Three Elements Remain To Be Discovered by Science

LOS ANGELES, (AP)—There are probably three more elements...

The speaker described the composition...

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

They are probably three more to be discovered.

OVER THE ENTRANCE TO THE SAILORS' MISTON HOUSE AT THE BOSTON NAVY YARDS THIS FIGURE HAS HUNG FOR 47 YEARS.

The figure is an old figurehead of the cutter ship, Sam Schofield, which put out from Brunswick, Me., in the days of the sailing fleet.
