 total sales of reporting firms were 25 per cent larger in value than during the first six months of 1924.

Trend of Prices.
The trend of prices during the past month has been upward. The index of Lumber Statistics, which is a number of prices of 494 commodities at wholesale (1913 prices—100) increased from 135 for May, the low point thus far in 1925, to 137 in June. This increase was the first advance in the index since March, 1925, when it stood at 131. It stood at the highest point reached in the past three years. The index of Lumber Statistics, which is a number of prices of 494 commodities at wholesale (1913 prices—100) increased from 146 in May to 147 in June, 1925. The index of farmers' purchasing power, which is based upon the ratio between the farm index and the Bureau of Labor Statistics wholesale price index of non-agricultural commodities, remained at 90 (1913 purchasing power—100) during June. This is the same figure as was reported for April and May, 1925, but is 1.8 per cent below the figure (91.83) reported for March, 1925, when the index stood at the highest point reached since June, 1920.

Volume of commercial loans
of reporting member banks in the Federal Reserve district increased slightly (14,000,000) in June, 1925, as compared with 13,000,000 in May, 1925. During the past four months, such loans have fluctuated at levels slightly above \$20,000,000. Collateral

Mrs. Betty Jenkins, of Chicago, is suing her husband for divorce and is suing his parents for \$100,000 for alienation of affections. She charges that when they took a motor trip to Boston they took a dog along in preference to her.

She Sues

Most every baby frets more or less during hot weather.

Nine times out of ten it is because its tender skin is hot or chafed by heat or diaper rash.

Puretest Zinc Stearate
Will relieve and make baby happy.

Bandon Show Revived
MARSHFIELD, Ore.—The Bandon Women's Civic club has revived its former annual flower show and it will open this year July 31 for two days. The offerings this season will be sweet peas and dahlias. Mrs. C. R. Wade heads the committee, lists with many able assistants. Many prizes are being offered and the show will be the largest the club has yet given.

Business Activity Maintains Same Level as In March, April

BUSINESS BOX HED.
During June, 1925, general business activity in the Twelfth Federal Reserve District was maintained at approximately the same level as in March, April and May, 1925, a level well below the recent peak of February, 1924, but still slightly above estimated normal.

Industrial output increased seasonally
during June to levels slightly above those of a year ago, the increase being accompanied by a substantial gain in volume of employment. Continuance of a strong credit situation was reflected in banking statistics for the month. Interest rates were unchanged.

This bank's index of bank deposits
which reflects changes in business activity, advanced from 158 (1919 monthly average—100) in May, 1925, to 149 in June, 1925. Real allowance being made for normal seasonal variation in the figures as reported by banks in 26 principal financial centers. In June, 1924, the index stood at 121, the apparent increase of 15.7 per cent over the year period being approximately twice the estimated normal annual rate of growth for the district.

Volume of Building.
Volume of building construction has continued near record levels. June figures of value of building permits in 26 principal cities showed a smaller than seasonal increase as compared with figures for May, but were 38.8 per cent larger than the figures for June a year ago. During the first six months of 1925, the value of building permits issued in the 26 selected cities was larger than any during any half year of record, exceeding the previous peak figures of the last six months of 1923 by 6.4 per cent.

Grid Squad Called Early
ROSEBURG, Ore.—The Roseburg high school football squad is being called upon to turn out for fall training the first week in September, although school does not start until September 15. The first game of the season is scheduled with North Bend high school, October 10, and the coaches, Doubet and Lamm, hope to give the local players at least a month of training before the contest.

The new high school athletic field
will be in fine shape for the season, work having been done on it this summer.
